NATIONAL SCIENCE FOUNDATION

NSF-NASA Astronomy and Astrophysics Advisory Committee #13883; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following NSF-NASA Astronomy and Astrophysics Advisory Committee (#13883) meeting:

Date and Time: March 9, 2005, 2:30 a.m.–4:30 p.m.

Place: National Science Foundation, 4201 Wilson Blvd. RM 1020, Arlington, VA 22230, via teleconference.

Type of Meeting: Open.

Contact Person: Dr. G. Wayne Van Citters, Director, Division of Astronomical Sciences, Suite 1045, National Science Foundation, 4201 Wilson Blvd., Arlington, VA 22230. Telephone: 703-292-4908.

Purpose of Meeting: To provide advice and recommendations to the National Science Foundation (NSF) and the National Aeronautics and Space Administration (NASA) on issues within the field of astronomy and astrophysics that are of mutual interest and concern to the two agencies.

Agenda: To review and discuss a draft of the committee's March 2005 report.

Reason For Late Notice: While working independently on the report, committee members realized additional discussion was required. To meet the report deadline of March 15, a meeting with little advance notice is required.

Dated: March 2, 2005.

Susanne E. Bolton,

Committee Management Officer.

NATIONAL SCIENCE FOUNDATION

National Science Board Public Service Award Committee; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting:

Name: National Science Board Public Service Award Committee, #5195.

Date and Time: Thursday, March 24, 10:30 a.m.–11:30 a.m. e.s.t. (teleconference meeting).

Place: National Science Foundation, Arlington, Virginia.

Type of Meeting: Closed.

Contact Person: Mrs. Susan E. Fannoney, Executive Secretary, National Science Board Office, National Science Foundation, 4201 Wilson Blvd., Arlington, VA 22230. Telephone: 703-292-8096.

Purpose of Meeting: To provide advice and recommendations in the selection of the NSB Public Service Award recipients.

Agenda: To review and evaluate nominations as part of the selection process for awards.

Reason for Closing: The nominations being reviewed include information of a personal nature when disclosure would constitute unwarranted invasions of personal privacy. These matters are exempt under 5 U.S.C. 552b(c)(6) of the Government in the Sunshine Act.

Dated: March 2, 2005.

Susanne Bolton,

Committee Management Officer.

BILLING CODE 7555-01-M

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-325 and 50-324]

Carolina Power & Light Company, Brunswick Steam Electric Plant, Unit Nos. 1 and 2; Environmental Assessment and Finding of No Significant Impact

Introduction

The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an exemption from 10 CFR Part 50, Appendix J for Facility Operating Licenses Nos. DPR-71 and DPR-62 issued to the Carolina Power & Light Company (the licensee, also doing business as Progress Energy Carolinas, Inc.) for operation of the Brunswick Steam Electric Plant, Unit Nos. 1 and 2 located in Brunswick County, North Carolina.

Environmental Assessment

Identification of the Proposed Action

The proposed action would exempt the licensee from requirements to include main steam isolation valve (MSIV) leakage in the overall integrated leakage rate test measurement required by Section III.A of Appendix J, Option B.

The proposed action is in accordance with the licensee's application dated October 6, 2004, for exemption from certain requirements of Title 10 of the Code of Federal Regulations (10 CFR), Part 50, Appendix J.

The Need for the Proposed Action

Section 50.54(o) of 10 CFR Part 50 requires that primary reactor containments for water-cooled power reactors be subject to the requirements of Appendix J to 10 CFR Part 50. Appendix J specifies the leakage test requirements, schedules, and acceptance criteria for tests of the leaktight integrity of the primary reactor containment and systems and components that penetrate the containment. Option B, Section III.A requires that the overall integrated leak rate must not exceed the allowable leakage (La) with margin, as specified in the Technical Specifications (TS). The overall integrated leak rate, as specified in the 10 CFR Part 50, Appendix J definitions, includes the contribution from MSIV leakage. By letter dated October 6, 2004, the licensee has requested an exemption from Option B, Section III.A requirements to permit exclusion of MSIV leakage from the overall integrated leak rate test measurement.

The above-cited requirement of Appendix J requires that MSIV leakage measurements be grouped with the leakage measurements of other containment penetrations when containment leakage tests are performed. These requirements are inconsistent with the design of the Brunswick facilities and the analytical models used to calculate the radiological consequences of design-basis accidents. At Brunswick and similar facilities, the leakage from primary containment penetrations under accident conditions is collected and treated by the secondary containment system or would bypass the secondary containment. However, the leakage from MSIVs is collected and treated via an Alternative Leakage Treatment (ALT) path having different mitigation characteristics. In performing accident analyses, it is appropriate to group various leakage effluents according to the treatment they receive before being released to the environment, i.e., bypass leakage is grouped, leakage into secondary containment is grouped, and ALT leakage is grouped, with specific limits for each group defined in the TS. The proposed exemption would permit ALT path leakage to be independently grouped with its unique leakage limits.

Environmental Impacts of the Proposed Action

The proposed action will not significantly increase the probability or consequences of accidents. The NRC staff has completed its evaluation of the

proposed action and finds that the proposed exemption involves no increase in the total amount of radioactive effluent that may be released off site in the event of a design-basis accident. Therefore, the calculated doses remain within the acceptance criteria of 10 CFR Part 100 and Standard Review Plan Section 15, and there is no significant increase in occupational or public radiation exposure. The NRC staff thus concludes that granting the proposed exemption would result in no significant radiological environmental impact.

The proposed action does not affect non-radiological plant effluents or historical sites and has no other environmental impact. Therefore, there are no significant non-radiological impacts associated with the proposed exemption.

Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.

Alternative to the Proposed Action

As an alternative to the proposed action, the staff considered denial of the proposed action (i.e., the "no action" alternative). Denial of the exemption would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

This action does not involve the use of any resources not previously considered in the Final Environmental Statement dated January 1974 for the Brunswick Steam Electric Plant, Unit Nos. 1 and 2.

Agencies and Persons Consulted

In accordance with its stated policy, on March 1, 2005, the NRC staff consulted with the North Carolina State official, Ms. Wendy Tingle of the North Carolina Department of Environmental and Natural Resources, Division of Radiation Protection, regarding the environmental impact of the proposed action. Ms. Tingle had no comments.

Finding of No Significant Impact

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated October 6, 2004. Documents may

be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209 or 301-415-4737, or by e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland, this 28th day of February, 2005.

For the Nuclear Regulatory Commission.

Brenda L. Mozafari,

Senior Project Manager, Section 2, Project Directorate II, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Material Control and Accounting at Reactors and Wet Spent Fuel Storage Facilities

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of issuance.

SUMMARY: The Nuclear Regulatory Commission (NRC) has issued Bulletin (BL) 2005-01 to all holders of operating licenses for nuclear power reactors, decommissioning nuclear power reactor sites storing spent fuel in a pool, and wet spent fuel storage sites. This bulletin contains sensitive information relating to material control and accounting (MC&A) programs and is, therefore, being withheld from public disclosure in accordance with 10 CFR 2.390. The bulletin is being provided to only those licensees needing to respond to it.

DATES: The bulletin was issued on February 11, 2005.

ADDRESSES: Not applicable.

FOR FURTHER INFORMATION CONTACT: Martha Williams, at 301-415-7878, Glenn Tuttle, at 301-415-7644, or Dori Votolato, at 301-415-7633.

Dated at Rockville, Maryland, this 28th day of February 2005.

For the Nuclear Regulatory Commission.

Patrick L. Hiland,

Chief, Reactor Operations Branch, Division of Inspection Program Management, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

RAILROAD RETIREMENT BOARD

Agency Forms Submitted for OMB Review

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Railroad Retirement Board (RRB) has submitted the following proposal(s) for the collection of information to the Office of Management and Budget for review and approval.

Summary of Proposal(s):

- (1) *Collection title:* Representative Payee Parental Custody Monitoring.
- (2) *Form(s) submitted:* G-99d.
- (3) *OMB Number:* 3220-0176.
- (4) *Expiration date of current OMB clearance:* May 31, 2005.
- (5) *Type of request:* Extension of a currently approved collection.
- (6) *Respondents:* Individuals or households.
- (7) *Estimated annual number of respondents:* 1,230.
- (8) *Total annual responses:* 1,2300.
- (9) *Total annual reporting hours:* 103.
- (10) *Collection description:* Under section 12(a) of the Railroad Retirement Act, the RRB is authorized to select, make payments to, and conduct transactions with an annuitant's relative or some other person willing to act on behalf of the annuitant as a representative payee. The collection obtains information needed to verify the parent-for-child payee still retains custody of the child.

Additional Information or Comments: Copies of the forms and supporting documents can be obtained from Charles Mierzwa, the agency clearance officer at (312) 751-3363 or Charles.Mierzwa@rrb.gov.

Comments regarding the information collection should be addressed to Ronald J. Hodapp, Railroad Retirement Board, 844 North Rush Street, Chicago, Illinois, 60611-2092 or Ronald.Hodapp@rrb.gov and to the OMB Desk Officer for the RRB, at the Office of Management and Budget, Room 10230, New Executive Office Building, Washington, DC 20503.

Charles Mierzwa,
Clearance Officer.
