

six WD40 repeats, and a heparin-binding domain. *In vitro*, over expression of AAMP-1 promotes tumor cell invasion and metastasis as well as angiogenesis. AAMP-1 was later found to be over expressed in endothelial cells, cytotrophoblasts, and poorly differentiated colon adenocarcinoma cells found in lymphatics. In addition, gene expression studies have shown that AAMP-1 is over expressed in breast and gastrointestinal tumors.

The issued patents claim proteins, polypeptides, and recombinant polyclonal antibodies specific to AAMP-1 and their use in diagnostic and therapeutic applications. The antibodies are specific and can detect formalin-fixed antigen and SDS-denatured antigen.

These antibodies can be used for detailed expression studies of AAMP-1 in different cancer cell lines. The antibodies could also be used to promote cell adhesion to a substrate, promote tissue acceptance of prostheses, and promote wound healing. The antibodies could also be used to detect AAMP-1 in patient's sera as a useful diagnostic marker for multiple carcinomas including high nuclear grade ductal carcinoma *in situ* (Clinical Cancer Research Dec 2002 8:3788-95).

Dated: January 31, 2005.

Steven M. Ferguson,

Director, Division of Technology Development and Transfer, Office of Technology Transfer, National Institutes of Health.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

National Cancer Institute; Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2), notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), title 5 U.S.C., as amended. The grant applications and/or contract proposals and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications and/or contract proposals, the disclosure of which would

constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Cancer Institute Special Emphasis Panel, RFA CA-05-002 and CA-05-006-IMAT.

Date: March 9-10, 2005.

Time: 8 a.m. to 5 p.m.

Agenda: To review and evaluate grant applications.

Place: Gaithersburg Hilton, 620 Perry Parkway, Gaithersburg, MD 20877.

Contact Person: Sherwood Githens, PhD, Scientific Review Administrator, Special Review and Logistics Branch, National Cancer Institute, Division of Extramural Activities, 6116 Executives Blvd., Bethesda, MD 20892, 301/435-1822, *githens@mail.nih.gov*.
