Title: Annual Survey of Cooperative Involvement in International Markets.

OMB Number: 0570-0020.

Expiration Date of Approval: February 28, 2005.

Type of Request: Extension of a currently approved information collection.

Abstract: The mission of the Rural Business-Cooperative Service (RBS), formerly Agricultural Cooperative Service (ACS), is to assist farmer-owned cooperatives in improving the economic well-being of their farmer-members. This is accomplished through a comprehensive program of research on structural, operational, and policy issues affecting cooperatives; technical advisory assistance to individual cooperatives and to groups of producers who wish to organize cooperatives; and development of educational and informational material. The authority to carry out RBS's mission is defined in the Cooperative Marketing Act of 1926 (44 Stat. 802-1926).

Authority and Duties of Division (7 U.S.C. 453).

(a) The division shall render service to associations of producers of agricultural products, and federations and subsidiaries, thereof, engaged in the cooperative marketing of agricultural products including processing, warehousing, manufacturing, storage, the cooperative purchasing of farm supplies, credit, financing, insurance, and other cooperative activities.

(b) The division is authorized to:

(1) Acquire, analyze, and disseminate economic, statistical, and historical information regarding the progress, organization, and business methods of cooperative associations in the United States and foreign countries.

(2) Conduct studies of the economic, legal, financial, social, and other phases of cooperation, and publish the results thereof. Such studies shall include the analyses of the organization, operation, financial and merchandising problems of cooperative organizations.

(3) Make surveys and analyses if deemed advisable of the accounts and business practices of representative cooperative associations upon their request; report to the association so surveyed the results thereof; and with the consent of the association so surveyed to publish summaries of the results of such surveys, together with similar facts, for the guidance of cooperative associations and for the purpose of assisting cooperative associations in developing methods of business and market analysis.

(4) Acquire from all available sources, information concerning crop prospects, supply, demand, current receipts, exports, imports, and prices of agricultural products handled or marketed by cooperative associations, and employ qualified commodity marketing specialists to summarize and analyze this information and disseminate the same among cooperative associations and others.

RBS also has a stated objective to "assist U.S. farmer cooperatives to expand their participation in international trade of agricultural products and supplies and to review their progress."

As trade agreements are implemented and domestic farm supports are reduced, a global presence is increasingly important to producers, their communities, and to job-creation and retention in agri- and food-related industries. Measurement and monitoring of cooperatives' global presence are stated objectives of RBS's International Trade Program. In order to carry out the Agency's mission and objectives, RBS needs to collect information from the cooperative community. This information collection
