SUPPLEMENTARY INFORMATION:

I. Background

Under part 1 of Title I of the Employee Retirement Income Security Act of 1974 (ERISA), Title IV of ERISA, and the Internal Revenue Code of 1986, as amended, administrators of pension and welfare benefit plans (collectively, employee benefit plans) subject to those provisions and employers sponsoring certain fringe benefit plans and other plans of deferred compensation are required to file returns/reports annually concerning the financial condition and operations of the plans. These reporting requirements are satisfied generally by filing the Form 5500 Series in accordance with its instructions and the related regulations.

Beginning with the 1999 plan year, the Agency announced the availability of computer scannable forms and the development of electronic filing technologies. The computer scannable formats were developed to facilitate the implementation of a computerized system designed to process the Form 5500 and the IRS Form 5500-EZ—the ERISA Filing and Acceptance System, or EFAST. The Form 5500 and Form 5500-EZ may also be filed electronically via modem, magnetic tape, floppy diskette, or CD-ROM.

In order to participate in the electronic filing program, applicants are required to submit an Application for EFAST Electronic Signature and Codes for EFAST Transmitters and Software Developers (Form EFAST-1), the subject of this ICR. Applicants who may file the Form EFAST-1 include: (1) Individuals applying for an electronic signature to sign a Form 5500 or 5500-EZ as, or on behalf of, plan administrators, employers/plan sponsors, or Direct Filing Entities (DFEs) using modem,

magnetic tape, floppy diskette, or CD-ROM to file electronically; (2) transmitters (a company, trade, business, or other person) applying for codes to transmit Forms 5500 and/or Forms 5500-EZ for electronic filing using modem, magnetic tape, floppy diskette, or CD-ROM; and, (3) software developers (a company, trade, business, or other person that creates, programs, or otherwise modifies computer software) applying for codes required to develop EFAST-compliant computer software for electronically preparing and filing the Form 5500 and/or Form 5500-EZ. Applicants provide some or all of the following information depending on applicant type: Name and title of applicant, mailing address, Employer Identification Number (EIN), telephone number, facsimile number and e-mail address (optional), contact person if different than applicant, and a signed agreement concerning the terms and conditions of the electronic filing program. Applicants receive, depending on applicant type, some or all of the following codes: electronic signature; filer identification number; personal identification number; encryption key; electronic filing identification number; password; and software developer ID. Applicants use these codes, as applicable, in connection with electronic filing, electronic transmission, or the development of EFAST software for the Form 5500 and 5500-EZ.

The information provided by the applicants on EFAST-1, combined with the codes supplied to the applicants by the program, allow EFAST to verify a filer, transmitter, or software developer's standing as a qualified participant in the EFAST electronic filing program for the Form 5500 and 5500-EZ. EFAST-1 information also establishes a means of contact between the EFAST program and filers, transmitters, and software developers for information exchange.
