**SUPPLEMENTARY INFORMATION:**

### Introduction

The Privacy Act (5 U.S.C. 552a(e)(4) and (11)) requires each Federal agency to publish in the **Federal Register** a notice of a new and rescinded system of records. The Department’s regulations implementing the Privacy Act are contained in the Code of Federal Regulations (CFR) in 34 CFR part 5b.

The Privacy Act applies to information about an individual that is maintained in a system of records from which information is retrieved by a unique identifier associated with the individual, such as a name or Social Security number (SSN). The information about the individual is called a “record,” and the system, whether manual or computer based, is called a “system of records.”

The Privacy Act requires Federal agencies to publish a notice of a new system of records in the **Federal Register** and to submit a report to OMB whenever the agency publishes a new system of records or makes a significant change to an established system of records. Each agency is also required to send copies to the Chair of the Senate Committee on Homeland Security and Governmental Affairs and the Chair of the House Committee on Oversight and Government Reform. These reports are intended to permit an evaluation of the probable or potential effect of the proposal on the privacy rights of individuals.

The Privacy Act also requires Federal agencies to publish in the **Federal Register** a notice of rescindment when an agency stops maintaining a previously established system of records, but the rescission is not within the purview of subsection (r) of the Privacy Act; therefore, it is not required to be reported to OMB and Congress.

The Department identifies the PEPS system of records (18–11–09), as published in the **Federal Register** on June 4, 1999 (64 FR 30106, 30171–30173), and as amended on December 27, 1999 (64 FR 72384, 72405), to be rescinded because some of the records covered by this system of records will be maintained in the Department’s IPM system (18–11–21). The Department takes this action so that it does not maintain duplicate systems of records.

The IPM system is a web-accessible system created by the Department to support eligibility determination and enrollment of entities seeking to participate in student aid programs under title IV of the Higher Education Act of 1965, as amended (HEA), and to oversee those entities’ compliance with title IV, HEA’s statutory and regulatory requirements.

The IPM system contains information on individuals with substantial ownership interests in, or control over, authorized entities (postsecondary schools, lenders, guaranty agencies, or third-party servicers that participate in title IV, HEA student financial aid programs) regarding the eligibility, administrative capabilities, and financial responsibility of the schools, lenders, guaranty agencies, and third-party servicers. Such information includes, but is not limited to, the names, taxpayer identification numbers, bank account numbers, SSNs, personal identification numbers, personal addresses, personal phone numbers, and personal email addresses of the individuals with substantial ownership interests in, or control over, those entities.

The IPM system also contains information about individuals affiliated with authorized entities who request electronic access to title IV, HEA, Federal Student Aid (FSA) systems. Such information includes, but is not limited to, the individual’s name, SSN, date of birth, address, phone number, and authentication information (user ID, password, and security challenge questions and answers).

The IPM system will integrate a number of core partner management functions to deliver significant improvements from both a cost and customer satisfaction perspective. The partner management functions include enrollment, eligibility, and oversight processes used to manage partner entities as they administer title IV financial assistance. The IPM system will integrate the services currently provided by legacy systems into a single IPM solution. This integration will take an end-to-end view of FSA’s entire partner eligibility and oversight business, which includes the following legacy systems: Postsecondary Education Participants System (PEPS), Electronic Application for Approval to Participate in Federal Student Financial Aid Programs (eApp), eZ-Audit, Integrated Partner Management Document Management (IPM DM), and Lender’s Application Process (LAP). The benefits of integrating these legacy systems will include:

- Improved workflow automation to ensure timely completion of partner eligibility and enrollment processes;
- Improved efficiency in case management;
- A seamless repository of information;
- A scalable and configurable platform that will provide maximum flexibility to meet future needs;

- Reduced risks from leveraging current technologies to replace outdated and unsupported technologies;
- An established base of secure and accessible information;
- More efficient processes to meet internal and external reporting requirements;
- Improved overall program quality by reducing errors; and
- Reduction of the risk of FSA failing to detect a non-compliant partner.

Upon implementation of the IPM system, the PEPS legacy systems will be retired. However, some legacy systems may be kept alive for a short period of time to ensure the continued operation of our business until the new IPM system is fully functional.

**ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:**

In accordance with the Federal Information Security Management Act of 2002, as amended by the Federal Information Security Modernization Act of 2014 (FISMA), every Federal Student Aid information system must receive a signed Authority to Operate (ATO) from a designated official. The ATO process includes a rigorous assessment of security controls, a plan of action and milestones to remediate any identified deficiencies, and a continuous monitoring program.

The IPM system controls include a combination of FISMA management, operational, and technical controls, including the following control families: Access control, awareness and training, audit and accountability, security assessment and authorization, configuration management, contingency planning, identification and authentication, incident response, maintenance, media protection, physical and environmental protection, planning, personnel security, privacy, risk assessment, system and services acquisition, system and communications protection, system and information integrity, and program management.

All physical access to the Department's Virtual Data Center system is controlled and monitored by security personnel who check each individual entering the building for his or her employee or visitor badge. The computer system employed by the Department offers a high degree of resistance to tampering and circumvention. This security system limits data access to staff of the Department, schools, guarantors, authorized third-party servicer employees, lenders, accrediting agencies, State agencies, and

Department contractors on a “need-to-know” basis, and controls individual users’ ability to access and alter records within the system. All users of this system of records are given a unique user ID with personal identifiers. All interactions by individual users with the system are recorded.

#### RECORD ACCESS PROCEDURES:

You may gain access to any records in the IPM system that pertain to you. This is done by contacting the system manager and following the procedures for notification listed above. You must meet the requirements of 34 CFR 5b.5.

#### CONTESTING RECORD PROCEDURES:

You may contest the content of a record in the IPM system pertaining to you by presenting to the system manager, either in writing or in person, a request to amend or correct that information. The request to amend, or for an appointment to present an oral request, must be made in writing mailed to the system manager at the address provided above. The request must identify the particular record within the IPM system that you wish to have changed, state whether you wish to have the record amended, corrected, or rescinded, and explain the reasons why you wish to have the record changed. Your request must meet the requirements of the Department’s Privacy Act regulations at 34 CFR 5b.7.

#### NOTIFICATION PROCEDURES:

If you wish to determine whether a record exists regarding you in the IPM system, provide the system manager with your name, date of birth, and SSN. Your request must meet the requirements of the regulations at 34 CFR 5b.5, including proof of identity. You may address your request, or present that request in person, to the system manager at the address above.

#### DISCLOSURE TO CONSUMER REPORTING AGENCIES:

Disclosures pursuant to 5 U.S.C. 552a(b)(12) (as set forth in 31 U.S.C. 3711(e)); Disclosures may be made from this system to “consumer reporting agencies,” as defined in the Fair Credit Reporting Act (15 U.S.C. 1681a(f)) or the Debt Collection Improvement Act (31 U.S.C. 3701(a)(3)).

#### EXEMPTIONS PROMULGATED FOR THE SYSTEM:
