SUPPLEMENTARY INFORMATION: Pursuant to the Pipeline Safety Law (49 U.S.C. Chapter 601), PHMSA shares responsibility for inspecting and overseeing the nation's pipelines with State pipeline safety offices. Regulations for enforcing this legislation are found in 49 CFR Part 195, "Transportation of Hazardous Liquids by Pipeline." These regulations include recordkeeping requirements for hazardous liquid pipeline operators to submit accident reports. Both Federal and State regulators depend on accident reports to manage inspection programs and to identify trends in hazardous liquid pipeline safety. The importance of accident data and data quality are repeatedly emphasized by Congress, the National Transportation Safety Board, and DOT's Office of Inspector General. The current OMB approval for accident reporting and recordkeeping requirements for hazardous liquid pipeline operators is scheduled to expire on April 30, 2005. PHMSA would like to continue to collect vital information on accidents on these hazardous liquid pipelines to fulfill its statutory mandates.

As used in this notice, 'information collection' and 'paperwork collection' are synonymous, and include all work related to preparing and disseminating information related to this recordkeeping requirement including completing paperwork, gathering information and conducting telephone calls.

[Docket: RSPA-00-7408]

Request for Public Comments and Office of Management and Budget (OMB) Approval of an Existing Information Collection (2137-0605)

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), Department of Transportation (DOT).

ACTION: Notice.

SUMMARY: This notice seeks public comment on the need for PHMSA to collect paperwork information on pipeline integrity management in high consequence areas from hazardous liquid pipeline operators with less than 500 miles of pipelines. This information collection requires operators to provide direct integrity testing and evaluation of pipelines in high consequence areas. This notice is published (pursuant to the Paperwork Reduction Act of 1995) to measure the need for the paperwork collection, to find ways to minimize the burden on these operators that must respond, to find ways to enhance the quality of information collected, and to verify the accuracy of the PHMSA's estimate of the burden (measured in work hours) on private entities. This notice also seeks approval from OMB to renew the existing approval of this paperwork collection.

DATES: Comments on this notice must be received by May 16, 2005 to be assured of consideration.

SUPPLEMENTARY INFORMATION: PHMSA published the Final Rule titled "Pipeline Safety: Pipeline Integrity management in High Consequence Areas (Hazardous Liquid Operators with less than 500 miles of Pipelines)" on January 16, 2002, in response to a host of safety recommendations, statutory mandates (49 U.S.C. Chapter 601 and 49 CFR Part 195), and the results of accident analyses. This rule requires continual assessment and evaluation of pipeline integrity through inspection or testing, data integration and analysis, and follow-up remedial, preventive, and mitigative actions. The current OMB approval for information collection requirements for an estimated 132

hazardous liquid pipeline operators is scheduled to expire on April 30, 2005.

The existing estimate of the information collection burden is based on the assumption that (1) all operators have developed initial integrity management plan, however, based on the audits conducted by PHMSA, approximately 50 percent or about 66 operators would need to substantially revise the initial plan, and would require approximately 1,400 hours to revise their initial integrity management program; (2) an additional 330 hours are required to update these programs annually; and (3) an additional 500 hours per operator are required annually to integrate data into the operator's existing management information system. PHMSA would like to continue to collect vital information on integrity management programs in the high consequence areas to measure its program effectiveness and to fulfill its statutory mandates.

As used in this notice, 'information collection' and 'paperwork collection' are synonymous, and include all work related to preparing and disseminating information related to this recordkeeping requirement including completing paperwork, gathering information and conducting telephone calls.

Request for Public Comments and Office of Management and Budget (OMB) Approval of an Existing Information Collection

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), Department of Transportation.

ACTION: Notice

SUMMARY: This notice seeks public comment on the need for PHMSA to collect paperwork information from state agencies that maintain programs to regulate pipelines. The purpose of the paperwork is to ensure that these states are properly monitoring the operations of pipeline operators in their states, and to determine Federal grant amounts for these states. This notice is published (pursuant to the Paperwork Reduction Act of 1995) to measure the need for the paperwork collection from these state agencies, to find ways to minimize the burden on states that must respond, to find ways to enhance the quality of information collected, and to verify the accuracy of the PHMSA's estimate of the burden (measured in work hours) on the states. This notice also seeks approval from the Office of Management and Budget to renew the existing approval of this paperwork collection.
