[Docket No. FAA-2004-19504; Airspace  
Docket No. 04-ACE-64]

**Establishment of Class E2 Airspace;  
Wichita Colonel James Jabara Airport,  
KS**

**AGENCY:** Federal Aviation  
Administration (FAA), DOT.

**ACTION:** Final rule.

**SUMMARY:** This rule establishes a Class E surface area at Wichita Colonel James Jabara Airport, KS. The effect of this rule is to provide appropriate controlled Class E airspace for aircraft executing instrument approach procedures to Colonel James Jabara Airport and to segregate aircraft using instrument approach procedures in instrument conditions from aircraft operating in visual conditions.

**EFFECTIVE DATE:** 0901 UTC, March 17, 2005.

**SUPPLEMENTARY INFORMATION:****History**

On Wednesday, November 10, 2004, the FAA proposed to amend 14 CFR part 71 to establish a Class E surface area at Wichita Colonel James Jabara Airport, KS (69 FR 65107). The proposal was to establish a Class E surface area at Wichita Colonel James Jabara Airport, KS. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received.

**The Rule**

This amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) establishes Class E airspace designated as a surface area for an airport at Wichita Colonel James Jabara Airport, KS. Controlled airspace extending upward from the surface of the earth is needed to contain aircraft executing instrument approach procedures. Weather observations will be provided by an Automated Surface Observing System (ASOS) and communications will be direct with Wichita Approach Control. The area

will be depicted on appropriate aeronautical charts.

Class E airspace areas designated as surface areas are published in Paragraph 6002 of FAA Order 7400.9M, Airspace Designations and Reporting Points, dated August 30, 2004, and effective September 16, 2004, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

This rulemaking is promulgated under the authority described in subtitle VII, part A, subpart I, section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority since it contains aircraft executing instrument approach procedures to Colonel James Jabara Airport.

**Drawbridge Operation Regulation;  
Boeuf River, Mason, LA**

**AGENCY:** Coast Guard, DHS.

**ACTION:** Final rule.

**SUMMARY:** The Coast Guard is removing the existing drawbridge operation regulation for the draw of the SR 4 bridge across the Boeuf River, mile 32.3, near Mason, Louisiana. The existing bridge has been removed from service and a replacement bridge has been constructed on the same alignment. Since the movable span of the bridge has been removed, the regulation controlling the opening and closing of the bridge is no longer necessary.

**DATES:** This rule is effective January 7, 2005.
