

DEPARTMENT OF ENERGY**Bonneville Power Administration****Wanapa Energy Center; Notice of Availability of Record of Decision (ROD)**

AGENCY: Bonneville Power Administration (Bonneville), Department of Energy (DOE).

ACTION: Notice of availability of Record of Decision (ROD).

SUMMARY: This notice announces the availability of the ROD to implement the proposed action identified in the Wanapa Energy Center Final Environmental Impact Statement (DOE/EIS-0342, December 2004). Under the proposed action, Bonneville will offer contract terms for interconnection of the Wanapa Energy Center with the Federal Columbia River Transmission System, as requested by the Confederated Tribes of the Umatilla Indian Reservation. The proposed project involves constructing and operating a 1,200-megawatt, natural gas-fired, combined-cycle power generation facility at a 47-acre site on tribal trust land near the Cities of Hermiston and Umatilla in Umatilla County, Oregon. Wanapa may construct this project in phases. A new switchyard will be constructed at the Wanapa site, and Bonneville will construct a new 500-kilovolt single-circuit transmission line from this switchyard 4.4 miles west to Bonneville's existing McNary Substation, which Bonneville will expand by about 2.75 acres on the east side.

ADDRESSES: Copies of the ROD and EIS may be obtained by calling BPA's toll-free document request line, 1-800-622-4520. The ROD and EIS are also available on our Web site, <http://www.efw.bpa.gov>.

FOR FURTHER INFORMATION, CONTACT: Thomas C. McKinney, Bonneville Power Administration—KEC-4, PO Box 3621, Portland, Oregon, 97208-3621; toll-free telephone number 1-800-282-3713; fax number 503-230-5699; or e-mail tcmckinney@bpa.gov.

Issued in Portland, Oregon, on February 24, 2005.

Steven G. Hickok,

Deputy Administrator.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY**Energy Information Administration****Agency Information Collection Activities: Submission for OMB Review; Comment Request**

AGENCY: Energy Information Administration (EIA), Department of Energy (DOE).

ACTION: Agency Information Collection Activities: Submission for OMB Review; Comment Request.

SUMMARY: The EIA has submitted the Residential Energy Consumption Survey to the Office of Management and Budget (OMB) for review and a reinstatement under section 3507(h)(1) of the Paperwork Reduction Act of 1995 (Pub. L. 104-13) (44 U.S.C. 3501 *et seq.*).

DATES: Comments must be filed by April 4, 2005. If you anticipate that you will be submitting comments but find it difficult to do so within that period, you should contact the OMB Desk Officer for DOE listed below as soon as possible.

ADDRESSES: Send comments to OMB Desk Officer for DOE, Office of Information and Regulatory Affairs, Office of Management and Budget. To ensure receipt of the comments by the due date, submission by FAX (202) 395-7285 is recommended. The mailing address is 726 Jackson Place, NW., Washington, DC 20503. (A copy of your comments should also be provided to EIA's Statistics and Methods Group at the address below.)

FOR FURTHER INFORMATION CONTACT: Requests for additional information should be directed to Grace Sutherland. To ensure receipt of the comments by the due date, submission by FAX (202) 287-1705 or e-mail

(grace.sutherland@eia.doe.gov) is recommended. The mailing address is Statistics and Methods Group (EI-70), Forrestal Building, U.S. Department of Energy, Washington, DC 20585-0670. Ms. Sutherland may be contacted by telephone at (202) 287-1712.

SUPPLEMENTARY INFORMATION: This section contains the following information about the energy information collection submitted to OMB for review: (1) The collection numbers and title; (2) the sponsor (*i.e.*, the Department of Energy component); (3) the current OMB docket number (if applicable); (4) the type of request (*i.e.*, new, revision, extension, or reinstatement); (5) response obligation (*i.e.*, mandatory, voluntary, or required to obtain or retain benefits); (6) a description of the need for and proposed use of the information; (7) a categorical description of the likely

respondents; and (8) an estimate of the total annual reporting burden (*i.e.*, the estimated number of likely respondents times the proposed frequency of response per year times the average hours per response).

1. Forms EIA-457 A/G "Residential Energy Consumption Survey."
2. Energy Information Administration.
3. OMB Number 1905-0092.
4. Reinstatement.
5. Mandatory.
6. EIA's Residential Energy Consumption Survey (RECS) collects basic data necessary to meet EIA's legislative mandates as well as the energy consumption and expenditures and related subjects for the household sector of the U.S. economy.

7. Individuals, Federal, State, and local Government as well as Business or other for-profit.

8. 2,341 hours of burden.

Please refer to the supporting statement as well as the proposed forms and instructions for more information about the purpose, who must report, when to report, where to submit, the elements to be reported, detailed instructions, provisions for confidentiality, and uses (including possible nonstatistical uses) of the information. For instructions on obtaining materials, see the **FOR FURTHER INFORMATION CONTACT** section.

Statutory Authority: Section 3507(h)(1) of the Paperwork Reduction Act of 1995 (Pub. L. No. 104-13) (44 U.S.C. 3501 *et seq.*).

Issued in Washington, DC, February 24, 2005.

Jay H. Casselberry,

Agency Clearance Officer, Statistics and Methods Group, Energy Information Administration.

ENVIRONMENTAL PROTECTION AGENCY

[ORD-2004-0022; FRL-7880-7]

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; Technology Performance and Product Information to Support Vendor Information Summaries (Renewal), EPA ICR Number 2154.02, OMB Control Number 2050-0194

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces

that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. This ICR is scheduled to expire on February 28, 2005. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. This ICR describes the nature of the information collection and its estimated burden and cost.

DATES: Additional comments may be submitted on or before April 4, 2005.

ADDRESSES: Submit your comments, referencing docket ID number ORD-2004-0022, to (1) EPA online using EDOCKET (our preferred method), by e-mail to ord.docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Office of Research and Development (ORD) Docket, Mail Code 28221T, 1200 Pennsylvania Ave., NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Eric N. Koglin, Environmental Protection Agency, P.O. Box 93478, Las Vegas, Nevada 89193-3478; telephone number: (702) 798-2332; fax number: (702) 798-2291; e-mail address: koglin.eric@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On December 21, 2004 (69 FR 76464) EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments.

EPA has established a public docket for this ICR under Docket ID No. ORD-2004-0022, which is available for public viewing at the ORD Docket in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the ORD Docket is (202) 566-1752. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to

access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice. EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

Title: Technology Performance and Product Information to Support Vendor Information Summaries (Renewal).

Abstract: The U.S. EPA Office of Research and Development's National Homeland Security Research Center (NHSRC) is helping to protect human health and the environment from adverse impacts resulting from intentional acts of terror. With an emphasis on decontamination and consequence management, water infrastructure protection, and threat and consequence assessment, NHSRC scientists and engineers are working to develop tools and information that will help detect the intentional introduction of chemical, biological, and radiological contaminants in buildings or water systems, the containment of these contaminants, the decontamination of buildings and/or water systems, and the disposal of material resulting from cleanups. With a substantial background in environmental protection and risk management, NHSRC researchers are well-positioned to develop the tools and technologies needed to respond to existing and potential terrorist threats. The focus of these efforts is aimed at providing advice, guidance, and scientific expertise on homeland security issues to emergency response personnel, consequence managers,

decision-makers, and government officials that will result in improved protection for all citizens.

An important facet of the NHSRC mission is identifying, testing, and evaluating technologies to support water utility operators, emergency responders, and facility managers. EPA lacks a well documented array of technological tools to adequately address all of the monitoring, detection, decontamination, and treatment tasks associated with remediating contaminated facilities and drinking water supply systems. EPA is aware that significant research, development, and commercialization efforts are underway by the private sector, but EPA needs to manage the information concerning the myriad of technology choices faced by its customers.

EPA has initiated this effort to develop brief vendor information summaries of available technologies relevant to the detection and decontamination of drinking water systems, building materials, building structures, and indoor air that may become contaminated with chemical, biological, or radiological contaminants. These summaries will be based upon vendor-generated or provided information including any independent, validated test data generated by governmental or other organizations and provided to EPA through this ICR. EPA will produce 4-10 page summaries on each of the technologies for which vendors voluntarily agreed to submit the requested information. These summaries will be shared with EPA and other emergency response personnel, building and facility managers, and water utility operators. The information provided by technology developers and vendors will also be used by the NHSRC's Technology Testing and Evaluation Program (TTEP) to identify technologies that may be suitable candidates for testing and evaluation and to track those technologies under development that may eventually be ready for rigorous testing and evaluation.

Developers and vendors with applicable technologies are being searched through all available mechanisms. Once identified, the developer or vendor is sent a letter requesting the submission of specific information pertinent to the performance, operation, maintenance, and cost of the technology. The submission of information is voluntary. Because the summarized information will be publically available, technology vendors/developers will be discouraged from submitting CBI.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and record keeping burden for this collection of information is estimated to average 15 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Homeland security technology developers or vendors.

Estimated Number of Respondents: 70.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 1,050 hours.

Estimated Total Annual Cost: \$66,000, includes \$0 annual capital/startup costs, \$500 annual O&M costs, and \$65,000 annual labor costs.

Changes in the Estimates: There is an increase of 675 hours in the total estimated burden currently identified in the OMB Inventory of Approved Burdens. This increase is due to adjustments made to the amount of time necessary for the compiling, submitting and commenting on information provided under this ICR after having consulted with respondents.

Dated: February 25, 2005.

Oscar Morales,

Director, Collection Strategies Division.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[Docket #: R10-OAR-2005-OR-0001; FRL-7880-8]

Adequacy Status of the Portland, OR Carbon Monoxide Maintenance Plan for Transportation Conformity Purposes

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of adequacy.

SUMMARY: In this notice, EPA is notifying the public that we have found the Second Portland Area Carbon Monoxide Maintenance Plan adequate for transportation conformity purposes. On March 2, 1999, the DC Circuit Court ruled that submitted State Implementation Plans (SIPs) cannot be used for conformity determinations until EPA has found them adequate. This affects future transportation conformity determinations prepared, reviewed and approved by the Portland Metro, Oregon Department of Transportation, Federal Highway Administration and the Federal Transit Administration.

DATES: This finding is effective March 21, 2005.

FOR FURTHER INFORMATION CONTACT: The finding is available at EPA's conformity Web site: <http://www.epa.gov/otaq/transp.htm>, (once there, click on the "Transportation Conformity" button, then look for "Adequacy Review of SIP Submissions"). You may also contact Wayne Elson, U.S. EPA, Region 10, Office of Air, Waste, and Toxics (AWT-107), 1200 Sixth Ave, Seattle WA 98101; (206) 553-1463 or elson.wayne@epa.gov.

SUPPLEMENTARY INFORMATION:

Background

Today's notice is simply an announcement of a finding that we have already made. EPA Region 10 sent a letter to the Washington Department of Ecology dated February 15, 2005, stating that the SIP is adequate for transportation conformity purposes.

Transportation conformity is required by section 176(c) of the Clean Air Act. EPA's conformity rule requires that transportation plans, programs, and projects conform to SIPs. Conformity to a SIP means that transportation activities will not produce new air quality violations, worsen existing violations, or delay timely attainment of the national ambient air quality standards.

The criteria by which we determine whether a SIP is adequate for

conformity purposes are outlined in 40 CFR 93.118(e)(4). Please note that an adequacy review is separate from EPA's completeness review and it also should not be used to prejudice our ultimate approval of the SIP. Even if we find a SIP adequate for conformity, the SIP could later be disapproved. For the reader's ease, the motor vehicle emission budget included in the Maintenance Plan in pounds per winter time day of carbon monoxide is: 1,238,575 in 2005; 1,033,578 in 2010; and 1,181,341 in 2017.

We have described our process for determining the adequacy in SIPs in guidance dated May 14, 1999. This guidance in now is reflected in the amended transportation conformity rule, July 1, 2004 (69 FR 40004). We followed this process in making our adequacy determination.

Authority: 42 U.S.C. 7401-7671q.

Dated: February 18, 2005.

Michael F. Gearheard,

Acting Regional Administrator, Region 10.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7880-1]

Announcement of the Board of Trustees for the National Environmental Education and Training Foundation, Inc.

SUMMARY: The National Environmental Education and Training Foundation was created by Section 10 of Public Law 101-619, the National Environmental Education Act of 1990. It is a private 501(c)(3) non-profit organization established to promote and support education and training as necessary tools to further environmental protection and sustainable, environmentally sound development. It provides the common ground upon which leaders from business and industry, all levels of government, public interest groups, and others can work cooperatively to expand the reach of environmental education and training programs beyond the traditional classroom. The Foundation supports a grant program that promotes innovative environmental education and training programs; it also develops partnerships with government and other organizations to administer projects that promote the development of an environmentally literate public.

The Administrator of the U.S. Environmental Protection Agency, as required by the terms of the Act,
