

collection requirement is set forth in the FEMA regulation, and the information provided by the affected public is used by FEMA to determine that a building, which is located on a designated coastal barrier and for which an application for flood insurance is being made, is neither new construction nor a substantial improvement, and is, therefore, eligible for NFIP coverage. If the information is not collected, NFIP policies would be provided for buildings, which are legally ineligible for it, thus exposing the Federal Government to an insurance liability Congress chose to limit.

#### Collection of Information

*Title:* Implementation of Coastal Barrier Resources Act.

*Type of Information Collection:* Extension of a currently approved collection.

*OMB Number:* 1660-0010.

*Abstract:* When an application for flood insurance is submitted for buildings located in CBRS communities, one of the following types of documentation must be submitted as evidence of eligibility:

- Certification from a community official stating the building is not located in a designated CBRS area.
- A legally valid building permit or certification from a community official stating that the building's start of construction date preceded the date that the community was identified in the system.
- Certification from the governmental body overseeing the area indicating that the building is used in a manner consistent with the purpose for which the area is protected.

*Affected Public:* Individuals or households; Business or other for-profit; Not-for-profit institutions; Farms; Federal Government; and State, Local or Tribal Government.

*Number of Respondents:* 60.

*Frequency of Response:* One time.

*Hours per Response:* 1.5.

*Estimated Total Cost to Respondents:* \$600 (60 respondents × \$10 per respondent). The cost to the respondent, *i.e.*, applicant for flood insurance, is the cost, if any, to obtain the required documentation from local officials. Fees charged, if any, to the applicants, are nominal, *i.e.*, the cost of photocopying the public record. Information of this type is frequently provided upon request free of charge by the community as a public service. The average cost to the respondent is estimated to be \$10, the cost to make phone calls, mail a written request, or make a trip to a local office to obtain the document, and includes any copying fees, which may be charged by the local office.

**COMMENTS:** Written comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. Comments should be received within 60 days of the date of this notice.

**ADDRESSES:** Interested persons should submit written comments to Muriel B. Anderson, Section Chief, Records Management, Information Resources Management Branch, Information Technology Services Division, Federal Emergency Management Agency, Emergency Preparedness and Response Directorate, Department of Homeland Security, 500 C Street, SW., Room 316, Washington, DC 20472.

**FOR FURTHER INFORMATION CONTACT:** Contact Lynn Sawyer, Program Analyst, Risk Insurance Branch, Mitigation Division at 301-918-1452 for additional information. You may contact Ms. Anderson for copies of the proposed information collection requirement at facsimile number (202) 646-3347 or e-mail address: [FEMA-Information-Collections@dhs.gov](mailto:FEMA-Information-Collections@dhs.gov).

Dated: February 16, 2005.

BILLING CODE 9110-10-P

**DEPARTMENT OF THE INTERIOR**

**Fish and Wildlife Service**

**Notice of Availability of the Devils River Minnow Draft Recovery Plan**

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice of document availability.

**SUMMARY:** The U.S. Fish and Wildlife Service (Service) announces the availability for public review of the Devils River Minnow Draft Recovery Plan. The Devils River minnow (*Dionda diaboli*) is known to occur in streams in Kinney and Val Verde Counties, Texas, and Coahila, Mexico. The Service solicits review and comment from the public on this Draft Recovery Plan.

**DATES:** The comment period for this Draft Recovery Plan closes April 11, 2005. Comments on the Draft Recovery Plan must be received by the closing date to assure consideration.

**ADDRESSES:** Persons wishing to review the Draft Recovery Plan can obtain a copy from the U.S. Fish and Wildlife Service, Austin Ecological Services Field Office, 10711 Burnet Road, Suite 200, Austin, Texas 78758. The Draft Recovery Plan may also be obtained from the Internet at <http://southwest.fws.gov/htopic.html> and <http://ifw2es.fws.gov/AustinTexas/>. Comments and materials concerning this Draft Recovery Plan may be mailed to "Field Supervisor" at the address above.

**FOR FURTHER INFORMATION CONTACT:** Robert Pine, Austin Ecological Services Field Office, at the above address; telephone (512) 490-0057, facsimile (512) 490-0974.

**SUPPLEMENTARY INFORMATION:**

**Background**

The Devils River minnow (*Dionda diaboli*) was listed as threatened on October 20, 1999, under authority of the

Endangered Species Act of 1973, as amended (64 FR 56596). The threats facing the survival and recovery of this species include habitat loss due to declining surface water flows from springs, pollution to streams, and impacts from nonnative species. The Draft Recovery Plan includes information about the species and provides objectives and actions needed to delist the species.

The delisting criteria proposed in the Draft Plan state that the Devils River minnow should be considered for delisting when:

(1) Population monitoring results verify stable or increasing Devils River minnow population trends for at least 10 years, throughout its range, including Devils River (middle portion), San Felipe Creek, Sycamore Creek, and Pinto Creek in Texas. Stable populations should also be confirmed in the Rio Salado drainage in Mexico and in Las Moras Creek, if reestablishment is scientifically feasible; (2) Flows in streams supporting Devils River minnow have been assured, including Las Moras Creek (if reestablishment is feasible), through State or local groundwater management plans, water conservation plans, drought contingency plans, regulations, or equivalent binding documents; (3) Protection, where necessary, of surface water quality is ensured by demonstrated compliance with water quality standards and implementation of water quality controls, particularly in urban areas such as the cities of Del Rio and Brackettville; and, (4) Management and control of nonnative species by local, regional, State, and Federal authorities are demonstrated to be successful.

A summary of high-priority recovery tasks includes actions to: (1) Maintain and enhance Devils River minnow populations and habitats by monitoring rangewide status, determining biological and ecological requirements, identifying specific habitat requirements, and managing existing Devils River minnow habitat; (2) Establish additional Devils River minnow populations within the historic range, specifically in Las Moras Creek, by developing and implementing a reintroduction plan, developing landowner cooperative agreements, and restoring habitat conditions at former sites of occurrence; and (3) Maintain genetic reserves of Devils River minnow through captive propagation by developing and implementing a genetics management plan and maintaining at least two captive populations until no longer needed.

Restoring an endangered or threatened animal or plant to the point
