SUPPLEMENTARY INFORMATION: The Stafford Act, Title VI, Emergency Preparedness (42 U.S.C. 5195-5195(a)) identifies the purpose of emergency preparedness “for the protection of life and property in the United States from hazards.” It directs that the Federal Government “provide necessary direction, coordination, and guidance” as authorized for a comprehensive emergency preparedness system for all hazards. Emergency preparedness is defined as all “activities and measures designed or undertaken to prepare or minimize the effects of a hazard upon the civilian population . . .” The “conduct of research” is among the measures to be undertaken in preparation for hazards.

The DHS Strategic Plan 2014-2018 includes a Goal 5.1 including the goal for “improving strategies for the mission of empowering individuals and communities to strengthen and sustain their own preparedness”

The FEMA Strategic Plan 2014-2018 references FEMA priorities for preparing individuals in Priority #1—to achieve a survivor-centric mission where “Individuals and communities know the steps to take, have the tools required, and take appropriate actions, before, during, and after disasters”, and in Priority #3, to better prepare survivors and bystanders.

Presidential Policy Directive-8 (PPD-8) directs the Secretary of Homeland Security to “coordinate a comprehensive campaign to build and sustain national preparedness, including public outreach and

community-based and private sector programs to enhance national resilience, the provision of Federal financial assistance, preparedness efforts by the Federal Government, and national research and development efforts.”

In response to the charge to FEMA and to the DHS and FEMA strategic priorities, FEMA conducts programs to improve the public’s knowledge and actions for preparedness and resilience including the *READY.gov* program, the Prepareathon program, and related programs such as the Youth Preparedness program that focus on specific populations and hazards. Information from this collection will be used to track changes in knowledge, attitudes and behaviors related to preparedness in the general public, and to track the outcomes of the national campaigns and programs in motivating behavior change for preparedness in the general public.
