Assistance to High Energy Cost Rural Communities

AGENCY: Rural Utilities Service, USDA.

ACTION: Proposed rule.

SUMMARY: The Rural Utilities Service (RUS) is proposing regulations implementing its financial assistance programs for rural communities with extremely high energy costs. These programs are authorized under section 19 of the Rural Electrification Act of 1936, as amended (7 U.S.C. 918a). This proposed rule is intended to establish and clarify eligibility and application requirements, the review and approval process, and grant administration procedures for RUS grants to rural communities with extremely high energy costs and for grants to State entities for bulk fuel revolving loan funds. This publication of these rules will assure timely and effective distribution of grant funds to eligible rural communities and state entities. In the final rule section of this **Federal Register**, RUS is publishing this action as a direct final rule without prior proposal because RUS views this as a non-controversial action and anticipates no adverse comments. If no adverse comments are received in response to the direct final rule, no further action will be taken on this proposed rule and the action will become effective at the time specified in the direct final rule. If RUS receives adverse comments, RUS will publish a timely notice withdrawing the direct final rule based on this action. [Notice 2005-3]

Definition of "Agent" for BCRA Regulations on Non-Federal Funds or Soft Money and Coordinated and Independent Expenditures

AGENCY: Federal Election Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Federal Election Commission requests comments on the proposed revision of the definition of "agent" for its regulations on coordinated and independent expenditures, and non-Federal funds, which are commonly referred to as "soft money." Current Commission regulations define agent as "any person who has actual authority, either express or implied" to perform certain actions. This definition does not include persons acting only with apparent authority. The Commission's regulations defining agent were challenged in *Shays v. FEC*. The District Court held that the Commission's definitions of agent did not necessarily run contrary to Congress's intent and were based on a permissible construction of the statute. However, the court also held that the Commission had not provided adequate explanation of its decision to exclude from the definition of agent persons acting only with apparent authority and therefore had not satisfied the reasoned analysis requirement of the Administrative Procedures Act. The court remanded the regulations to the Commission for further action consistent with the court's opinion. Accordingly, in order to comply with the court's decision, the Commission now revisits the definition of agent by issuing this Notice of Proposed Rulemaking. No final decision has been made by the Commission on the issues presented in this rulemaking. Further information is provided in the supplementary information that follows.
