Prescott C. Snyder, Airports Environmental Program Manager, Federal Aviation Administration, Airports Division, Room 315, 2300 East Devon Avenue, Des Plaines, Illinois 60018. Mr. Snyder can be contacted at (847) 294-7538 (voice), (847) 294-7036 (facsimile) or by e-mail at 9-AGL-GYY-EIS-Project@faa.gov.

SUPPLEMENTARY INFORMATION: At the request of the Gary/Chicago Airport Authority, the FAA prepared an Environmental Impact Statement, which has now culminated in FAA issuing a Record of Decision. The environmental process summarized in the Record of Decision addressed specific improvements at the Gary/Chicago International Airport as identified during the 2001 Airport Master Plan process and the 2003 Railroad Relocation Study, and shown on the 2001 Airport Layout Plan. The following improvements have been grouped into four categories and are identified as ripe for review and decision: (1) Improvements associated with the existing Runway 12-30, the primary air carrier runway at the airport, relocate the E.J. & E. Railroad, acquire land

northwest of the airport to allow for modifications to the runway safety area, relocate the airside perimeter roadway (including providing a southwest access roadway), relocate the Runway 12-30 nav aids, improve the Runway Safety Area for Runway 12, relocate the Runway 12 threshold to remove prior displacement, and acquire land southeast of the airport, located within or immediately adjacent to the runway protection zone; (2) Extension of Runway 12-30, (1356 feet), relocate the Runway 12-30 nav aids, extend parallel taxiway A to the new end of Runway 12, construct deicing hold pads on Taxiway A at Runway 12 and Runway 30, and develop two high-speed exit taxiways; (3) Expansion of the existing passenger terminal to accommodate current needs and forecast growth; and (4) acquisition/reservation and remediation as necessary site areas for potential aviation related development, but not including approval of construction new passenger terminal and air cargo facilities, which would be subject to separate environmental analysis and approval.

The purpose and need for these improvements is found in the FEIS and summarized in the Record of Decision. All reasonable alternatives have been considered including the no-action alternative. The Federal Aviation Administration's proposed actions in addition to the issuance of an environmental finding are:

A. Environmental approval under existing or future FAA criteria of project eligibility for Federal grant-in-aid funds (49 U.S.C. 47101 *et. seq.*) and/or Passenger Facility Charges (49 U.S.C. 40117), that include the elements as set forth in the FEIS, subject to the conditions set forth under "FAA Determination" in Chapter 1 of the Record of Decision as well as the restrictions set forth in Paragraph 583.b of FAA Order 5100.38B ("the AIP Handbook");

B. Unconditional approval of a revised ALP, based on determinations through the aeronautical study process regarding obstructions to navigable airspace, and no FAA objection to the airport development proposal from an airspace perspective. Not included in this approval of the revised ALP are the following airport improvements shown on the ALP that require future environmental processing:

1. Construction of the south parallel taxiway to Runway 12-30

2. Future cargo area development (aprons, taxiways, auto parking lots, buildings, etc.) south of the end of extended Runway 12

3. Future passenger terminal area development (aprons, taxiways, auto parking lots, buildings, etc.) north of the end of extended Runway 12

4. Partial dual taxiway north of extended Taxiway A from Taxiway A to the proposed passenger terminal area

5. Proposed maintenance facility (Boeing Hangar) expansion

C. Approval for relocation and/or upgrade of various navigational aids. Also, the establishment or modification of existing instrument approach procedures by the National Flight Procedures Office for aircraft using instrument procedures to Runway 30.

D. Review and subsequent approval of an amended Airport Certification Manual for Gary/Chicago International Airport (per 14 CFR part 139).

Issued in Des Plaines, Illinois, on March 17, 2005.

Larry H. Ladendorf,

Assistant Manager, Airports Division, FAA, Great Lakes Region.
