DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration will publish periodic summaries of proposed projects. To request more information

on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: 2006 National Survey on Drug Use and Health—(OMB No. 0930-0110)—Revision

The National Survey on Drug Use and Health (NSDUH), formerly the National Household Survey on Drug Abuse (NHSDA), is a survey of the civilian, noninstitutionalized population of the United States 12 years old and older.

The data are used to determine the prevalence of use of tobacco products, alcohol, illicit substances, and illicit use of prescription drugs. The results are used by SAMHSA, ONDCP, Federal government agencies, and other organizations and researchers to establish policy, direct program activities, and better allocate resources.

For the 2006 NSDUH, additional questions are being planned regarding self-help drug treatment, use of additional hallucinogens, prescription drugs and over the counter medications, respondent's place of residence, and alcohol consumption practices. To maintain the respondent burden at 60 minutes per interview, a few questions will be deleted. The remaining modular components of the questionnaire will remain essentially unchanged except for minor modifications to wording.

As with all NSDUH/NHSDA surveys conducted since 1999, the sample size of the survey for 2006 will be sufficient to permit prevalence estimates for each of the fifty states and the District of Columbia.

The total annual burden estimate is shown below:

Activity	Number of respondents	Number of responses per respondent	Average burden hours per respondent	Total burden hours
Household Screening	182,250	1	.083	15,127
Interview	67,500	1	1.0	67,500
Re-interview	3,100	1	1.0	3,100
Screening Verification	5,559	1	.067	372
Interview Verification	10,125	1	.067	678
Re-Interview Verification	1,550	1	.067	104
Total	182,250	86,881

Send comments to Summer King, SAMHSA Reports Clearance Officer, Room 71-1044, One Choke Cherry Road, Rockville, MD 20857. Written comments should be received within 60 days of this notice.

Dated: April 12, 2005.

Anna Marsh,

Executive Officer, SAMHSA.

BILLING CODE 4162-20-P

DEPARTMENT OF HOMELAND SECURITY

Office of the Secretary

[Docket No. DHS-2005-0032]

Office of Research and Development; Proposed Federally Funded Research and Development Center

AGENCY: Office of National Laboratories, Directorate of Science and Technology, Department of Homeland Security.

ACTION: Notice.

SUMMARY: The Department of Homeland Security (DHS) expects to sponsor a

Federally Funded Research and Development Center (FFRDC) to address the need for scientific research to better anticipate, prevent, and mitigate the consequences of biological attacks. The proposed FFRDC will be the National Biodefense Analysis and Countermeasures Center (NBACC) which is a critical component in the overarching Homeland Security national biodefense complex. The NBACC will both coordinate biodefense research activities among various federal agencies and to execute its own research plan. Also required will be technical and program management capabilities to
