[Docket No. FAA-2005-20056 Airspace
Docket No. 05-AEA-01]

**Proposed Amendment to Class E
Airspace; Harrisburg, PA**

AGENCY: Federal Aviation
Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking

SUMMARY: This notice proposes to amend the Class E airspace area in the Harrisburg, PA metropolitan area. The development of multiple area navigation (RNAV) Standard Instrument Approach Procedures (SIAP) for numerous airports within the Harrisburg, PA metropolitan area with approved Instrument Flight Rules (IFR) operations and the resulting overlap of designated Class E-5 airspace have made this proposal necessary. The proposal would consolidate the Class E-5 airspace designations for ten airports and result in the rescission of seven separate Class E-5 descriptions through separate rulemaking action. The area would be depicted on aeronautical charts for pilot reference.

DATES: Comments must be received on or before March 10, 2005.

ADDRESSES: Send comments on the proposal to the Docket Management System, U.S. Department of Transportation, Room Plaza 401, 400 Seventh Street, SW., Washington, DC 20590-0001. The Proposal

The FAA is considering an amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) to amend the Class E airspace within the Harrisburg, PA metropolitan area. The proposal would consolidate the following airport Class E-5 airspace designations into the Harrisburg, PA designation: Annville, PA, Millard Airport (N76); Carlisle, PA, Carlisle Airport (N94); Fort Indiantown Gap, PA, Muir AAF (MUI); Harrisburg, PA, Capital City Airport (CXV), Harrisburg

International Airport (MDT); Lancaster, PA, Lancaster Airport (LNS); Marietta, PA, Donegal Springs Airpark (N71); Myerstown, PA, Decks Airport (9D4); York PA, York Airport (THV). This action would result in the rescission of seven Class E-5 designations under a separate docket. The affected airspace would subsequently be incorporated into the Harrisburg, PA description. The airspace will be defined to accommodate the approaches and contain IFR operations to and from those airports. This change would have no impact on aircraft operations since the type of airspace designation is not changing. Furthermore, the IFR approach procedures for the individual airports within the area would not be affected. Class E airspace designations for airspace areas extending upward from 700 ft or more above the surface are published in Paragraph 6005 of FAA Order 7400.9M, dated August 30, 2004, and effective September 16, 2004, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that would only affect air traffic procedures and air navigation, it is certified that this proposed rule would not have significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

- Procedural Determinations

I. Background on the Illinois Program

Section 503(a) of the Act permits a State to assume primacy for the regulation of surface coal mining and reclamation operations on non-Federal and non-Indian lands within its borders by demonstrating that its program includes, among other things, "a State law which provides for the regulation of surface coal mining and reclamation operations in accordance with the requirements of this Act * * *; and rules and regulations consistent with regulations issued by the Secretary pursuant to this Act." See 30 U.S.C. 1253(a)(1) and (7). On the basis of these criteria, the Secretary of the Interior conditionally approved the Illinois program on June 1, 1982. You can find background information on the Illinois program, including the Secretary's findings, the disposition of comments, and the conditions of approval of the Illinois program in the June 1, 1982, **Federal Register** (47 FR 23858). You can also find later actions concerning the Illinois program and program amendments at 30 CFR 913.10, 913.15, 913.16, and 913.17.

II. Description of the Proposed Amendment

By letter dated December 10, 2004 (Administrative Record No. IL-5086), the Illinois Department of Natural Resources, Office of Mines and Minerals (Department) sent us an amendment to its program under SMCRA (30 U.S.C. 1201 *et seq.*). The Department proposed to amend its regulations at 62 Illinois Administrative Code (IAC) Parts 1700, 1761, 1762, 1772, and 1773 and its statutes at 225 Illinois Compiled Statutes (ILCS) 720/1.04. The Department sent the amendment at its own initiative. Below is a summary of the changes proposed by the Department. The full text of the program amendment is available for you to read at the locations listed above under **ADDRESSES**.
