Wireless Telecommunications Bureau Confirms Certain Licenses in the Paging and Radiotelephone Service and Certain Licenses Operating on 929-930 MHz Private Carrier Paging Exclusive Channels Terminated as a Result of Spectrum Audit

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: In this document, as a result of certain licensees' failure to respond to the Wireless Telecommunications Bureau (Bureau) audit inquiries, the Bureau announces that certain licenses have been presumed to have permanently discontinued service, as defined in the Commission's discontinuance of station operation rules, and therefore have cancelled automatically. Action has been taken in the Universal Licensing System to terminate the licenses that are set forth in the Attachment of this Public Notice.

FOR FURTHER INFORMATION CONTACT: Denise D. Walter, Mobility Division, at 202-418-0620.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Public Notice (*Public Notice*), DA 05-491, released on March 9, 2005. The full text of this document is available for inspection and copying during normal business hours in the Federal Communications Commission Reference Center, 445 12th Street, SW., Washington, DC 20554. The complete text may be purchased from the Federal Communications Commission's copy contractor, Best Copy and Printing, Inc., 445 12th Street, SW., Room CY-B402, Washington, DC 20554. The full text may also be downloaded at <http://wireless.fcc.gov>. Alternative formats are available to persons with disabilities by contacting Brian Millin at (202) 418-7426 or TTY (202) 418-7365 or at bmillin@fcc.gov.

1. On September 24, 2004, the Bureau mailed letters to all licensees operating in the Paging and Radiotelephone Service with a "CD" radio service code and certain licensees operating on 929-930 MHz private carrier paging exclusive channels with a "GS" radio service code inquiring into the operational status of each license held.

Each licensee was required to respond and certify, by November 12, 2004, that its authorized station(s) had not permanently discontinued service as defined in § 22.317 of the Commission's rules. The audit letter, mailed to each licensee at its address of record, included the call signs of the licensee's authorizations involved in this audit. On December 7, 2004 the Bureau mailed a second letter and notice of termination to those who did not respond to the first letter directing them to respond to the audit by January 21, 2005. Due to an error, a few licensees did not receive this letter. Therefore, another letter was mailed on January 13, 2005, and the filing deadline to respond to the audit was extended to February 21, 2005. In addition, the Bureau released an initial *Public Notice*, 69 FR 54290, September 8, 2004 announcing the audit, and subsequent *Public Notices*, 69 FR 60626, October 12, 2004 and 69 FR 76469, December 20, 2004, announcing the mailing of the first and second audit letters.

2. In the audit letters mailed to the individual licensees, as well as in the Bureau's *Public Notices*, the Bureau expressly indicated that a response to the audit letter was mandatory. The Bureau also indicated that failure to provide a timely response may result in the Commission's presumption that station at issue has permanently discontinued service as defined in § 22.317 of the Commission's rules and may result in the loss of the licensee's authority to operate on the station(s) at issue in the audit letter. The Bureau has received no response to audit letters for the station licenses that are set forth in the Attachment of the *Public Notice*. The Bureau therefore presumes that the stations identified in the Attachment have permanently discontinued service as defined in § 22.317 of the Commission's rules and confirms that these station licenses have cancelled automatically. Action has been taken in the Universal Licensing System to reflect these licenses as terminated.

Federal Communications Commission.

Linda Chang,
Associate Chief, Mobility Division.
