

records created using electronic mail and word processing. This schedule authorizes the agency to apply the proposed disposition instructions to any recordkeeping medium.

8. Environmental Protection Agency, Office of Solid Waste and Emergency Response (N1-412-04-8, 5 items, 2 temporary items). Software and inputs of the National Resource Conservation and Recovery Act Information System, an electronic system used to record and track information provided by the regulated community concerning the generation, shipment, treatment, and disposal of hazardous wastes. Proposed for permanent retention are the system data, system documentation, and biennial reports.

9. Executive Office of the President, Office of the United States Trade Representative (N1-364-00-2, 21 items, 17 temporary items). Electronic records and systems used throughout the agency, including such records as calendars and spreadsheets, a legislative referral tracking system, phone system listings, public reading room logs, the Section 301 Trade Act violations system, and a travel system. Also included are electronic copies created using word processing. Proposed for permanent retention are trade negotiation databases and a correspondence tracking system relating to other permanent records, along with related system documentation.

10. National Skill Standards Board, Agency-wide (N1-220-04-9, 3 items, 1 temporary item). Electronic copies of records created using electronic mail and word processing that relate to the Board's efforts regarding the development of a uniform system of voluntary workplace standards for American industries. Records proposed for permanent retention include recordkeeping copies of committee files, conference and presentation files, the Executive Deputy Director's subject files, hearings records, publications, web page records, organization and budget files, and video recordings of meetings, hearings, and press conferences.

11. U.S. Chemical Safety and Hazard Investigation Board, Office of General Counsel (N1-220-04-8, 19 items, 14 temporary items). Litigation files, records relating to investigations, rulemaking dockets, chronological files, procurement solicitation reviews, inter-agency agreements, annual Freedom of Information Act reports, and other records accumulated by the General Counsel's office. Also included are electronic copies of records created using electronic mail and word processing. Recordkeeping copies of

such records as legal opinions, orders issued by the Board, and voting records of Sunshine Act meetings are proposed for permanent retention. The agency will notify NARA of potentially permanent investigation and litigation files, which will be appraised on a case-by-case basis.

Dated: January 5, 2005.

Michael J. Kurtz,

Assistant Archivist for Records Services—Washington, DC.

BILLING CODE 7515-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-324 and 50-325]

Carolina Power & Light Company; Brunswick Steam Electric Plant, Units 1 and 2; Notice of Intent To Prepare an Environmental Impact Statement and Conduct Scoping Process

Carolina Power & Light Company (CP&L), now doing business as Progress Energy Carolinas, Inc., has submitted an application for renewal of Facility Operating Licenses, DPR-71 and DPR-62, for an additional 20 years of operation at the Brunswick Steam Electric Plant, Units 1 and 2 (BSEP). BSEP is located in Brunswick County in southeastern North Carolina, near the mouth of the Cape Fear River. The operating licenses for BSEP, Units 1 and 2, expire on September 8, 2016, and December 27, 2014, respectively. The application for renewal was received on October 20, 2004, pursuant to Title 10 of the Code of Federal Regulations Part 54 (10 CFR Part 54). A notice of receipt and availability of the application, which included the environmental report (ER), was published in the **Federal Register** on November 18, 2004 (69 FR 67611). A notice of acceptance for docketing of the application and a notice of opportunity for hearing regarding renewal of the facility operating licenses was published in the **Federal Register** on December 6, 2004 (69 FR 70471-70473). The purpose of this notice is to inform the public that the U.S. Nuclear Regulatory Commission (NRC) will be preparing an environmental impact statement (EIS) in support of the review of the license renewal application and to provide the public an opportunity to participate in the environmental scoping process, as defined in 10 CFR 51.29. In addition, as outlined in 36 CFR 800.8, "Coordination with the National Environmental Policy Act," the NRC plans to coordinate compliance with Section 106 of the

National Historic Preservation Act in meeting the requirements of the National Environmental Policy Act of 1969 (NEPA).

In accordance with 10 CFR 51.53(c) and 10 CFR 54.23, CP&L submitted the ER as part of the application. The ER was prepared pursuant to 10 CFR Part 51 and is available for public inspection at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland 20852, or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible at <http://www.nrc.gov/reading-rm/adams.html>, which provides access through the NRC's Electronic Reading Room link. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR Reference staff at 1-800-397-4209, or 301-415-4737, or by e-mail to pdr@nrc.gov. The application may also be viewed on the Internet at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications.html>. In addition, the William Madison Randall Library, located at 601 S. College Road, Wilmington, North Carolina 28403, has agreed to make the ER available for public inspection.

This notice advises the public that the NRC intends to gather the information necessary to prepare a plant-specific supplement to the Commission's "Generic Environmental Impact Statement (GEIS) for License Renewal of Nuclear Plants," (NUREG-1437) in support of the review of the application for renewal of the BSEP operating licenses for an additional 20 years. Possible alternatives to the proposed action (license renewal) include the no action alternative and reasonable alternative energy sources. The NRC is required by 10 CFR 51.95 to prepare a supplement to the GEIS in connection with the renewal of an operating license. This notice is being published in accordance with the National Environmental Policy Act of 1969 (NEPA) and the NRC's regulations found in 10 CFR Part 51.

The NRC will first conduct a scoping process for the supplement to the GEIS and, as soon as practicable thereafter, will prepare a draft supplement to the GEIS for public comment. Participation in the scoping process by members of the public and local, State, Tribal, and Federal government agencies is encouraged. The scoping process for the supplement to the GEIS will be used to accomplish the following:

a. Define the proposed action which is to be the subject of the supplement to the GEIS;

b. Determine the scope of the supplement to the GEIS and identify the significant issues to be analyzed in depth;

c. Identify and eliminate from detailed study those issues that are peripheral or that are not significant;

d. Identify any environmental assessments and other EISs that are being or will be prepared that are related to, but are not part of the scope of the supplement to the GEIS being considered;

e. Identify other environmental review and consultation requirements related to the proposed action;

f. Indicate the relationship between the timing of the preparation of the environmental analyses and the Commission's tentative planning and decision-making schedule;

g. Identify any cooperating agencies and, as appropriate, allocate assignments for preparation and schedules for completing the supplement to the GEIS to the NRC and any cooperating agencies; and

h. Describe how the supplement to the GEIS will be prepared, and include any contractor assistance to be used.

The NRC invites the following entities to participate in scoping:

a. The applicant, Carolina Power & Light Company, now doing business as Progress Energy Carolinas, Inc;

b. Any Federal agency that has jurisdiction by law or special expertise with respect to any environmental impact involved, or that is authorized to develop and enforce relevant environmental standards;

c. Affected State and local government agencies, including those authorized to develop and enforce relevant environmental standards;

d. Any affected Indian tribe;

e. Any person who requests or has requested an opportunity to participate in the scoping process; and

f. Any person who has petitioned or intends to petition for leave to intervene.

In accordance with 10 CFR 51.26, the scoping process for an EIS may include a public scoping meeting to help identify significant issues related to a proposed activity and to determine the scope of issues to be addressed in an EIS. The NRC has decided to hold public meetings for the BSEP license renewal supplement to the GEIS. The scoping meetings will be held at the Southport City Hall, 201 E. Moore Street, Southport, North Carolina 28461, on Thursday, January 27, 2005. There will be two sessions to accommodate

interested parties. The first session will convene at 1:30 p.m. and will continue until 4:30 p.m., as necessary. The second session will convene at 7 p.m. with a repeat of the overview portions of the meeting and will continue until 10 p.m., as necessary. Both meetings will be transcribed and will include: (1) An overview by the NRC staff of the NEPA environmental review process, the proposed scope of the supplement to the GEIS, and the proposed review schedule; and (2) the opportunity for interested government agencies, organizations, and individuals to submit comments or suggestions on the environmental issues or the proposed scope of the supplement to the GEIS. No formal comments on the proposed scope of the supplement to the GEIS will be accepted during the informal discussions. To be considered, comments must be provided either at the transcribed public meetings or in writing, as discussed below. Persons may register to attend or present oral comments at the meetings on the scope of the NEPA review by contacting Mr. Richard L. Emch, Jr., by telephone at 1-800-368-5642, extension 1590, or by e-mail to the NRC at

BrunswickEIS@nrc.gov no later than January 18, 2005. Members of the public may also register to speak at the meeting within 15 minutes of the start of each session. Individual oral comments may be limited by the time available, depending on the number of persons who register. Members of the public who have not registered may also have an opportunity to speak, if time permits. Public comments will be considered in the scoping process for the supplement to the GEIS. The meeting room is on the second floor of the building, and there is no elevator. Therefore, the meeting room is not handicap accessible. Mr. Emch will need to be contacted no later than January 18, 2005, if special equipment or accommodations are needed to attend or present information at the public meeting, so that the NRC staff can determine whether the request can be accommodated.

Members of the public may send written comments on the environmental scope of the BSEP license renewal review to the Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration, Mailstop T-6D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and should cite the publication date and page number of this **Federal Register** notice. Comments may also be delivered to the NRC, Room T-6D59, Two White Flint North, 11545 Rockville Pike,

Rockville, Maryland, from 7:30 a.m. to 4:15 p.m. during Federal workdays. To be considered in the scoping process, written comments should be postmarked by March 11, 2005. Electronic comments may be sent by email to the NRC at *BrunswickEIS@nrc.gov* and should be sent no later than March 11, 2005, to be considered in the scoping process. Comments will be available electronically and accessible through ADAMS at <http://www.nrc.gov/reading-rm/adams.html>. Participation in the scoping process for the supplement to the GEIS does not entitle participants to become parties to the proceeding to which the supplement to the GEIS relates. Notice of opportunity for a hearing regarding the renewal application was the subject of the aforementioned **Federal Register** notice (69 FR 70471). Matters related to participation in any hearing are outside the scope of matters to be discussed at this public meeting.

At the conclusion of the scoping process, the NRC will prepare a concise summary of the determination and conclusions reached, including the significant issues identified, and will send a copy of the summary to each participant in the scoping process. The summary will also be available for inspection in ADAMS at <http://www.nrc.gov/reading-rm/adams.html>. The staff will then prepare and issue for comment the draft supplement to the GEIS, which will be the subject of separate notices and separate public meetings. Copies will be available for public inspection at the above-mentioned addresses, and one copy per request will be provided free of charge. After receipt and consideration of the comments, the NRC will prepare a final supplement to the GEIS, which will also be available for public inspection.

Information about the proposed action, the supplement to the GEIS, and the scoping process may be obtained from Mr. Emch at the aforementioned telephone number or e-mail address.

Dated at Rockville, Maryland, this 4th day of January 2005.

For the Nuclear Regulatory Commission.

Pao-Tsin Kuo,

Program Director, License Renewal and Environmental Impacts Program, Division of Regulatory Improvement Programs, Office of Nuclear Reactor Regulation.
