

Services has funded a Coordinating Center to Support State Incentive Grants to Build Capacity for Alternatives to Restraint and Seclusion. The grants are designed to promote the implementation and evaluation of best practice approaches to reducing the use of restraint and seclusion in mental health facilities. Grantees consist of 8 sites (state mental health agencies), most of which will be implementing interventions in multiple facilities (a total of 76 facilities). These include facilities serving adults and those serving children and/or adolescents, with various subgroups such as forensic and sexual offender populations.

With input from multiple experts in the field of restraint and seclusion and alternatives to restraint and seclusion, the project created a common core of data collection instruments that will be used for this cross-site project. The facilities will complete four different instruments: (1) Facility/Program Characteristics Inventory (information about type of facilities, characteristics of persons served, staffing patterns, and unit specific data); (2) Inventory of Seclusion and Restraint Reduction Interventions; (3) Treatment Episode Data (admission data for all clients/patients); and (4) Event Data (data about the use of restraint and seclusion). Data

will be submitted by the sites electronically via a secured Web site. The Facility/Program Characteristic Inventory and Inventory of Seclusion and Restraint Reduction Intervention will be collected annually. The Treatment Episode Data and Event Data will be collected monthly.

The resulting data will help to identify the: (1) Number of programs adopting best practices involving alternative approaches to restraint and seclusion; and (2) program's impact of reducing restraint and seclusion use and adoption of alternative practices. The estimated annual response burden to collect this information is as follows:

Instrument	Number of respondents	Responses/ respondent	Burden/response (hours)	Annual burden (hours)
Facility/Program Characteristic Inventory	76	1	4	304
Inventory Of Seclusion And Restraint Reduction Interventions	76	1	2	152
Treatment Episode Data	76	12	8	7,296
Event Data	76	12	8	7,296
Total	76	15,048
