SUPPLEMENTARY INFORMATION:

National Highway Traffic Safety Administration

Title: Consumer Complaint Information.

OMB Control Number: 2127-0008.

Type of Request: Renewal of an Existing Collection of Information.

Abstract: Under Chapter 301 of Title 49 of the United States Code, manufacturers of motor vehicles and items of motor vehicle equipment must notify owners and provide a free remedy (*i.e.*, a recall) when it has been determined that a safety-related defect exists in the manufacturer’s product. NHTSA investigates possible safety defects and may order recalls. NHTSA solicits information from vehicle owners, which is used to identify and evaluate possible safety-related defects and provide evidence of the existence of such defects.

Consumer complaint information takes the form of a Vehicle Owner’s Questionnaire (VOQ), which is a paper, self-addressed mailer that consumers complete. This mailer contains owner information, product information, failed component information, and incident information. It may also take the form of an electronic VOQ containing the same information as identified above, which can be submitted via NHTSA’s Internet Web site or by calling the Department of Transportation’s Auto Safety Hotline. Or, it may take the form of a consumer letter. All consumer complaint information, in addition to other sources of available information, is reviewed by NHTSA staff to determine whether a safety-related defect trend or catastrophic failure is developing that would warrant the opening of a safety defect investigation.

Affected Public: Individuals and households.
