

a noncommercial educational broadcast station maintain a file for public inspection at its main studio or at another accessible location in its community of license. The contents of the file vary according to type of service and status. The contents include, but are not limited to, copies of certain applications tendered for filing, a statement concerning petitions to deny filed against such applications, copies of ownership reports and annual employment reports, statements certifying compliance with filing announcements in connection with renewal applications, a list of donors supporting specific programs, etc.

In addition, 47 CFR 73.3527(e)(8) requires that each broadcast licensee of a noncommercial educational station place in a public inspection file a list of community issues addressed by the station's programming. This list is kept on a quarterly basis and contains a brief description of how each issue was treated. This rule also specifies the length of time, which varies by document type, that each record must be retained in the public file. The public and FCC use the data to evaluate information about the licensee's performance and to ensure that station is addressing issues concerning the community to which it is licensed to serve.
