

II. Background on the Receipt of Requests to Cancel Registrations

This notice announces receipt by EPA of a request, dated March 16, 2005, from Drexel Chemical Company to cancel its last four remaining ethyl parathion product registrations (identified in Table 1 below). Ethyl parathion is an organophosphate insecticide/miticide that was once registered for agricultural uses; however, no legal uses of ethyl parathion remain. Distribution of all ethyl parathion manufacturing use products was prohibited as of December 31, 2002. In addition, sale and distribution of all other end-use products containing ethyl parathion by registrants was prohibited as of December 31, 2002. The last legal date to use products containing ethyl parathion was October 31, 2003; therefore, it is appropriate to cancel the last four remaining product registrations immediately after the closing of the comment period on this notice.

III. What Action is the Agency Taking?

This notice announces receipt by EPA of a request from Drexel Chemical Company to cancel ethyl parathion product registrations. The affected products and the registrants making the requests are identified in Table 1 of this unit.

Under section 6(f)(1)(A) of FIFRA, registrants may request, at any time, that their pesticide registrations be canceled or amended to terminate one or more pesticide uses. Section 6(f)(1)(B) of FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, section 6(f)(1)(C) of FIFRA requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period, or
2. The Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

Drexel Chemical Company has requested that EPA waive the 180-day comment period. EPA will provide a 30-day comment period on the proposed requests.

Unless a request is withdrawn by the registrant within 30 days of publication of this notice, or if the Agency determines that there are substantive comments that warrant further review of this request, an order will be issued canceling the affected registrations.

IV. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the Administrator may approve such a request.

V. Procedures for Withdrawal of Request and Considerations for Reregistration of Ethyl Parathion

Registrants who choose to withdraw a request for cancellation must submit such a withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**, postmarked before May 27, 2005. This written withdrawal of the request for cancellation will apply only to the applicable FIFRA section 6(f)(1) request listed in this notice.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Because use of products containing

ethyl parathion was prohibited as of October 31, 2003, there will be no existing stocks provision for the four products referenced in this notice upon their cancellation.

If the request for voluntary cancellation and/or use termination is granted, the Agency intends to publish the cancellation order in the **Federal Register**.

Ethoprop; Products Cancellation Order

AGENCY: Environmental Protection Agency (EPA)

ACTION: Notice.

SUMMARY: This notice announces EPA's order for the cancellations, voluntarily requested by the registrant and accepted by the Agency, of the following products containing the pesticide ethoprop, pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This cancellation order follows a February 5, 2003 **Federal Register** Notice of Receipt of Requests to voluntarily cancel certain Pesticide Registrations. In the February 5, 2003 **Federal Register** Notice, EPA indicated that it would issue an order implementing the cancellations, unless the Agency received substantive comments within the 180-day comment period that would merit its further review of these requests, or unless the registrant withdrew their request within the period. The Agency did not receive any comments on the Notice. Further, the registrant did not withdraw their request. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellations. Any distribution, sale, or use of the ethoprop products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

DATES: The cancellations are effective April 27, 2005.
