SOCIAL SECURITY ADMINISTRATION

Agency Information Collection Activities: Proposed Request and Comment Request

The Social Security Administration (SSA) publishes a list of information collection packages that will require clearance by the Office of Management and Budget (OMB) in compliance with Pub. L. 104-13, the Paperwork Reduction Act of 1995, effective October 1, 1995. The information collection packages that may be included in this notice are for revisions to OMB-approved information collections and extensions (no change) of OMB-approved information collections.

SSA is soliciting comments on the accuracy of the agency's burden estimate; the need for the information; its practical utility; ways to enhance its quality, utility, and clarity; and on ways to minimize burden on respondents, including the use of automated collection techniques or other forms of information technology. Written comments and recommendations regarding the information collection(s) should be submitted to the OMB Desk Officer and the SSA Reports Clearance Officer. Social Security Benefits Application—20 CFR Subpart D, 404.310-404.311 and 20 CFR Subpart F, 404.601-404.603—0960-0618

One of the requirements for obtaining Social Security benefits is the filing of an application so that a determination may be made on the applicant's eligibility for monthly benefits. In addition to the traditional paper application, SSA has developed various options for the public to add convenience and operational efficiency to the application process. The total estimated number of respondents to all application collection formats is 3,874,369 with a cumulative total of 1,008,180 burden hours. The respondents are applicants for retirement insurance benefits (RIB), disability insurance benefits (DIB), and/or spouses' benefits.

Please note that burden hours for applications taken through the Modernized Claims System (MCS) are accounted for in the hardcopy collection formats. Guided by the MCS collection screens, an SSA representative interviews the applicant and inputs the information directly into the SSA's application database. MCS offers the representative prompts based on the type of application being filed and the circumstances of the applicant. These prompts facilitate a more complete initial application, saving both the agency and applicant time. MCS also propagates identity and similar information within the application, which saves additional time.

Internet Social Security Benefits Application (ISBA)

Type of Request: Revision of an OMB-approved information collection. (ISBA collection only).

ISBA, which is available through SSA's Internet site, is one method that an individual can choose to file an application for benefits. Individuals can use ISBA to apply for RIB, DIB and spouse's insurance benefits based on age. SSA gathers only information relevant to the individual applicant's circumstances and will use the information collected by ISBA to entitle individuals to RIB, DIB, and/or spouse's benefits. The respondents are applicants for RIB, DIB, and/or spouse's benefits.
