

identify training program strengths and weaknesses as they impact on the decision to quit, identify supervisory style strengths and weaknesses as they impact on the decision to leave, identify the impact of automation on the decision to leave, and identify the impact of pay and other working conditions on the interviewer's decision to leave the job. The exit questionnaires have been shown to be useful and we want to continue their use.

The information collected via the Field Representative (BC-1294) and Enumerator (BC-1294D) Exit Questionnaires will help the Census Bureau develop plans to reduce turnover in its current survey and decennial interviewing staff. This, in turn, allows for better informed decisions regarding the field workforce and implementation of more effective pay plans, selection procedures, interviewer training, and retention strategies for both current and decennial interviewers.

**Submission for OMB Review;
Comment Request**

The Department of Commerce has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).
Title: Assessing Stakeholder Attitudes and Concerns Toward Ecosystem Management.

Form Number(s): None.

OMB Approval Number: None.

Type of Request: Regular submission.

Burden Hours: 3,333.

Number of Respondents: 10,000.

Average Hours Per Response: 20 minutes.

Needs and Uses: The NOAA National Marine Fisheries Service supports an ecosystem approach to fisheries management. However, relatively little information has been collected in a systematic manner concerning stakeholder perceptions of an ecosystem approach to management. An understanding and knowledge of stakeholder preferences for broad-level management objectives, as well as opinions toward the current management system and status of marine resources, would assist the agency in making decisions that maximize the total societal benefits from marine resources. Given the increasing emphasis on ecosystem issues, NOAA Fisheries will conduct a survey of key stakeholders concerning their preferences and perceptions of both current fisheries management and an ecosystem approach to management. The survey is well timed to establish a baseline measure of attitudes toward ecosystem approaches to management and to provide key stakeholders with the opportunity to express their preferences for the types of goals and objectives that should be pursued.

Affected Public: Business or other for-profit organizations; Individuals or households; Not-for-profit institutions; Federal government; State, local or tribal government.

Frequency: One time only.

Respondent's Obligation: Voluntary.

**Submission For OMB Review;
Comment Request**

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: Current Population Survey, Basic Demographics.

Form Number(s): CPS-263, CPS-263(SP), CPS-263A, CPS-264, CPS-264(SP), CPS-264A, CPS-266, BC-1428, BC-1428(SP), BC-1433, BC-1433(SP), CPS-692, CPS-504.

Agency Approval Number: 0607-0049.

Type of Request: Extension of a currently approved collection.

Burden: 18,012 hours.

Number of Respondents: 55,000.

Avg Hours Per Response: 1.58 minutes.

Needs and Uses: The U.S. Census Bureau requests continued Office of Management and Budget clearance for the collection of basic demographic information on the Current Population Survey (CPS).

The CPS has been the source of official government statistics on employment and unemployment for over 50 years. The Bureau of Labor Statistics (BLS) and the Census Bureau jointly sponsor the basic monthly survey, and the Census Bureau prepares and conducts all the field work. The Census Bureau provides the BLS with data files and tables. The BLS seasonally adjusts, analyzes, and publishes the results for the labor force data in conjunction with the demographic characteristics. In accordance with the OMB's request, the Census Bureau and the BLS divide the clearance request in order to reflect the joint sponsorship and funding of the CPS program.
