DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: Census Employment Inquiry.

Form Number(s): BC-170A, BC-170B, BC-170D.

Agency Approval Number: 0607-0139.

Type of Request: Revision of a currently approved collection.

Burden: 8,500 hours.

Number of Respondents: 34,000.

Avg Hours Per Response: 15 minutes.

Needs and Uses: The U.S. Census Bureau requests continued OMB approval for the BC-170, Census Employment Inquiry. We are also requesting minor modifications to the data collected. The BC-170 is used to collect information such as personal data and work experience from job applicants. The BC-170 is completed by job applicants before or at the time they are tested. Selecting officials review the information shown on the form to evaluate an applicant's eligibility for employment and to determine the best qualified applicants to fill Census jobs.

The BC-170 is used throughout the census and intercensal periods for the special census, pretests, and dress rehearsals for short-term time limited appointments. Applicants completing the form for a census related position are applying for temporary jobs in office and field positions (clerks, enumerators, crew leaders, supervisors). In addition, as an option to the OF-612, Optional Application for Federal Employment, the BC-170 may be used when applying for temporary/permanent office and field positions (clerks, field representatives, supervisors) on a recurring survey in one of the Census Bureau's 12 Regional Offices (ROs) throughout the United States.

During the decennial census, the BC-170 is intended to expedite hiring and selection in situations requiring large numbers of temporary employees for assignments of a limited duration. The use of this form is limited to only situations which require the establishment of a temporary office and/or involve special, one-time or recurring survey operations at one of the ROs. The form has been demonstrated to meet our recruitment needs for temporary workers and requires significantly less burden than the Office of Personnel Management (OPM) Optional Forms that are available for use by the public when applying for Federal positions. In addition, before the 2010 decennial census, we expect to recruit approximately 102,000 applicants for census jobs (*i.e.*, one-time censuses, special censuses and decennial pretests and dress rehearsals), which would equate to a significant reduction in the required paperwork and public burden.

The form has been slightly modified for specific usage by each of the three

areas named below. The recurring survey form is identified as the BC-170A. The form for special censuses is identified as the BC-170B, and the form for decennial pretests as the BC-170D. The variation of forms by operation, is to collect specific data needed based on the nature of the operation. The major area of difference relates to the collection of work history. A cover sheet will be attached to each respective BC-170 to provide applicants with a brief description of their prospective job duties with the Census Bureau; the cover sheet message will vary for decennial, special censuses, or recurring survey positions.

Affected Public: Individuals.

Frequency: One-time.

Respondent's Obligation: Required to obtain benefits.

Legal Authority: Title 13 U.S.C., Section 23 a and c.

OMB Desk Officer: Susan Schechter, (202) 395-5103.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dhynek@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to Susan Schechter, OMB Desk Officer either by fax (202-395-7245) or e-mail (susan_schechter@omb.eop.gov).

SUPPLEMENTARY INFORMATION:

I. Abstract

The Census Bureau produces statistics used to monitor activity in the large and dynamic construction industry. These statistics help state and local governments and the Federal Government, as well as private industry, to analyze this important sector of the economy. The accuracy of the Census Bureau statistics regarding the amount of construction authorized depends on data supplied by building and zoning officials throughout the country.

The Census Bureau uses the Survey of Building and Zoning Permit Systems to obtain information from state and local building permit officials needed for updating the universe of permit-issuing places. The questions pertain to the legal requirements for issuing building or zoning permits in the local jurisdictions. Information is obtained on such items as geographic coverage and types of construction for which permits are issued.

The universe of permit-issuing places is the sampling frame for the Building Permits Survey (BPS) and the Survey of Construction (SOC). These two sample surveys provide widely used measures of construction activity, including the economic indicators, Housing Units Authorized by Building Permits and Housing Starts.

We plan to change the format of the form and add a question asking how many new residential housing unit permits were issued in the prior calendar year.

II. Method of Collection

The form is sent to a jurisdiction when the Census Bureau has reason to believe that a new permit system has been established or an existing one has changed, based on information from a

variety of sources including survey respondents, regional councils and the Census Bureau's Geography Division which keeps abreast of changes in corporate status. Responses typically approach 85 percent.
