

The FTC staff regularly revises the booklet with the most up-to-date information on identity theft recovery, based on contacts with each of those groups. It recently has been updated to include the new FACT Act rights. Identity theft takes many forms, and victims have several avenues to recovery. The Take Charge booklet offers consumers and business meaningful guidance and useful tools for resolving the many different issues facing identity theft victims, yet it remains flexible enough to respond to the always changing circumstances of this crime. The Commission believes that publication of the revised booklet represents the best method of complying with the Act's model form and procedures requirement.

As set forth under section 153 of the FACT Act (section 621(f)(2) of the FCRA), the Commission has consulted with the Federal banking agencies and the National Credit Union Administration. Such consultation and this notice of the Commission's publication containing model forms and procedures for identity theft victims fulfills the Commission's statutory obligation.

By direction of the Commission.
