Radio Broadcasting Services; Caliente and Moapa, NV; and Hermitage and Mercer, PA

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document proposes two change of community reallocations for Caliente and Moapa, Nevada; and Mercer and Hermitage, Pennsylvania.

The Audio Division requests comments on a petition filed by Cumulus Licensing LLC, proposing the reallocation of Channel 233C from Caliente to Moapa, Nevada, and the modification of the new FM station's construction permit (File No. BNH-20050103AFD) accordingly. Channel 233C can be reallocated to Moapa in compliance with the Commission's minimum distance separation requirements with a site restriction of 63.0 kilometers (39.2 miles) north at Petitioner's authorized construction permit site. The coordinates for Channel 233C at Moapa are 37-14-37 NL and 114-36-01 WL. In accordance with the provisions of Section 1.420(i) of the Commission's Rules, we will not accept competing expressions of interest for the use of Channel 233C at Moapa, Nevada, or require Petitioner to demonstrate the existence of an equivalent class channel

for the use of other interested parties. See **SUPPLEMENTARY INFORMATION**, *infra*.

DATES: Comments must be filed on or before May 10, 2005, reply comments on or before May 25, 2005.

ADDRESSES: Federal Communications Commission, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner, or its counsel or consultant, as follows: Marnie K. Sarver, Esq., Wiley, Rein & Fielding LLP, 1776 K Street, NW., Washington, DC 10006 (Counsel for Aurora Media, LLC) and Mark N. SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's *Notice of Proposed Rule Making*, MB Docket No. 05-145 and MB Docket No. 05-146, adopted March 21, 2005, and released March 23, 2005. The Audio Division requests comments on a petition filed by Cumulus Licensing, LLC, proposing the reallocation of Channel 280A from Mercer to Hermitage, Pennsylvania, and the modification of Station WWIZ(FM)'s license accordingly. Channel 280A can be reallocated to Hermitage in compliance with the Commission's minimum distance separation requirements with a site restriction of 7.8 kilometers (4.9 miles) southeast to avoid a short-spacing to the licensed and construction permit site for Station WOGF(FM), Channel 282B, East Liverpool, Ohio. The reference coordinates for Channel 280A at Hermitage are 41-12-16 NL and 80-21-

49 WL. Since Hermitage is located within 320 kilometers (200 miles) of the U.S.-Canadian border, concurrence of the Canadian government has been requested. In addition, this allotment is short-spaced to vacant Channel 280C1 in Woodstock, Ontario, and we have requested Canadian concurrence of Channel 280A at Hermitage, Pennsylvania, as a specially-negotiated, short-spaced allotment. In accordance with the provisions of Section 1.420(i) of the Commission's Rules, we will accept competing expressions of interest for the use of Channel 280A at Hermitage, Pennsylvania, or require Petitioner to demonstrate the existence of an equivalent class channel for the use of other interested parties.

Provisions of the Regulatory Flexibility Act of 1980 do not apply to this proceeding.

Members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. Fisheries of the Exclusive Economic Zone Off Alaska; License Limitation Program for the Scallop Fishery

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NMFS proposes regulations to implement Amendment 10 to the Fishery Management Plan for the Scallop Fishery off Alaska (FMP), which would modify the gear endorsements under the license limitation program (LLP) for the scallop fishery. This action is necessary to allow increased participation by LLP license holders in the scallop fisheries off Alaska. This action is intended to promote the goals and objectives of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), the FMP, and other applicable laws.

SUPPLEMENTARY INFORMATION: The North Pacific Fishery Management Council (Council) prepared the FMP under the authority of the Magnuson-Stevens Act. Under the FMP, management of all aspects of the scallop fishery, except limited access, is delegated to the State of Alaska (State). Federal regulations governing the scallop fishery appear at 50 CFR parts 600 and 679. State regulations governing the scallop fishery appear in the Alaska Administrative Code (AAC) at 5 AAC Chapter 38--Miscellaneous Shellfish.

State regulations establish guideline harvest levels (GHL) for different scallop registration areas, fishing seasons, open and closed fishing areas, observer coverage requirements, bycatch limits, gear restrictions, and measures to limit processing efficiency (including a ban on the use of mechanical shucking machines and a limitation on crew size). The gear regulations limit vessels to using no more than two 15 ft (4.5 m) dredges, except in State Scallop Registration Area H (Cook Inlet) where vessels are limited to using a single 6 ft (1.8 m) scallop dredge.

The Council has submitted Amendment 10 for Secretarial review, and a Notice of Availability of the amendment was published on March 24, 2005, with comments on the FMP amendment invited through May 23, 2005 (70 FR 15063). Comments may address the FMP amendment, this proposed rule, or both, but must be received by May 23, 2005, to be considered in the approval/disapproval decision on the FMP amendment.

Beginning in 2001, NMFS has required a Federal scallop LLP license on board any vessel deployed in the scallop fisheries in Federal waters off Alaska. The LLP was implemented through approval of Amendment 4 to the FMP by the Secretary on June 8, 2000, and the final rule implementing Amendment 4 was published December 14, 2000 (65 FR 78110). The LLP was established to limit harvesting capacity in the Federal scallop fishery off Alaska. NMFS issued a total of nine LLP licenses. Licenses were issued to holders of either Federal or State moratorium permits who used their permits to make legal landings of scallops in each of any two calendar years during the period beginning January 1, 1996, through October 9, 1998. The licenses authorize their holders to catch and retain scallops in
