General information concerning the Commission may also be obtained by accessing its internet server (<http://www.usitc.gov>).

Background: The President announced the relief action on March 5, 2002. In a proclamation of that date (Proclamation 7529, published in the **Federal Register** of March 7, 2002, at 67 FR 10553), the President announced that he would impose safeguard measures on imports of certain steel products in the form of a tariff-rate quota and increased import duties effective March 20, 2002, for a period of 3 years and 1 day (to March 21, 2005). In a memorandum of that same date relating to these measures, the President instructed the Secretary of the Treasury and the Secretary of Commerce to establish a system of import licensing to facilitate the monitoring of imports of certain steel products (67 FR 10953). The Department of Commerce published regulations establishing such a system in the **Federal Register** on December 31, 2002 (67 FR 79845). On December 4, 2003, the President issued a proclamation that terminated the tariff-rate quota and the increased import duties on certain steel products, but directed the Secretary of Commerce to continue the monitoring system until the earlier of March 21, 2005, or such time as the Secretary establishes a replacement program (Proclamation 7741, published in the **Federal Register** of December 8, 2003, at 68 FR 68483). Proclamation 7741 also authorized the United States Trade Representative, upon his determination that the Secretary of Commerce has established a replacement program, to terminate the action under section 203(a)(3)(I) of the Trade Act and the licensing system, and to publish notice of this determination and action in the **Federal Register**. On December 9, 2003, the Department of Commerce published a notice stating that the system would continue in effect

as described in the Proclamation until March 21, 2005 (68 FR 68594). On March 11, 2005, the Department of Commerce published an interim final rule to implement a replacement program for the period beyond March 21, 2005 (70 FR 12133).

Section 204(d) of the Act requires the Commission, following termination of a relief action, to evaluate the effectiveness of the action in facilitating positive adjustment by the domestic industry to import competition, consistent with the reasons set out by the President in the report submitted to the Congress under section 203(b) of the Act. The Commission is required to submit a report on the evaluation to the President and the Congress no later than 180 days after the day on which the relief action was terminated.

For further information concerning the conduct of this investigation, hearing procedures, and rules of general application, consult the Commission's Rules of Practice and Procedure, part 201, subparts A through E (19 CFR part 201, subparts A through E), and part 206, subparts A and F (19 CFR part 206, subparts A and F).

The Secretary will not accept a document for filing without a certificate of service.
