SUPPLEMENTARY INFORMATION: Coeur Rochester, Inc., operates the Rochester Mine located on private and public lands in the south-central portion of the Humboldt Range in northwestern Nevada. CRI also operates a satellite deposit known as the Nevada Packard Mine located immediately southwest of the Rochester Mine. The original mine plan plus numerous modifications were analyzed in various environmental assessments. The proposal would include 103 acres of new disturbance and 1,817.4 acres of reclamation. Currently, the mine is approved to disturb approximately 1,704 acres. In November 2003, Coeur Rochester, Inc., submitted a Plan of Operation modification referred to as Amendment 7. As proposed in Amendment 7, the plan would disturb an additional 103 acres and would include expansion and deepening of the existing Rochester Open Pit, a heap leach pad facility 30-foot height increase, alteration of existing haul roads and a new heap leach pad facility. Amendment 7 also included proposed closure and reclamation activities, including potential for a pit lake, heap leach pad closure, waste rock facility closure, re-evaluation of an existing waste rock management plan, and final closure descriptions for all other facilities.

T. 32 N., R. 23 E.,

Section 16: SW¹/₄ NW¹/₄ SW¹/₄ NW¹/₄ NW¹/₄, W¹/₂ SW¹/₄ SW¹/₄ NW¹/₄ NW¹/₄, and NW¹/₄ NW¹/₄ NW¹/₄ SW¹/₄ NW¹/₄.

party arising out of or in connection with the patentee's use and/or occupancy of the patented real property resulting in: (1) Violations of Federal, State, and local laws and regulations that are now or in the future become, applicable to the real property; (2) Judgments, claims or demands of any kind assessed against the United States; (3) Costs, expenses, or damages of any kind incurred by the United States; (4) Releases or threatened releases of solid or hazardous waste(s) and/or hazardous substances(s), as defined by Federal or State environmental laws, off, on, into or under land, property, and other interests of the United States; (5) Other activities by which solids or hazardous substances or wastes, as defined by Federal and State environmental laws are generated, released, stored, used, or otherwise disposed of on the patented real property, and any cleanup response, remedial action or other actions related in any manner to said solid or hazardous substances or wastes; or (6) Natural resource damages as defined by Federal and State law. This covenant shall be construed as running with the patented real property and may be enforced by the United States in a court of competent jurisdiction.

Federal law requires purchasers to be U.S. citizens 18 years of age or older; a corporation subject to the laws of any State or of the United States; a State, State instrumentality, or political subdivision authorized to hold property; or an entity including, but not limited to, associations or partnerships capable of holding property or interests therein under the laws of the State of Nevada. Certification of qualification, including citizenship or corporation or partnership, must accompany the sale deposit.

In order to determine the fair market value of the subject public lands through appraisal, certain assumptions have been made of the attributes and limitations of the lands and potential effects of local regulations and policies on potential future land uses. Through publication of this notice, the Bureau of Land Management (BLM) gives notice that these assumptions may not be endorsed or approved by units of local government. Furthermore, no warranty of any kind shall be given or implied by the United States as to the potential uses of the lands offered for sale, and conveyance of the subject lands will not be on a contingency basis. It is the buyer's responsibility to be aware of all applicable local government policies and regulations that would affect the subject lands. It is also the buyer's responsibility to be aware of existing or prospective uses of nearby properties.

The purchaser will have 30 days from the date of receiving the sale offer to accept the offer and to submit a deposit of 30 percent of the purchase price. The purchaser must remit the remainder of the purchase price within 180 days from the date the sale offer is received.

The purchase price does not include the costs for publishing this Notice in the **Federal Register**. The purchaser will be required to reimburse the BLM for all publishing costs of the Notice and for the newspaper notification at final payment of the sale parcel. Payments must be by certified check, postal money order, bank draft, or cashier's check payable to the U.S. Department of the Interior—BLM. Failure to meet conditions established for this sale will void the sale and any monies received will be forfeited.

This parcel of land located near Gerlach, Nevada, is being offered for sale through direct sale procedures. The land is not required for Federal purposes. The disposal (sale) of the parcel would serve an important public objective being an integral part of a project of public importance and speculative bidding would jeopardize a timely completion and economic viability of the project. The proposed action is consistent with the objectives, goals, and decisions of the "Paradise-Denio Management Framework Plan", and the "Approved Land Amendment and Decision, January 1999." An appraisal report has been prepared by a state certified appraiser for the purposes of establishing fair market value. The appraisal report is available for review at the address shown above.

Publication of this Notice in the **Federal Register** segregates the subject lands from all appropriations under the public land laws, including the general mining laws, except sale under the Federal Land Policy and Management Act of 1976. The segregation will terminate upon issuance of the patent or November 22, 2005, whichever occurs first.

For a period until April 11, 2005, interested parties may submit comments to the Winnemucca Field Manager, Terry A. Reed, 5100 E. Winnemucca Blvd., Winnemucca, NV 89445. Comments must be sent by the United States Postal Service or private delivery services. Comments sent by Facsimile, E-mail, or other electronic means shall not be accepted. Comments must be signed with a return address. The BLM will not consider anonymous comments. Any comments received during this process, as well as the commenter's name and address, will be available to the public in the administrative record and/or pursuant

to a Freedom of Information Act request. You may indicate for the record that you do not wish to have your name and/or address made available to the public. Any determination by the Bureau of Land Management to release or withhold the names and/or addresses of those who comment will be made on a case-by-case basis. A commenter's request to have their name and/or address withheld from public release will be honored to the extent permissible by law following proper administrative procedures in reaching the decision or any other factor directly related to the suitability of the land for a non-competitive sale.

The Environmental Assessment (EA) and Decision Record (DR) (EA-NV-020-04-34) for this proposed sale are available for review at the Winnemucca Field Office, and on the Winnemucca Field Office Internet address at: <http://www.nv.blm.gov/winnemucca>. Comments submitted through the Web site shall not be accepted.

Any adverse comments will be reviewed by the State Director, who may sustain, vacate, or modify this realty action and issue a final determination. The Bureau of Land Management may accept or reject any or all offers, or withdraw any land or interest in the land from the sale, if, in the opinion of the Authorized Officer, consummation of the sale would not be fully consistent with the FLPMA or other applicable laws or is determined to not be in the public interest. In the absence of timely filed objections, this realty action will become the final determination of the Department of the Interior. The land will not be offered for sale until April 26, 2005.
