BILLING CODE 4410-18X-P

DEPARTMENT OF JUSTICE

Office of Justice Programs

Agency Information Collection Activities: Proposed Collection; Comments Requested

ACTION: 60-day notice of information collection under review: National Computer Security Survey (NCSS).

The Department of Justice (DOJ), Office of Justice Programs (OJP), has submitted the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The proposed information collection is published to obtain comments from the public and affected agencies. Comments are encouraged and will be accepted for "sixty days" until June 13, 2005. This process is conducted in accordance with 5 CFR 1320.10.

If you have comments especially on the estimated public burden or associated response time, suggestions, or need a copy of the proposed information collection instrument with instructions or additional information, please contact Ramona Rantala, DOJ, OJP, Bureau of Justice Statistics, 810 Seventh Street, NW., Washington, DC 20531.

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information,

including the validity of the methodology and assumptions used;

- Enhance the quality, utility, and clarity of the information to be collected; and

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

Overview of this information collection:

(1) *Type of Information Collection:* This is a New Information Collection.

(2) *Title of the Form/Collection:* National Computer Security Survey.

(3) *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* Form Number: NCSS-1, NCSS-1s, and NCSS-1c. Bureau of Justice Statistics, Office of Justice Programs, Department of Justice.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Businesses or other for-profit organizations. Other: Not-for-profit institutions. The National Computer Security Survey collects information on the nature and prevalence of computer crime and resulting losses experienced by businesses nationwide. It also collects other information including types of computer security technology and practices used by businesses, routes used to access systems, whether incidents were reported to authorities, reasons for not reporting, and types of offenders. 42 U.S.C. 3711, *et seq.* authorizes the Department of Justice to collect and analyze statistical information concerning crime, juvenile delinquency, and the operation of the criminal justice system and related aspects of the civil justice system and to support the development of information and statistical systems at the Federal, State, and local levels.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* It is estimated that 36,000 respondents will each complete a 1.6-hour data collection form.

(6) *An estimate of the total public burden (in hours) associated with the collection:* There are an estimated 57,775 total annual burden hours associated with this collection.

If additional information is required contact: Brenda E. Dyer, Department Clearance Officer, United States Department of Justice, Justice

Management Division, Policy and Planning Staff, Patrick Henry Building, Suite 1600, 601 D Street NW., Washington, DC 20530.

Brenda E. Dyer,

Department Clearance Officer, Department of Justice.

BILLING CODE 4410-18-P

DEPARTMENT OF LABOR

Employment and Training Administration

Workforce Investment Act; Native American Employment and Training Council

AGENCY Employment and Training Administration, Labor.

ACTION: Notice of meeting.

SUMMARY: Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (FACA) (Pub. L. 92-463), as amended, and section 166(h)(4) of the Workforce Investment Act (WIA)[29 U.S.C. 2911(h)(4)], notice is hereby given of the next meeting of the Native American Employment and Training Council as constituted under WIA.

Time and Date: The meeting will begin at 10:30 a.m., Central Daylight Savings Time (CDT), on Wednesday, April 27, 2005, and continue until 12 p.m. (CDT) that day. The period from 3 p.m. to 5 p.m. (CDT) on April 27 will be reserved for participation and presentation by members of the public. The meeting will reconvene at 1 p.m. (CDT) on April 28, 2005, and adjourn at approximately 4:30 p.m. (CDT) on that day.

Place: All sessions will be held at the Hyatt Regency Houston, 1200 Louisiana Street, Houston, Texas.

Status: The meeting will be open to the public. Persons who need special accommodations should contact Ms. Athena Brown on (202) 693-3737 by April 22, 2005.

Matters to be Considered: The formal agenda will focus on the following topics: (1) Status Report of the UI Wage Study, (2) Implementation of 2000 Decennial Census data in the section 166 finding formula(s), (3) Council workgroup reports, (4) status of the Technical Assistance and Training Initiative, (5) Reauthorization of the WIA, (6) Economic Development—A Presentation by a Top-10 American Indian Owned Business.

FOR FURTHER INFORMATION CONTACT: Ms. Athena Brown, Chief, Division of Indian and Native American Programs, Office

of National Programs, Employment and Training Administration, U.S. Department of Labor, Room C-4311, 200 Constitution Avenue, NW., Washington, DC 20210.

Telephone: (202) 693-3737 (VOICE) (this is not a toll-free number) or (202) 693-3841.

Signed at Washington, DC, this 6th day of April, 2005.

Emily Stover DeRocco,
Assistant Secretary, Employment and Training Administration.

BILLING CODE 4510-30-M

DEPARTMENT OF LABOR

Mine Safety and Health Administration

Petitions for Modification

The following parties have filed petitions to modify the application of existing safety standards under section 101(c) of the Federal Mine Safety and Health Act of 1977.

1. Chestnut Coal Company

[Docket No. M-2005-019-C]

Chestnut Coal Company, RD 3, Box 142B, Sunbury, Pennsylvania 17801 has filed a petition to modify the application of 30 CFR 75.512-2 (Frequency of examinations) to its No. 10 Slope Mine (MSHA I.D. No. 36-07059) located in Northumberland County, Pennsylvania. The petitioner requests a modification of the existing standard to permit permissible electrical equipment to be examined once a month instead of weekly. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

2. Chestnut Coal Company

[Docket No. M-2005-020-C]

Chestnut Coal Company, RD 3, Box 142B, Sunbury, Pennsylvania 17801 has filed a petition to modify the application of 30 CFR 75.311(b)(2) and (b)(3) (Main mine fan operation) to its No. 10 Slope Mine (MSHA I.D. No. 36-07059) located in Northumberland County, Pennsylvania. The petitioner requests a modification of the existing standard to permit the electrical circuits entering the underground mine to remain energized to the mine's pumps while the main fan is intentionally shut down during idle shifts when miners are not working underground. The petitioner proposes to de-energize the electrical circuits to the pumps and run the main mine fan for 30 minutes after the water from the mine has been

removed and prior to entering the mine to conduct a pre-shift examination. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

3. Six M Coal Company

[Docket No. M-2005-021-C]

Six M Coal Company, 482 High Road, Ashland, Pennsylvania 17921 has filed a petition to modify the application of 30 CFR 75.335 (Construction of seals) to its No. 1 Slope Mine (MSHA I.D. No. 36-09138) located in Dauphin County, Pennsylvania. Petitioner proposes constructing seals from wooden materials of moderate size and weight; designing the seals to withstand a static horizontal pressure in the range of 10 psi; and installing a sampling tube only in the monkey (higher elevation) seal. The petitioner asserts that because of the pitch of anthracite veins, concrete blocks are difficult to use and expose miners to safety hazards during transport. The petitioner cites the low level of explosibility of anthracite coal dust and the minimal potential for either an accumulation of methane in previously mined pitching veins or an ignition source in the gob area as justification for the proposed 10 psi design criterion. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

4. Consolidation Coal Company

[Docket No. M-2005-022-C]

Consolidation Coal Company, 1800 Washington Road, Pittsburgh, Pennsylvania 15241 has filed a petition to modify the application of 30 CFR 75.503 (Permissible electric face equipment; maintenance) and 30 CFR 18.35 (Portable (trailing) cables and cords) to its Blacksville No. 2 Mine (MSHA I.D. No. 46-01968) located in Monongalia County, West Virginia. The petitioner requests a modification of the existing standard to permit the maximum length of trailing cables for supplying power to permissible equipment used in continuous mining section be increased to 1,000 feet. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

5. Warrior Coal, LLC

[Docket No. M-2005-023-C]

Warrior Coal, LLC, 57 J.E. Ellis Road, Madisonville, Kentucky 42431 has filed a petition to modify the application of 30 CFR 75.1103-4(a) (Automatic fire

sensor and warning device systems; installation; minimum requirements) to its Cardinal Mine (MSHA I.D. No. 15-17216) located in Hopkins County, Kentucky. The petitioner requests a modification of Section 2(a) of its previously granted petition, M-2004-034-C, to read as follows: "The carbon monoxide monitoring system shall be capable of providing both visual and audible signals. A visual or audible alert signal shall be activated when the carbon monoxide level at any sensor reaches 10 parts per million (ppm) above the ambient level for the mine. An audible and visual alarm signal distinguishable from the alert signal shall be activated when the carbon monoxide level at any sensor reaches 15 ppm above the ambient level for the mine. The District Manager is authorized to require lower alert and alarm levels." The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

6. Ohio County Coal Company

[Docket No. M-2005-024-C]

Ohio County Coal Company, P.O. Box 39, Centertown, Kentucky 42328 has filed a petition to modify the application of 30 CFR 75.1101-1(b) (Deluge-type water spray systems) to its Big Run Mine (MSHA I.D. No. 15-18552) located in Ohio County, Kentucky. The petitioner proposes to train a person in the testing procedures specific to the deluge-type water spray fire suppression systems used at each belt drive to once a week conduct a visual examination of each deluge-type water spray fire suppression system; to conduct a functional test of the deluge-type water spray fire suppression systems by actuating the system and observing its performance; and finally, to record the results of the examination and functional test in a book maintained on the surface that would be made available to the authorized representative of the Secretary. The results of the examination and functional test will be retained at the mine for one year. The petitioner states that if any malfunction or clogged nozzle is detected as a result of the weekly examination or functional test, corrections will be made immediately. The petitioner further states that the procedure used to perform the functional test will be posted at or near each belt drive that uses a deluge-type water spray fire suppression system. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.
