We will track this indicator through the use of the following two performance measures:

Measure One: The percentage of those enrolled in the training program who become certified as principals and assistant principals.

Measure Two: The percentage of program completers earning certification as a principal or assistant principal and who are employed in those positions in high-need schools in high-need LEAs.

Performance Indicator 2: To provide professional development, coaching, mentoring, and other support activities to current, practicing principals and assistant principals in high-need schools in high-need LEAs. We will track this indicator through the use of the following performance measure:
