DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Federal Emergency Management Agency, Emergency Preparedness and Response Directorate, U.S. Department of Homeland Security.

ACTION: Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on a proposed revised information collection. In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)), this notice seeks comments concerning the collection of information from States and local communities seeking flood insurance premium discounts through the Community Rating System Program (CRS).

SUPPLEMENTARY INFORMATION: The National Flood Insurance Act of 1968 (Public Law 90-488 as amended) created the National Flood Insurance Program (NFIP) whose central element is the promotion and implementation of sound local floodplain management in an effort to reduce loss of property and life. Participation in the NFIP is contingent on communities' adoption of minimum floodplain management standards. The Community Rating System was designed by FEMA to encourage States and communities to undertake activities that will mitigate flooding and flood damage beyond the minimum standards for NFIP participation. Under this system, communities apply for activity points, leading up to a CRS rating and

commensurate flood insurance premium discounts. This information collection consists of the NFIP/CRS Coordinator's Manual, which describes the floodplain management and insurance benefits available to qualifying communities that undertake additional activities and contains the application worksheets and required documentation. The National Flood Insurance Reform Act of 1994 codified the CRS.
