

protection of investors or the public interest, (2) does not impose any significant burden on competition, and (3) by its terms does not become operative for 30 days after the date of filing, or such shorter time as the Commission may designate, if consistent with the protection of investors and the public interest. Consequently, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act⁹ and Rule 19b-4(f)(6) thereunder.¹⁰

Pursuant to Rule 19b-4(f)(6)(iii), a proposed "non-controversial" rule change does not become operative for 30 days after the date of filing, or such shorter time as the Commission may designate, if consistent with the protection of investors and the public interest. The PCX has requested that the Commission waive the 30-day operative delay. The Commission has determined that it is consistent with the protection of investors and the public interest to waive the 30-day operative delay.¹¹ Accelerating the operative date will allow the PCX to immediately allow Q Orders reserve capability, and to enable re-posting at any increment. At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the Act.

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Grant of application for renewals of temporary exemptions from a Federal motor vehicle safety standard.

SUPPLEMENTARY INFORMATION:

I. Background

49 U.S.C. Section 30113(b) provides the Secretary of Transportation the authority to exempt, on a temporary basis, motor vehicles from a motor vehicle safety standard under certain circumstances. The exemption may be renewed, if the vehicle manufacturer reapplies. The Secretary has delegated the authority for Section 30113(b) to NHTSA.

NHTSA has established regulations at 49 CFR Part 555, *Temporary Exemption from Motor Vehicle Safety and Bumper Standards*. Part 555 provides a means by which motor vehicle manufacturers may apply for temporary exemptions from the Federal motor vehicle safety standards on the basis of substantial economic hardship, facilitation of the development of new motor vehicle safety or low-emission engine features, or existence of an equivalent overall level of motor vehicle safety.

Federal Motor Vehicle Safety Standard (FMVSS) No. 123, *Motorcycle controls and displays* (49 CFR 571.123) specifies requirements for the location, operation, identification, and illumination of motorcycle controls and displays, and requirements for motorcycle stands and footrests. Among other requirements, FMVSS No. 123 specifies that for motorcycles with rear wheel brakes, the rear wheel brakes must be operable through the right foot control, although the left handlebar is permissible for motor-driven cycles (See S5.2.1, and Table 1, Item 11). Motor-driven cycles are motorcycles with
