Maritimes & Northeast Pipeline; Notice of Application

March 4, 2005.

On February 22, 2005, Maritimes & Northeast Pipeline (Maritimes) filed an application pursuant to section 7(c) of the Natural Gas Act and parts 284 and 157 of the regulations of the Federal Energy Regulatory Commission (Commission) requesting a certificate of public convenience and necessity authorizing Maritimes: (1) To acquire an interest from Portland Natural Gas Transmission System (PNGTS) in the Haverhill Lateral and existing interconnect with Tennessee Gas Pipeline; (2) to construct a meter station and interconnect facilities to establish an interconnect with the Essex Gas Company, d/b/a/ KeySpan Energy Delivery New England (KeySpan); and (3) to establish initial rates under Rate Schedules MNLFT and MNIT for firm and interruptible service on the Haverhill Lateral. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "e-Library" link. toll-free, (866) 208-3676, or for TTY, (202) 502-8659.

Any questions regarding this application should be directed to Joseph F. McHugh, Director, Rates and Regulatory Affairs, M&N Management Company Waltham Woods Corporate Center, 890 Winter Street, Suite 300, Waltham, MA, 02451, phone (617) 560-1518.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties.
