(b) The accuracy of our estimates of the information collection burden, including the validity of the methodology and assumptions we use;

Congress passed the Desert Land Act of March 3, 1877 (19 Stat. 377; 43 U.S.C. 321-323), as amended by the Act of March 3, 1891 (26 Stat. 1096; 43 U.S.C. 231, 323, 325, 327-329) to encourage and promote the economic development of the arid and semiarid public lands. Through the Act, you may apply for a desert-land entry to reclaim, irrigate, and cultivate arid and semiarid public lands in the Western United States. The regulations in 43 CFR 2520 provide guidelines and procedures to obtain public lands under the Act.

You qualify to file a desert-land entry if you are a citizen of the United States; 21 years old; and a resident in the States of Arizona, California, Colorado, Idaho, Montana, New Mexico, North Dakota, South Dakota, Utah, Washington, or Wyoming (no residency is required in the State of Nevada).

You may apply for one or more tracts of public lands totaling no more than 320 acres. The land must be surveyed or unsurveyed, unappropriated, non-mineral, and non-timber. The lands must be suitable for agricultural purposes and more valuable for that purpose than any other. The tracts of land must be sufficiently close to each other to manage satisfactorily as an economic unit.

You must locate lands you feel can be economically developed and determine the legal land description. You must contact the BLM State Office where the lands are located and verify the lands are available for desert-land entry application.

When BLM receives the application, we will examine your application for completeness and accuracy and classify the lands included in the application. BLM will approve your application of the lands are classified suitable for desert-land entry or reject your application if the lands are classified unsuitable for desert-land entry.

Based on past experience processing these applications, BLM estimates the public reporting burden for completing the Form 2520-1 is 2 hours. BLM estimates that we receive approximately 3 applications annually, with a total annual burden of 6 hours.

Any member of the public may request and obtain, without charge, a copy of the BLM Form 2520-1 by contacting the person identified under **FOR FURTHER INFORMATION CONTACT**.

BLM will summarize all responses to this notice and include them in the request for OMB approval. All comments will become a matter of public record.

SUPPLEMENTARY INFORMATION: 5 CFR 1320.12(a) requires BLM to provide 60-

day notice in the **Federal Register** concerning a collection of information to solicit comments on:

(a) whether the collection of information is necessary for the proper functioning of the agency, including whether the information will have practical utility;

The Mineral Leasing Act of 1920 (30 U.S.C. 181 *et seq.*) and the Geothermal Steam Act of 1970 (30 U.S.C. 1001–1025) authorize the Secretary of the Interior to issue leases for development of Federal oil and gas and geothermal resources. The Act of August 7, 1947 (Mineral Leasing Act of Acquired Lands) authorizes the Secretary to lease lands acquired by the United States (30 U.S.C. 341–359). The Department of the Interior Appropriations Act of 1981 (42 U.S.C. 6508) provides for the competitive leasing of lands for oil and gas in the National Petroleum Reserve-Alaska (NPR). The Attorney General's Opinion of April 2, 1941 (40 Opinion of the Attorney General 41) provides the basis under which the Secretary issues certain leases for lands being drained of mineral resources. The Federal Property and Administrative Services Act of 1949 (40 U.S.C. 471 *et seq.*) provides the authority for leasing lands acquired from the General Services Administration.

Assignor/transferor submits Form 3000–3, Assignment of Record Title Interest In A Lease for Oil and Gas or Geothermal Resources, and Form 3000–3a, Transfer of Operating Rights (Sublease) In A Lease for Oil and Gas or Geothermal Resources, to transfer interest in oil and gas or geothermal leases by assignment of record title or transfer operating rights (sublease) in oil and gas or geothermal leases under the regulations at 43 CFR 3106, 3135, and 3216. These regulations outline the procedures for assigning record title interest and transferring operating rights in a lease to explore for, develop, and produce oil and gas resources and geothermal resources.

The assignor/transferor provides the required information to comply with the regulations in order to process the

assignments of record title interest or transfer of operating rights (sublease) in a lease for oil and gas or geothermal resources. The assignor/transferor submits the required information to BLM for approval under 30 U.S.C. 187a and the regulations at 43 CFR 3106, 3135, and 3216.

BLM uses the information submitted by the assignor/transferor to identify the interest ownership that is assigned or transferred and the qualifications of the assignee-transferee. BLM determines if the assignee-transferee is qualified to obtain the interest sought and ensures the assignee/transferee does not exceed statutory acreage limitations.

Based on BLM's experience administering the activities described above, we estimate it takes 30 minutes per response to complete the required information. The respondents include individuals, small businesses, and large corporations. The frequency of response is occasional. We estimate 60,000 responses per year and a total annual burden of 30,000 hours.

BLM will summarize all responses to this notice and include them in the request for OMB approval. All comments will become a matter of public record.
