Charges for Intermittent Generator Imbalance Service: Described below is the methodology for calculating the charges applicable to Intermittent Generator Imbalances.

(1) Net Hourly Intermittent Generator Imbalances Within the Deviation Band.

For each hour when the Intermittent Generator's actual generation exceeds the amount of generation scheduled but is within the deviation band as provided in this Schedule, the Transmission Provider shall compensate the Transmission Customer at a rate equal to 100 percent of the Transmission Provider's System Decremental Cost at the time of the deviation.

For each hour when the intermittent generator's actual generation is below the amount of generation scheduled but is within the deviation band as provided in this Schedule, the Transmission Customer shall compensate the Transmission Provider at a rate equal to 100 percent of the Transmission Provider's System Incremental Cost.

(2) Net Hourly Generator Imbalances Outside the Deviation Band.

For each hour when the Intermittent Generator's actual generation exceeds the amount of generation scheduled but is outside the deviation band (*i.e.*, produces 110 percent or more its schedule) as provided in this Schedule, the Transmission Provider shall compensate the Transmission Customer at a rate equal to 90 percent of the Transmission Provider's System Decremental Cost at the time of the deviation.

For each hour when the Intermittent Generator's actual generation is below the amount of generation scheduled but outside the deviation band (*i.e.*, produces 90 percent or less of its schedule), as provided in this Schedule, the Transmission Customer shall compensate the Transmission Provider at a rate equal to 110 percent of the Transmission Provider's System Incremental Cost at the time of the deviation.

Background

Temporary regulations in the Rules and Regulations section of this issue of the **Federal Register** amend Manufacturers and Retailers Excise Taxes Regulations (26 CFR part 48) under sections 4082 and 4101. The temporary regulations set forth requirements regarding the mechanical dye injection systems for diesel fuel and kerosene and are required by the American Jobs Creation Act of 2004. The text of those temporary regulations also serves as the text of these proposed regulations. The preamble to the temporary regulations explains the temporary regulations.

Special Analyses

It has been determined that this notice of proposed rulemaking is not a significant regulatory action as defined in Executive Order 12866. Therefore, a regulatory flexibility assessment is not required. It also has been determined that section 553(b) of the Administrative Procedure Act (5 U.S.C. chapter 5) does not apply to these regulations. It is hereby certified that the collection of information in these regulations will not have a significant economic impact on a substantial number of small entities. This certification is based on the fact that the time required to maintain the required records and report to the IRS is minimal and will not have a significant impact on those small entities. Therefore, a Regulatory Flexibility Analysis under the Regulatory Flexibility Act (5 U.S.C. chapter 6) is not required. Pursuant to section 7805(f) of the Internal Revenue Code, this notice of proposed rulemaking will be submitted to the Chief Counsel for Advocacy of the Small Business Administration for comment on its impact on small business.

Comments and Public Hearing

Before these proposed regulations are adopted as final regulations, consideration will be given to any written (a signed original and eight (8) copies) or electronic comments that are

submitted timely to the IRS. All comments will be available for public inspection and copying.

A public hearing has been scheduled for July 19, 2005, at 10 a.m. in the IRS Auditorium, Internal Revenue Building, 1111 Constitution Ave., NW., Washington, DC. Because of access restrictions, visitors will not be admitted beyond the immediate entrance area at the Constitution Avenue entrance more than 30 minutes before the hearing starts. For information about having your name placed on the building access list to attend the hearing, see the **FOR FURTHER INFORMATION CONTACT** section of this preamble.

The rules of 26 CFR 601.601(a)(3) apply to the hearing. Persons who wish to present oral comments at the hearing must submit written comments and an outline of the topics to be discussed and the time to be devoted to each topic (signed original and eight copies (8) copies) by June 27, 2005. A period of 10 minutes will be allotted to each person for making comments. An agenda showing the scheduling of speakers will be prepared after the deadline for receiving outlines has passed. Copies of the agenda will be available free of charge at the hearing.
