SUPPLEMENTARY INFORMATION:

Background

Institutions of higher education are invited to join the Department in an effort to simplify regulations and administrative processes for the Federal Student Aid (FSA) Programs authorized by Title IV of the Higher Education Act of 1965, as amended (HEA). The vision of the Quality Assurance Program, with 145 institutions currently participating,

is to provide tools that help all Title IV institutions promote better service to students, compliance, and continuous improvement in program delivery. The program encourages participating institutions to develop and implement their own comprehensive systems to verify student financial aid application data, and continually assess compliance to Federal requirements.

The Secretary is authorized to provide participating institutions with regulatory flexibility for the verification of student data, and to encourage alternative approaches that improve award accuracy.

The Secretary believes that the process of continuous improvement fostered by the institutions already participating in the Quality Assurance Program has enhanced not only the accuracy of student aid awards and payments, but also the management of student aid offices and the delivery of services to students.

Features of the Program

The mission of the Quality Assurance Program is to help schools attain, sustain, and advance exceptional student aid delivery and service excellence. For the past 19 years, the program has done that by providing participating institutions with the flexibility to design an institutional verification program that more directly focuses on their own population segments. It has also helped them target areas of administration that affect award accuracy or that may leave the institution vulnerable to potential liabilities.

The Quality Assurance Program has given institutions the tools and techniques to assess, measure, analyze, correct and prevent problems, and has provided them with data on which to base their decisions for solving problems and addressing verification issues.

The Secretary encourages institutions participating in the Quality Assurance Program to evaluate their student aid or verification policies and procedures and adopt improvements in those procedures. Institutions measure performance and test the effectiveness of their verification program by using the Department's ISIR Analysis Tool. The ISIR Analysis Tool is a web-based software product that provides Financial Aid Administrators with an in-depth analysis of their applicant population. It allows them to see not only which FAFSA elements changed when verified, but also what impact these changes have upon the Expected Family Contribution (EFC) and aid eligibility. This analysis helps Financial
