

appears that at least one carrier is providing E911 service for MLTSs under tariff in at least one state, and that carrier works with individual MLTS operators elsewhere within its footprint to implement customer-specific solutions if such are economically and technically feasible. We seek comment regarding the availability of E911/MLTS services offered under tariff or otherwise both in states that have passed E911/MLTS legislation or adopted E911/MLTS regulations and in states that have not. In particular, where these services are offered absent state legislative or regulatory action, we seek comment regarding the reasons the services were developed.

Specifically, commenters should (1) identify the carrier and the state or states in which that carrier offers or plans to offer E911 service for MLTSs; (2) provide links to the carrier's published tariffs, and identify the effective dates of those tariffs, where applicable; (3) identify the salient technical features of each service offered under tariff, including but not limited to which MLTS technologies are supported (e.g., Centrex, analog PBX, ISDN PBX, non-ISDN digital PBX, IP-PBX, or key system), which E911 MLTS-to-network technical interface standards or other specifications are supported (e.g., CAMA or Primary Rate Access (PRA) ISDN), and any special requirements regarding trunking arrangements or the use of Direct Inward Dial (DID) numbers; (4) identify salient operational characteristics of the service; (5) identify the Automatic Location Identification (ALI) database interface options and costs for MLTS operators, the procedural impacts on MLTS operators, and the ALI database interface standards or specifications supported; (6) indicate whether PSAPs generally have been able to receive and utilize the ALI and call-back information provided and, if not, why not; (7) estimate the degree to which the offerings satisfy or cover the MLTS market; and (8) identify real or perceived technical, economic, operational and other impediments to full E911 coverage for MLTSs.

Where specific technical features are required by state legislation or regulation, we ask that commenters identify those features. For those states where E911/MLTS service is provided under customer-specific arrangements, such as individual case basis (ICB) arrangements, we ask that commenters present and discuss all relevant information to allow us to characterize the available technical features. In each case, commenters should be sufficiently complete and specific in their descriptions of requirements and

references to standards to enable us to develop a comprehensive picture of commonalities and differences in E911/MLTS implementation across the states.

OFFICE OF GOVERNMENT ETHICS

Study Evaluating, and Making Recommendations for Improving, the Financial Disclosure Process for Employees of the Executive Branch; Opportunity for Comment

AGENCY: Office of Government Ethics (OGE).

ACTION: Notice.

SUMMARY: The Office of Government Ethics is conducting a study, pursuant to the Intelligence Reform and Terrorism Prevention Act of 2004, to evaluate and recommend improvements to the public financial disclosure process for employees of the executive branch. This notice indicates the pendency of OGE's study and provides the public and agencies the opportunity to comment.

DATES: Any comments from the public and the agencies must be received by February 11, 2005.

ADDRESSES: You may submit comments to OGE on the study by any of the following methods:

- E-mail: usoge@oge.gov. For E-mail messages, the subject line should include the following reference: "Comments Regarding Financial Disclosure Process Study."

- FAX: 202-482-9237.
- Mail, Hand Delivery or Courier: Office of Government Ethics, Suite 500, 1201 New York Avenue, NW., Washington, DC 20005-3917, Attention: Ira S. Kaye, Associate General Counsel.

FOR FURTHER INFORMATION CONTACT: Ira S. Kaye, Associate General Counsel, Office of Government Ethics, telephone: 202-482-9300; TDD: 202-482-9293; FAX: 202-482-9237.

SUPPLEMENTARY INFORMATION: Section 8403 of the Intelligence Reform and Terrorism Prevention Act of 2004, Public Law 108-458 (December 17, 2004), directs the Office of Government Ethics to provide a report to Congress, within 90 days, evaluating the financial disclosure process for employees of the executive branch, and recommending improvements to it. In order to comply with this mandate, OGE has undertaken a study of this subject. OGE's report will focus on whether to recommend amending the body of information that is statutorily required to be included on the Standard Form (SF) 278 Executive Branch Personnel Public Financial Disclosure Report, as well as whether to recommend changes to the public financial disclosure system itself. Specifically, OGE will analyze whether to recommend changing: the number of asset, income, transaction and liability valuation categories; the various reporting time periods; the dollar thresholds for reporting particular assets, income, transactions and liabilities; the requirements to report most transactions, to identify the type of income earned, and to report the actual dollar amounts of particular types of income; and the level of description and detail required, particularly on Schedules C (liabilities and agreements or arrangements) and D (outside positions and compensation over \$5,000) of the SF 278 report form.

As part of its consideration of these important matters, OGE believes it would be both appropriate and helpful to give the public and agencies an opportunity to express their views. Interested persons may submit comments to OGE, to be received by February 11, 2005, regarding any specific part of the financial disclosure process study or just to give general views on the study in order to assist OGE.

Approved: January 7, 2005.

Marilyn L. Glynn,

Acting Director, Office of Government Ethics.
