

party arising out of or in connection with the patentee's use and/or occupancy of the patented real property resulting in: (1) Violations of Federal, State, and local laws and regulations that are now or in the future become, applicable to the real property; (2) Judgments, claims or demands of any kind assessed against the United States; (3) Costs, expenses, or damages of any kind incurred by the United States; (4) Releases or threatened releases of solid or hazardous waste(s) and/or hazardous substances(s), as defined by Federal or State environmental laws, off, on, into or under land, property, and other interests of the United States; (5) Other activities by which solids or hazardous substances or wastes, as defined by Federal and State environmental laws are generated, released, stored, used, or otherwise disposed of on the patented real property, and any cleanup response, remedial action or other actions related in any manner to said solid or hazardous substances or wastes; or (6) Natural resource damages as defined by Federal and State law. This covenant shall be construed as running with the patented real property and may be enforced by the United States in a court of competent jurisdiction.

Federal law requires purchasers to be U.S. citizens 18 years of age or older; a corporation subject to the laws of any State or of the United States; a State, State instrumentality, or political subdivision authorized to hold property; or an entity including, but not limited to, associations or partnerships capable of holding property or interests therein under the laws of the State of Nevada. Certification of qualification, including citizenship or corporation or partnership, must accompany the sale deposit.

In order to determine the fair market value of the subject public lands through appraisal, certain assumptions have been made of the attributes and limitations of the lands and potential effects of local regulations and policies on potential future land uses. Through publication of this notice, the Bureau of Land Management (BLM) gives notice that these assumptions may not be endorsed or approved by units of local government. Furthermore, no warranty of any kind shall be given or implied by the United States as to the potential uses of the lands offered for sale, and conveyance of the subject lands will not be on a contingency basis. It is the buyer's responsibility to be aware of all applicable local government policies and regulations that would affect the subject lands. It is also the buyer's responsibility to be aware of existing or prospective uses of nearby properties.

The purchaser will have 30 days from the date of receiving the sale offer to accept the offer and to submit a deposit of 30 percent of the purchase price. The purchaser must remit the remainder of the purchase price within 180 days from the date the sale offer is received.

The purchase price does not include the costs for publishing this Notice in the **Federal Register**. The purchaser will be required to reimburse the BLM for all publishing costs of the Notice and for the newspaper notification at final payment of the sale parcel. Payments must be by certified check, postal money order, bank draft, or cashier's check payable to the U.S. Department of the Interior—BLM. Failure to meet conditions established for this sale will void the sale and any monies received will be forfeited.

This parcel of land located near Gerlach, Nevada, is being offered for sale through direct sale procedures. The land is not required for Federal purposes. The disposal (sale) of the parcel would serve an important public objective being an integral part of a project of public importance and speculative bidding would jeopardize a timely completion and economic viability of the project. The proposed action is consistent with the objectives, goals, and decisions of the "Paradise-Denio Management Framework Plan", and the "Approved Land Amendment and Decision, January 1999." An appraisal report has been prepared by a state certified appraiser for the purposes of establishing fair market value. The appraisal report is available for review at the address shown above.

Publication of this Notice in the **Federal Register** segregates the subject lands from all appropriations under the public land laws, including the general mining laws, except sale under the Federal Land Policy and Management Act of 1976. The segregation will terminate upon issuance of the patent or November 22, 2005, whichever occurs first.

For a period until April 11, 2005, interested parties may submit comments to the Winnemucca Field Manager, Terry A. Reed, 5100 E. Winnemucca Blvd., Winnemucca, NV 89445. Comments must be sent by the United States Postal Service or private delivery services. Comments sent by Facsimile, E-mail, or other electronic means shall not be accepted. Comments must be signed with a return address. The BLM will not consider anonymous comments. Any comments received during this process, as well as the commenter's name and address, will be available to the public in the administrative record and/or pursuant

to a Freedom of Information Act request. You may indicate for the record that you do not wish to have your name and/or address made available to the public. Any determination by the Bureau of Land Management to release or withhold the names and/or addresses of those who comment will be made on a case-by-case basis. A commenter's request to have their name and/or address withheld from public release will be honored to the extent permissible by law following proper administrative procedures in reaching the decision or any other factor directly related to the suitability of the land for a non-competitive sale.

The Environmental Assessment (EA) and Decision Record (DR) (EA-NV-020-04-34) for this proposed sale are available for review at the Winnemucca Field Office, and on the Winnemucca Field Office Internet address at: <http://www.nv.blm.gov/winnemucca>. Comments submitted through the Web site shall not be accepted.

Any adverse comments will be reviewed by the State Director, who may sustain, vacate, or modify this realty action and issue a final determination. The Bureau of Land Management may accept or reject any or all offers, or withdraw any land or interest in the land from the sale, if, in the opinion of the Authorized Officer, consummation of the sale would not be fully consistent with the FLPMA or other applicable laws or is determined to not be in the public interest. In the absence of timely filed objections, this realty action will become the final determination of the Department of the Interior. The land will not be offered for sale until April 26, 2005.

BLM will make available for public inspection in their entirety all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses.

II. Background

BLM is proposing these supplementary rules in order to promote consistency between BLM (on issues of camping and occupancy, vehicles and off-road vehicles, fire, conduct, firearms, sanitation and refuse) and other land management agencies including the U.S. Forest Service, National Park Service, Oregon State Parks and Recreation, and the Washington Department of Natural Resources. These supplementary rules will apply to the public lands within the states of Oregon and Washington. These rules are necessary to protect the area's natural resources and to provide for the public's health and safety, provide needed guidance in the areas of camping, occupancy, and recreation, and allow for the assessment of penalties that are more commensurate with the level of the prohibited acts.

The supplementary rules are proposed under the authority of the Federal Land Policy and Management Act (FLPMA), 43 U.S.C. 1740, which applies to the public lands generally.

This Act sets penalties at the Class A misdemeanor level. These proposed supplementary rules are also proposed under the authority of the Taylor Grazing Act, 43 U.S.C. 315a, which sets penalties at the Infraction level (Class C misdemeanor), and the Sikes Act, 16 U.S.C. 670h(c)(5), which sets penalties at the Petty Offense level (Class B misdemeanor). The Taylor Grazing Act applies to areas within grazing districts and leased grazing lands, which encompasses most BLM public lands east of the Cascade Mountains in Oregon and Washington and lands in southwest Oregon. The Taylor Grazing Act directs the Secretary to make such rules and regulations as are necessary to accomplish the purposes of the Act. These purposes include regulating the occupancy and use of public lands and preserving the land and its resources from destruction or unnecessary injury. The Sikes Act applies to areas where BLM, in cooperation with State agencies and following comprehensive plans developed under 16 U.S.C. 670h, plans, develops, maintains, and coordinates programs for the conservation and rehabilitation of wildlife, fish, and game. This type of coordination occurs predominantly west of the Cascade Mountains under the Northwest Forest Plan, and includes the majority of those public lands. FLPMA, the Taylor Grazing Act, and the Sikes Act are all cited as authorities for promulgating 43 CFR 8365.1-6, the regulatory authority for supplementary rules.

The State of Oregon recently revised its requirement for ORV registration, placing the burden of requiring registration on each land owner. Supplementary rule b.5 (below) makes ORV registration a requirement on public lands, as endorsed by the Oregon Parks and Recreation Department.

III. Procedural Matters

Executive Order 12866, Regulatory Planning and Review

These proposed supplementary rules are not a significant regulatory action and are not subject to review by Office of Management and Budget under Executive Order 12866. These proposed supplementary rules will not have an effect of \$100 million or more on the economy. They will not adversely affect in a material way the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities. These proposed supplementary rules will not create a serious inconsistency or otherwise interfere with an action taken or planned by another agency. These

proposed supplementary rules do not alter the budgetary effects of entitlements, grants, user fees, or loan programs or the rights or obligations of their recipients; nor do they raise novel legal or policy issues. They merely impose rules of conduct and impose other limitations on certain recreational activities on certain public lands to protect natural resources and human health and safety.

Clarity of the Supplementary Rules

Executive Order 12866 requires each agency to write regulations that are simple and easy to understand. We invite your comments on how to make these proposed supplementary rules easier to understand, including answers to questions such as the following: (1) Are the requirements in the proposed supplementary rules clearly stated? (2) Do the proposed supplementary rules contain technical language or jargon that interferes with their clarity? (3) Does the format of the proposed supplementary rules (grouping and order of sections, use of headings, paragraphing, *etc.*) aid or reduce their clarity? (4) Would the supplementary rules be easier to understand if they were divided into more (but shorter) sections? (5) Is the description of the proposed supplementary rules in the **SUPPLEMENTARY INFORMATION** section of this preamble helpful to your understanding of the proposed supplementary rules? How could this description be more helpful in making the proposed supplementary rules easier to understand?

Please send any comments you have on the clarity of the supplementary rules to the address specified in the **ADDRESSES** section.

National Environmental Policy Act

BLM has prepared an environmental assessment (EA) and has found that the proposed supplementary rules would not constitute a major Federal action significantly affecting the quality of the human environment under section 102(2)(C) of the Environmental Protection Act of 1969 (NEPA), 42 U.S.C. 4332(2)(C). A detailed statement under NEPA is not required. BLM has placed the EA and the Finding of No Significant Impact (FONSI) on file in the BLM Administrative Record at the address specified in the **ADDRESSES** section. BLM invites the public to review these documents and suggests that anyone wishing to submit comments in response to the EA and FONSI do so in accordance with the Written Comments section above.

Regulatory Flexibility Act

Congress enacted the Regulatory Flexibility Act of 1980 (RFA), as amended, 5 U.S.C. 601–612, to ensure that Government regulations do not unnecessarily or disproportionately burden small entities. The RFA requires a regulatory flexibility analysis if a rule would have a significant economic impact, either detrimental or beneficial, on a substantial number of small entities. These proposed supplementary rules should have no effect on business entities of whatever size. They merely would impose reasonable restrictions on certain recreational activities on certain public lands to protect natural resources and the environment, and human health and safety. Therefore, BLM has determined under the RFA that these proposed supplementary rules would not have a significant economic impact on a substantial number of small entities.

Small Business Regulatory Enforcement Fairness Act (SBREFA)

These proposed supplementary rules are not a “major rule” as defined at 5 U.S.C. 804(2). They would not result in an effect on the economy of \$100 million or more, in an increase in costs or prices, or in significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic and export markets. They would merely impose reasonable restrictions on certain recreational activities on certain public lands to protect natural resources and the environment, and human health and safety.

Unfunded Mandates Reform Act

These proposed supplementary rules do not impose an unfunded mandate on State, local, or tribal governments or the private sector of more than \$100 million per year; nor do these proposed supplementary rules have a significant or unique effect on State, local, or tribal governments or the private sector. They would merely impose reasonable restrictions on certain recreational activities on certain public lands to protect natural resources and the environment, and human health and safety. They also specifically call for compliance with State laws and regulations. Therefore, BLM is not required to prepare a statement containing the information required by the Unfunded Mandates Reform Act (2 U.S.C. 1531 *et seq.*)

Executive Order 12630, Governmental Actions and Interference With Constitutionally Protected Property Rights (Takings)

The proposed supplementary rules do not represent a government action capable of interfering with Constitutionally protected property rights. Therefore, the Department of the Interior has determined that the rule would not cause a taking of private property or require preparation of a takings assessment under this Executive Order.

Executive Order 13132, Federalism

The proposed supplementary rules would not have a substantial direct effect on the States, on the relationship between the National Government and the States, or on the distribution of power and responsibilities among the various levels of government. The proposed supplementary rules in several instances call for compliance with State law. Therefore, in accordance with Executive Order 13132, BLM has determined that these proposed supplementary rules do not have sufficient Federalism implications to warrant preparation of a Federalism Assessment.

Executive Order 12988, Civil Justice Reform

Under Executive Order 12988, the Office of the Solicitor determined that these proposed supplementary rules would not unduly burden the judicial system and that it meets the requirements of sections 3(a) and 3(b)(2) of the Order.

Executive Order 13175, Consultation and Coordination With Indian Tribal Governments

In accordance with Executive Order 13175, we have found that these proposed supplementary rules do not include policies that have tribal implications.

Paperwork Reduction Act

These proposed supplementary rules do not contain information collection requirements that the Office of Management and Budget must approve under the Paperwork Reduction Act of 1995, 44 U.S.C. 3501 *et seq.*

Author

The principal author of these proposed supplementary rules is James Huff, State Staff Ranger, Oregon State Office, P.O. Box 2965, Portland, Oregon 97204.

For the reasons stated in the preamble and under the authorities for supplementary rules found under 43

CFR 8365.1–6, 43 U.S.C. 1740, 16 U.S.C. 670h(c)(5), and 43 U.S.C. 315a, the Oregon/Washington State Director, Bureau of Land Management proposes to issue supplementary rules for public lands managed by the BLM in Oregon and Washington, to read as follows:
