## DEPARTMENT OF COMMERCE

### Submission for OMB Review; Comment Request

The Department of Commerce has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

*Agency:* National Oceanic and Atmospheric Administration (NOAA).  
*Title:* Pacific Islands Logbook Family of Forms.

*Form Number(s):* None.

*OMB Approval Number:* 0648-0214.

*Type of Request:* Regular submission.

*Burden Hours:* 2,483.

*Number of Respondents:* 207.

*Average Hours Per Response:* 14 minutes.

*Needs and Uses:* The fishermen in Federally-managed fisheries in the western Pacific region are required to provide certain information about their fishing activities. Amendment 11 to the Fishery Management Plan for Pelagic Fisheries of the Western Pacific Region now necessitates a revised collection of information. The owners of large (>40 ft. in length) fishing vessels registered for use with American Samoa limited access longline permits would be required to notify NMFS of their vessels' intent to depart from port on a fishing trip. The pre-trip information enables NMFS to determine if that vessel must carry an observer.

*Affected Public:* Business or other for-profit organizations; Individuals or households.

*Frequency:* On occasion.

*Respondent's Obligation:* Mandatory.

*OMB Desk Officer:* David Rostker, (202) 395-3897.

Copies of the above information collection proposal can be obtained by

calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at [dHynek@doc.gov](mailto:dHynek@doc.gov)).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to David Rostker, OMB Desk Officer, FAX number (202) 395-7285, or [David\\_Rostker@omb.eop.gov](mailto:David_Rostker@omb.eop.gov).

**SUPPLEMENTARY INFORMATION:**

#### I. Abstract

In implementing mitigation measures to reduce interactions between seabirds and the Hawaii-based pelagic longline fishery, the National Marine Fisheries

Service (NMFS) is also requiring longline vessel operators to notify NMFS in the event an endangered short-tailed albatross is hooked or entangled during fishing operations. Following the retrieval of the seabird from the ocean, as required by Federal regulations, the vessel captain must record the conditions of the injured short-tailed albatross on a recovery data form. The information will be used by a veterinarian in providing advice to the captain caring for the short-tailed albatross. If the albatross is dead, the vessel captain must attach an identification/information tag to the carcass, as well as the specimen bag, to assist the U.S. Fish and Wildlife Service (FWS) biologists in follow-up studies on the specimen. This collection is one of the terms and conditions contained in a biological opinion issued by FWS and is intended to maximize the probability of the long-term survival of short-tailed albatross incidentally taken by longline gear.

#### II. Method of Collection

Paper data forms, sea to shore contact via vessel monitoring system unit (VMS), telephone or single side-band radio are required from participants, and methods of submittal include mail and facsimile transmission of paper forms.
