respondents are disability applicants and other sources of evidence. SSA uses various forms to collect the information specified in the regulations. The public reporting burden is accounted for in the Information Collection Requests for these forms. Consequently, we are assigning a placeholder of 1-hour to the specific reporting requirements in theses listings so that we do not duplicate the burden assigned to the forms.

Type of Request: Extension of an OMB-approved information collection.

Request for Review of Hearing Decision/Order—20 CFR 404.967-.981, 20 CFR 416.1467-.1481-0960-0277. SSA collects the information on form HA-520 from each claimant for Social Security or SSI benefits who is dissatisfied with the hearing decision or the dismissal of a hearing request and wants to request review of the decision by the Appeals Council. An individual may request Appeals Council review by filing a written request; however, a completed HA-520 ensures that SSA receives the information necessary to establish that the claimant filed the request for review within the prescribed time, that the claimant is a proper party, and that the claimant has completed the requisite steps to permit review by the Appeals Council. The Appeals Council also uses the information provided by the claimant to document the claimant's reason (s) for disagreeing with the ALJ decision or dismissal, to determine whether the claimant has additional evidence to submit, and to determine whether the claimant has a representative or wants to appoint one.

In a November 15, 2004 notice, USTR published a list of responsive petitions that were accepted for review. This notice specifies the results of the preliminary review of those petitions as well as the status of the petitions filed in 2003 that have remained under review.
