**Labor-Management Cooperation Program; Application Solicitation for Labor-Management Committees FY2005**

*A. Introduction*

The following is the final Solicitation for the Fiscal Year (FY) 2005 cycle of the Labor-Management Cooperation Program as it pertains to the support of labor-management committees. These guidelines represent the continuing efforts of the Federal Mediation and Conciliation Service to implement the provisions of the Labor-Management Cooperation Act of 1978, which was initially implemented in FY81. The Act authorizes FMCS to provide assistance in the establishment and operation of company/plant, area, public sector, and industry-wide labor-management committees which:

- (A) Have been organized jointly by employers and labor organizations representing employees in that company/plant, area, government agency, or industry; and
- (B) Are established for the purpose of improving labor-management relationships, job security, and organizational effectiveness; enhancing economic development; or involving workers in decisions affecting their working lives, including improving communication with respect to subjects of mutual interest and concern.

The Program Description and other sections that follow, as well as a separately published FMCS Financial and Administrative Grants Manual, make up the basic guidelines, criteria, and program elements a potential applicant for assistance under this program must know in order to develop an application for funding consideration for either a company/plant, area-wide, industry, or public sector labor-management committee. Directions for obtaining an application kit may be found in Section H. A copy of the Labor-Management Cooperation Act of 1978, included in the application kit, should

be reviewed in conjunction with this solicitation.

*B. Program Description*

*Objectives*

The Labor-Management Cooperation Act of 1978 identifies the following seven general areas for which financial assistance would be appropriate:

- (3) To assist workers and employers in solving programs of mutual concern not susceptible to resolution within the collective bargaining process;
- (4) To study and explore ways of eliminating potential problems which reduce the competitiveness and inhibit the economic development of the company/plant, area, or industry;
- (5) To enhance the involvement of workers in making decisions that affect their working lives.
- (6) To expand and improve working relationships between workers and managers; and
- (7) To encourage free collective bargaining by establishing continuing mechanisms for communication between employers and their employees through Federal assistance in the formation and operation of labor-management committees.

The primary objective of this program is to encourage and support the establishment and operation of joint labor-management committees to carry out specific objectives that meet the aforementioned general criteria. The term "labor" refers to employees represented by a labor organization and covered by a formal collective bargaining agreement. These committees may be found at either the plant (company), area, industry, or public sector levels.

A plant or company committee is generally characterized as restricted to
