

and facsimile numbers, e-mail, and sponsoring organization, if any).

Background Information on the CERHR

The NTP established the NTP CERHR in June 1998 (**Federal Register**, December 14, 1998 (volume 63, number 239, page 68782)). The CERHR is a publicly accessible resource for information about adverse reproductive and/or developmental health effects associated with exposure to environmental and/or occupational exposures. Expert panels conduct scientific evaluations of agents selected by the CERHR in public forums.

The CERHR invites the nomination of agents for review or scientists for its expert registry. Information about CERHR and the nomination process can be obtained from its home page (<http://cerhr.niehs.nih.gov>) or by contacting Dr. Shelby (see **FOR FURTHER INFORMATION CONTACT** above). The CERHR selects chemicals for evaluation based upon several factors including production volume, extent of human exposure, public concern, and published evidence of reproductive or developmental toxicity.

CERHR follows a formal, multi-step process for review and evaluation of selected chemicals. The formal evaluation process was published in the **Federal Register** notice July 16, 2001 (volume 66, number 136, pages 37047–37048), and is available on the CERHR Web site under “About CERHR” or in printed copy from the CERHR. NTP–CERHR monographs are available on the CERHR Web site or in hard copy or CD from the CERHR.

Dated: March 7, 2005.

Samuel H. Wilson,

Deputy Director, National Institute of Environmental Health Sciences.
