

reauthorized and amended by the National Invasive Species Act of 1996, authorizes the Coast Guard to develop regulations to prevent the introduction of nonindigenous species (NIS) via ballast water discharges. The Coast Guard recently promulgated regulations in the **Federal Register** on June 14, 2004, entitled, "Penalties for Non-submission of Ballast Water Management Reports" (68 FR 32864) and on July 28, 2004, entitled "Mandatory Ballast Water Management for U.S. Waters" (69 FR 44952). In doing so, the Great Lakes Ballast Water Management Program that became effective on May 10, 1993 (58 FR 18330), has remained unchanged, with the exception that all vessels equipped with ballast water tanks that enter the Great Lakes must now submit their ballast water reporting forms as of August 13, 2004 (68 FR 32864).

#### Description of Issue

Only vessels carrying pumpable ballast water that enter the Great Lakes after operating outside the U.S. Exclusive Economic Zone are required to comply with the Great Lakes ballast water management requirements found in 33 CFR part 151, subpart C. As a large number of vessels that call on the Great Lakes arrive with No Ballast on Board (NOBOB), they are not required to comply with these requirements. However, NOBOBs have the potential to carry NIS in their empty tanks via residual ballast water and/or accumulated sediments. Once NOBOBs enter the Great Lakes and take up ballast water, this water may mix with the residual water and sediments and if discharged into the Great Lakes, may provide a mechanism for NIS to enter the Great Lakes. Therefore, the Coast Guard is seeking the public's assistance in developing management strategies to address the invasion risks posed by NOBOBs.

The Coast Guard will use information gathered from this notice to develop a comprehensive program to reduce the threat of introducing NIS into the Great Lakes via NOBOBs. The identification of strategies to address invasion risks from residual ballast water and sediments must take into account vessel safety and stability, the full range of vessel types entering the Great Lakes, costs associated with implementing strategy options, and the need to evaluate the effectiveness of these strategies in actually preventing the introduction of NIS into the Great Lakes. The development of management strategies to prevent NIS introduction from NOBOBs presents a complex challenge and requires close collaboration

between government agencies, the scientific community, the shipping industry, and a wide range of stakeholders.

#### Extension of the Designation of Temporary Protected Status for El Salvador; Automatic Extension of Employment Authorization Documentation for El Salvador TPS Beneficiaries

**AGENCY:** U.S. Citizenship and Immigration Services, DHS.

**ACTION:** Notice.

**SUMMARY:** The Temporary Protected Status designation for El Salvador will expire on March 9, 2005. This notice extends the designation of El Salvador for 18 months, until September 9, 2006, and sets forth procedures necessary for nationals of El Salvador (or aliens having no nationality who last habitually resided in El Salvador) with TPS to re-register and to apply for an extension of their employment authorization documents (EADs) for the additional 18-month period. Re-registration is limited to persons who registered under the initial designation announced on March 9, 2001 or who filed their first application for TPS under the late initial registration provisions at 8 CFR 244.2(f)(2) and also timely re-registered under each subsequent extension of the designation. Eligible aliens also must have maintained continuous physical presence in the United States since March 9, 2001, and continuous residence in the United States since February 13, 2001. Certain nationals of El Salvador (or aliens having no nationality who last habitually resided in El Salvador) who have not previously applied for temporary protected status may be eligible to apply under the late initial registration provisions.

Given the large number of Salvadorans affected by this notice, the Department of Homeland Security recognizes that many re-registrants may not receive their new employment authorization documents until after their current documents expire on March 9, 2005. Accordingly, this notice automatically extends the validity of employment authorization documents issued under the temporary protected status designation of El Salvador for 6 months, until September 9, 2005, and explains how temporary protected status beneficiaries and their employers may determine which employment

authorization documents are automatically extended.

**EFFECTIVE DATES:** The extension of temporary protected status for El Salvador is effective March 9, 2005, and will remain in effect until September 9, 2006. The 60-day re-registration period begins January 7, 2005, and will remain in effect until March 8, 2005.

##### What Authority Does the Secretary of DHS Have To Extend the Designation of TPS for El Salvador?

On March 1, 2003, the functions of the Immigration and Naturalization Service (INS) transferred from the Department of Justice (DOJ) to the Department of Homeland Security (DHS) pursuant to the Homeland Security Act of 2002, Public Law 107-296. The responsibilities for administering temporary protected status (TPS) held by the former INS were transferred to U.S. Citizenship and Immigration Services (USCIS).

Under section 244 of the Immigration and Nationality Act (Act), 8 U.S.C. 1254a, the Secretary of DHS, after consultation with appropriate agencies of the Government, is authorized to designate a foreign state (or part thereof) for TPS. 8 U.S.C. 1254a(b)(1). The Secretary of DHS may then grant TPS to eligible nationals of that foreign state (or aliens having no nationality who last habitually resided in that state). 8 U.S.C. 1254a(a)(1).

At least 60 days before the expiration of the TPS designation or any extension thereof, section 244(b)(3)(A) of the Act requires the Secretary of DHS to review, after consultation with appropriate agencies of the Government, the
