Title: Uniform Grant Application Package for Discretionary Grant Programs.

OMB Number: 0584-0512.

Expiration Date: May 31, 2005.

Type of Request: Revision of a currently approved collection of information.

Abstract: FNS has a number of discretionary grant programs which have increased over the last several years, resulting in an increase in the number of respondents. (Consistent with the definition in 7 CFR part 3016, the term "grant" as used in this notice includes cooperative agreements.) The authorities for these grants vary and will be cited as part of each grant application solicitation. The purpose of the revision to the currently approved collection for the Uniform Grant Application Package for Discretionary Grant Programs is to continue the authority for the established uniform grant application package and to update the number of collection hours. The uniform collection package is usable for all of FNS' discretionary grant programs to collect information from grant applicants that are needed to evaluate and rank applicants and protect the integrity of the grantee selection process. All FNS discretionary grant programs will be eligible, but not required, to use the uniform grant application package. Before soliciting applications for a discretionary grant program, FNS will decide whether the uniform grant application package will meet the needs of that grant program. If FNS decides to use the uniform grant application package, FNS will note in the grant solicitation that applicants must use the uniform grant application package and that the information collection has already been approved by OMB. If FNS decides not to use the uniform grant application package or determines that it needs grant applicants to provide additional information not contained in the uniform package, then FNS will publish a notice soliciting comments on its proposal to collect different/additional information before making the grant solicitation.

The uniform grant application package will include general information and instructions; a checklist; a requirement for the program narrative statement describing how the grant objectives will be reached; the Standard Form (SF) 424 series that

requests basic information, budget information, assurances regarding Nonprocurement Debarment and Suspension, the Drug-Free Workplace rule, general assurances, a lobbying certification, and an optional survey form to ensure equal opportunity for applicants. The proposed information collection covered by this notice is related to the requirements for the program narrative statement. The requirements for the program narrative statement are based on the requirements for program narrative statements described in section 1.c(5) of the OMB Circular A-102, and will apply to all types of grantees—State and local governments, non-profit organizations, institutions of higher education, hospitals, and for-profit organizations. The information collection burden related to the SF-424 series, assurances, certification, and optional survey form for all applicants, has been separately approved by OMB. (For availability of the OMB Circular mentioned in this paragraph, please refer to 5 CFR 1310.3.)

Affected Public: State and local governments, non-profit organizations, institutions of higher education, hospitals, and for-profit organizations.

Estimated Number of Respondents: 353.

Estimated Total annual responses: 520.

Number of record keepers: 353.

Estimated Annual hours per record keepers: 62.27.
