

Regulatory Flexibility Act

As Acting Director of the Office of Government Ethics, I certify under the Regulatory Flexibility Act (5 U.S.C. chapter 6) that this rulemaking will not have a significant economic impact on a substantial number of small entities because it primarily affects Federal employees.

Paperwork Reduction Act

The Paperwork Reduction Act (44 U.S.C. chapter 35) does not apply because this amendatory rulemaking does not contain information collection requirements that require the approval of the Office of Management and Budget.

Unfunded Mandates Reform Act

For purposes of the Unfunded Mandates Reform Act of 1995 (2 U.S.C. chapter 25, subchapter II), the final rule will not significantly or uniquely affect small governments and will not result in increased expenditures by State, local and tribal governments, in the aggregate, or by the private sector, of \$100 million or more (as adjusted for inflation) in any one year.

Congressional Review Act

The Office of Government Ethics has determined that this amendatory rulemaking is a nonmajor rule under the Congressional Review Act (5 U.S.C. chapter 8) and will submit a report thereon to the U.S. Senate, House of Representatives and General Accounting Office in accordance with that law at the same time this rulemaking document is sent to the Office of the Federal Register for publication in the **Federal Register**.

Executive Order 12866

In promulgating these technical amendments, OGE has adhered to the regulatory philosophy and the applicable principles of regulation set forth in section 1 of Executive Order 12866, Regulatory Planning and Review. These amendments have not been reviewed by the Office of Management and Budget under that Executive order, since they are not deemed "significant" thereunder.

Executive Order 12988

As Acting Director of the Office of Government Ethics, I have reviewed this final amendatory regulation in light of section 3 of Executive Order 12988, Civil Justice Reform, and certify that it meets the applicable standards provided therein.

[Docket No. 03-080-6]

RIN 0579-AB73

Bovine Spongiform Encephalopathy; Minimal-Risk Regions and Importation of Commodities; Partial Delay of Applicability

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule; partial delay of applicability.

SUMMARY: The amendments in this final rule delay until further notice the applicability of certain provisions of the rule entitled "Bovine Spongiform Encephalopathy; Minimal-Risk Regions and Importation of Commodities," published in the **Federal Register** on January 4, 2005, 70 FR 460-553. That rule was scheduled to amend the regulations in 9 CFR parts 93, 94, 95, and 96, effective March 7, 2005, to establish a category of regions that present a minimal risk of introducing bovine spongiform encephalopathy into the United States via live ruminants and ruminant products and byproducts and to add Canada to this category. That rule included conditions for the importation of certain live ruminants and ruminant products from such regions.

DATES: Effective March 7, 2005.

FOR FURTHER INFORMATION CONTACT: Dr. Karen James-Preston, Director, Technical Trade Services, National Center for Import and Export, VS, APHIS, 4700 River Road Unit 38, Riverdale, MD 20737-1231; (301) 734-4356.

SUPPLEMENTARY INFORMATION: On January 4, 2005, we published a final rule in the **Federal Register** (70 FR 460-553, Docket No. 03-080-3) that establishes a category of regions that present a minimal risk of introducing

bovine spongiform encephalopathy into the United States via live ruminants and ruminant products and byproducts and that adds Canada to this category. The rule also establishes conditions for the importation of certain live ruminants and ruminant products from such regions. The rule was scheduled to become effective on March 7, 2005.¹

Pursuant to an announcement by the Secretary of Agriculture on February 9, 2005, this document delays the applicability of the provisions in that rule as they apply to the importation from Canada of the following commodities when derived from bovines 30 months of age or older when slaughtered: (1) Meat, meat food products, and meat byproducts other than liver;² (2) whole or half carcasses; (3) offal; (4) tallow composed of less than 0.15 percent insoluble impurities that is not otherwise eligible for importation under 9 CFR 95.4(a)(1)(i); and (5) gelatin derived from bones of bovines that is not otherwise eligible for importation under 9 CFR 94.18(c).

If the courts allow the January 4, 2005, rule to go into effect while this delay of applicability is in effect, the commodities listed above that are derived from bovines less than 30 months of age when slaughtered must be accompanied to the United States by certification that (1) the age requirement has been met and (2) the commodity was processed in an establishment inspected by the Canadian Food Inspection Agency (CFIA) that operates in compliance with an approved CFIA program to prevent commingling of ruminant products eligible for export to the United States with ruminant products ineligible for export to the United States. Such certification must be made by a full-time salaried veterinary officer of Canada, or by a veterinarian designated and accredited by the Canadian Government, provided the certification is endorsed by a full-time salaried veterinary officer of Canada who represents that the veterinarian issuing the certification was authorized to do so.

To the extent that 5 U.S.C. 553 applies to this action, it is exempt from notice and comment because it constitutes a rule of procedure under 5 U.S.C. 553(b)(A). Alternatively, the Department's implementation of this

action without opportunity for public comment is based on the good cause exceptions in 5 U.S.C. 553(b)(B) and 553(d)(3). Seeking public comment is impracticable, unnecessary, and contrary to the public interest. The delay of applicability is necessary to give Department officials the opportunity for further review and consideration of the specified provisions. Given the scheduled effective date of those provisions, seeking prior public comment on this delay would have been impractical, as well as contrary to the public interest, in the orderly promulgation and implementation of regulations.
