Announcement Type: Initial.

Funding Opportunity Number: HHS-2005-ACF-OCS-IJ-0036.

CFDA Number: 93.009.

Due Date for Applications:

Application is due May 31, 2005.

Executive Summary: The

Administration for Children and Families (ACF), Office of Community Services (OCS) announces that applications will be accepted for new grants pursuant to the U.S. Department of Health and Human Services (HHS) Secretary's Compassion Capital Fund (CCF) authorized under section 1110 of the Social Security Act governing Social Services Research and Demonstration activities and the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2005, Public Law 108-447.

Pursuant to this announcement, OCS will award funds to help build the capacity of faith-based and community organizations that address the needs of distressed communities. A "distressed community" is defined as a neighborhood or geographic community with an unemployment rate and/or poverty rate equal to or greater than the state or national rate. Priority areas of need include at-risk youth; the homeless; marriage education and preparation services to help couples who choose marriage for themselves develop the skills and knowledge to form and sustain healthy marriages; or social services to those living in rural communities.

I. Funding Opportunity Description

The Administration for Children and Families (ACF), Office of Community Services (OCS) announces that applications will be accepted for new grants pursuant to the U.S. Department

of Health and Human Services (HHS) Secretary's Compassion Capital Fund (CCF) authorized under section 1110 of the Social Security Act governing Social Services Research and Demonstration activities and the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2005, Public Law 108-447.

Pursuant to this announcement, OCS will award funds to help build the capacity of faith-based and community organizations that address the needs of distressed communities. A "distressed community" is defined as a neighborhood or geographic community with an unemployment rate and/or poverty rate equal to or greater than the State or national rate. Priority areas of need include at-risk youth; the homeless; marriage education and preparation services to help couples who choose marriage for themselves develop the skills and knowledge to form and sustain healthy marriages; or social services to those living in rural communities.

A. Background

Faith-based and community organizations have a long history of providing an array of important services to people and communities in need of charitable services in the United States. These groups have unique strengths that government cannot duplicate. They hold the trust of their community neighbors and leaders and have great understanding of the needs of the community and its systems. As a result, they are well positioned to understand the unique needs of at-risk youth, the homeless, those choosing to develop the skills and knowledge to form and sustain healthy marriages, and those living in rural communities in need of social services. Furthermore, the sense of mission from which these organizations work often translates into a unique approach to service delivery, a dedication of service to others, and a cultural awareness specific to their surrounding communities.

In recognition of this history and ability, President Bush believes it is in the public's interest to broaden Federal efforts to work with faith-based and community organizations, and he has made it a priority to ensure that these groups are treated equally with other organizations that apply for Federal funding. A key part of this effort to enhance and expand the participation of faith-based and community groups in serving those in need is the Compassion Capital Fund (CCF) Targeted-Capacity Building program described in this announcement.

Although the CCF Targeted Capacity Building program has addressed issues of at-risk youth in the past, this year, President Bush has specifically identified the need to focus on helping at-risk youth overcome the perilous risk of gang influence and involvement. Consequently, those interested in proposing at-risk youth activities are encouraged to propose projects that address this critical youth issue.

B. Program Purpose and Objectives

The purpose of the CCF Targeted Capacity Building program is to help build the capacity of grassroots faith-based and community organizations that

address the needs of distressed communities. The CCF Targeted Capacity Building Program funds capacity-building activities that produce measurable impact resulting in more sustainable organizations. Capacity-building activities ensure that grassroots organizations have the tools to facilitate key changes within their organization. By addressing issues that are critical to the long-term viability of the organization, non-profits are better prepared and positioned to understand and meet the needs of the communities they serve.

CCF Targeted Capacity-Building grants will be awarded to grassroots

faith-based and community organizations serving “distressed communities.” These grassroots organizations must use the funds in one of the four priority areas of need towards their organization’s capacity-building in at least one of these five critical areas: (1) Leadership development, (2) organizational development, (3) programs/services, (4) funding, and (5) community engagement. Examples of the kinds of activities that relate to each critical area are listed below. This list is intended to be illustrative, not exhaustive:

Critical areas	Examples
1. Leadership Development	<ul style="list-style-type: none"> —Board Composition and Function. —Staff Professional and Career Development. —Volunteers Training and Development. —Succession Planning.
2. Organizational Development	<ul style="list-style-type: none"> —Board Governance. —Systems: Management, Human Resources, Financial, Information Technology, Planning. —Policies and Procedures. —Fiscal Controls. —Comprehensive Communications Strategy.
3. Programs/Services	<ul style="list-style-type: none"> —Program Design that expands or enhances program or service delivery. —Program Monitoring.
4. Funding	<ul style="list-style-type: none"> —Evaluating Program Outcomes. —Diversified Funding Sources. —Financial Sustainability.
5. Community Engagement	<ul style="list-style-type: none"> —Donor Development. —Community Asset Mapping. —Level of Community Participation. —Community Needs Assessment. —Leveraging Resources/Collaborative Relationships.

The goal of the CCF Targeted Capacity-Building Program is to help promising organizations bolster their sustainability and ultimately be able to serve more people more effectively and/or more efficiently, or expand/enhance services to distressed communities on a continuing basis. Applicants must describe, in concrete terms, their plans for using funds to improve their organization in a sustainable way. Grantees must use these awards to increase efficiency and capacity; therefore, these awards cannot be used to augment or supplant direct service delivery funds. For example, an organization that distributes food to the poor will not receive a grant simply to purchase additional food. Nor, for example, will an organization that provides substance abuse treatment services receive additional funds simply to enable it to provide exactly the same services to more people. Although these awards might well enable these organizations to assist additional individuals, they would not serve to improve the organizations’

sustainability, efficiency, or capacity. Rather, the organizations would simply use additional funds in the same way they use existing funds, without fundamentally changing or improving their services.

ACF encourages and will grant preference to those eligible organizations whose annual operational budget is less than \$500,000, or whose tribal membership is less than 5,000. Please see Section III.3 Other Eligibility Information, Section IV.2 Content and Form of Application Submission, V.1 Evaluation Criteria, and V. 2 Review and Selection Process for a detailed description.

Organizations that receive CCF funds may not engage in inherently religious activities, such as worship, religious instruction, or proselytization, as part of the programs or services funded with CCF funds. If an organization conducts such inherently religious activities, the activities must be offered separately, in time or location, from the programs or services funded with CCF assistance, and participation must be voluntary for

beneficiaries of the CCF-funded programs or services. In addition, an organization receiving CCF funds shall not, in providing CCF-funded services, discriminate against a program beneficiary or prospective program beneficiary on the basis of religion or religious belief. Regulations pertaining to the Equal Treatment for Faith-Based Organizations, which includes the prohibition against Federal funding of inherently religious activities, can be found at either 45 CFR 87.1 or the HHS Web site at <http://www.os.dhhs.gov/fbc/waisgate21.pdf>.

4. Intergovernmental Review

State Single Point of Contact (SPOC)

This program is covered under Executive Order 12372, "Intergovernmental Review of Federal Programs," and 45 CFR part 100, "Intergovernmental Review of Department of Health and Human Services Programs and Activities." Under the Order, States may design their own processes for reviewing and commenting on proposed Federal assistance under covered programs.

As of October 1, 2004, the following jurisdictions have elected to participate in the Executive Order process: Arkansas, California, Delaware, District of Columbia, Florida, Georgia, Illinois, Iowa, Kentucky, Maine, Maryland, Michigan, Mississippi, Missouri, Nevada, New Hampshire, New Mexico, New York, North Dakota, Rhode Island, South Carolina, Texas, Utah, West Virginia, Wisconsin, American Samoa, Guam, North Mariana Islands, Puerto Rico, and Virgin Islands. As these jurisdictions have elected to participate in the Executive Order process, they have established SPOCs. Applicants from participating jurisdictions should contact their SPOC, as soon as possible, to alert them of prospective applications and receive instructions. Applicants must submit all required materials, if any, to the SPOC and indicate the date of this submittal (or the date of contact if no submittal is required) on the Standard Form 424, item 16a. Under 45 CFR 100.8(a)(2).

A SPOC has 60 days from the application deadline to comment on proposed new or competing continuation awards. SPOCs are encouraged to eliminate the submission of routine endorsements as official recommendations. Additionally, SPOCs are requested to clearly differentiate between mere advisory comments and those official State process recommendations which may trigger the "accommodate or explain" rule.

When comments are submitted directly to ACF, they should be addressed to the U.S. Department of Health and Human Services, Administration for Children and Families, Office of Grants Management, Division of Discretionary Grants, 370 L'Enfant Promenade SW., 4th floor, Washington, DC 20447.

When comments are submitted directly to ACF, they should be

addressed to: Department of Health and Human Services, Administration for Children and Families, Division of Discretionary Grants, 370 L'Enfant Promenade, SW., Washington, DC 20447.

Although the remaining jurisdictions have chosen not to participate in the process, entities that meet the eligibility requirements of the program are still eligible to apply for a grant even if a State, Territory, Commonwealth, etc. does not have a SPOC. Therefore, applicants from these jurisdictions, or for projects administered by federally-recognized Indian Tribes, need take no action in regard to E.O. 12372.

The official list, including addresses, of the jurisdictions elected to participate in E.O. 12372 can be found on the following URL: <http://www.whitehouse.gov/omb/grants/spoc.html>.

A list of the Single Points of Contact for each State and Territory is included with the application materials for this announcement.

Provide information on the applicant organization(s) and cooperating partners, such as organizational charts, financial statements, audit reports or statements from CPAs/Licensed Public Accountants, Employer Identification Numbers, names of bond carriers, contact persons and telephone numbers, child care licenses and other documentation of professional accreditation, information on compliance with Federal/State/local government standards, documentation of experience in the program area, and other pertinent information. If the applicant is a non-profit organization, submit proof of non-profit status in its application.

The non-profit agency can accomplish this by providing: (a) A reference to the applicant organization's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations

described in the IRS Code; (b) a copy of a currently valid IRS tax exemption certificate, (c) a statement from a State taxing body, State attorney general, or other appropriate State official certifying that the applicant organization has a non-profit status and that none of the net earnings accrue to any private shareholders or individuals; (d) a certified copy of the organization's certificate of incorporation or similar document that clearly establishes non-profit status, (e) any of the items immediately above for a State or national parent organization and a statement signed by the parent organization that the applicant organization is a local non-profit affiliate.

Objectives and Need for Assistance

Clearly identify the physical, economic, social, financial, institutional, and/or other problem(s) requiring a solution. The need for assistance must be demonstrated and the principal and subordinate objectives of the project must be clearly stated; supporting documentation, such as letters of support and testimonials from concerned interests other than the applicant, may be included. Any relevant data based on planning studies should be included or referred to in the endnotes/footnotes. Incorporate demographic data and participant/beneficiary information, as needed. In developing the project description, the applicant may volunteer or be requested to provide information on the total range of projects currently being conducted and supported (or to be initiated), some of which may be outside the scope of the program announcement.

Approach

Outline a plan of action that describes the scope and detail of how the proposed work will be accomplished. Account for all functions or activities identified in the application. Cite factors that might accelerate or decelerate the work and state your reason for taking the proposed approach rather than others. Describe any unusual features of the project such as design or technological innovations, reductions in cost or time, or extraordinary social and community involvement.

Provide quantitative monthly or quarterly projections of the accomplishments to be achieved for each function or activity in such terms as the number of people to be served and the number of activities accomplished.

When accomplishments cannot be quantified by activity or function, list

them in chronological order to show the schedule of accomplishments and their target dates.

If any data is to be collected, maintained, and/or disseminated, clearance may be required from the U.S. Office of Management and Budget (OMB). This clearance pertains to any "collection of information that is conducted or sponsored by ACF."

List organizations, cooperating entities, consultants, or other key individuals who will work on the project along with a short description of the nature of their effort or contribution.

Results or Benefits Expected

Identify the results and benefits to be derived.

Budget and Budget Justification

Provide a budget with line item detail and detailed calculations for each budget object class identified on the Budget Information form. Detailed calculations must include estimation methods, quantities, unit costs, and other similar quantitative detail sufficient for the calculation to be duplicated. Also include a breakout by the funding sources identified in Block 15 of the SF-424.

Provide a narrative budget justification that describes how the categorical costs are derived. Discuss the necessity, reasonableness, and allocability of the proposed costs.

Personnel

Description: Costs of employee salaries and wages.

Justification: Identify the project director or principal investigator, if known. For each staff person, provide the title, time commitment to the project (in months), time commitment to the project (as a percentage or full-time equivalent), annual salary, grant salary, wage rates, etc. Do not include the costs of consultants or personnel costs of delegate agencies or of specific project(s) or businesses to be financed by the applicant.

Fringe Benefits

Description: Costs of employee fringe benefits unless treated as part of an approved indirect cost rate.

Justification: Provide a breakdown of the amounts and percentages that comprise fringe benefit costs such as health insurance, FICA, retirement insurance, taxes, etc.

Travel

Description: Costs of project-related travel by employees of the applicant organization (does not include costs of consultant travel).

Justification: For each trip, show the total number of traveler(s), travel destination, duration of trip, per diem, mileage allowances, if privately owned vehicles will be used, and other transportation costs and subsistence allowances. Travel costs for key staff to attend ACF-sponsored workshops should be detailed in the budget.

Equipment

Description: "Equipment" means an article of nonexpendable, tangible personal property having a useful life of more than one year and an acquisition cost which equals or exceeds the lesser of (a) the capitalization level established by the organization for the financial statement purposes, or (b) \$5,000. (**Note:** Acquisition cost means the net invoice unit price of an item of equipment, including the cost of any modifications, attachments, accessories, or auxiliary apparatus necessary to make it usable for the purpose for which it is acquired. Ancillary charges, such as taxes, duty, protective in-transit insurance, freight, and installation shall be included in or excluded from acquisition cost in accordance with the organization's regular written accounting practices.)

Justification: For each type of equipment requested, provide a description of the equipment, the cost per unit, the number of units, the total cost, and a plan for use on the project, as well as use or disposal of the equipment after the project ends. An applicant organization that uses its own definition for equipment should provide a copy of its policy or section of its policy which includes the equipment definition.

Supplies

Description: Costs of all tangible personal property other than that included under the Equipment category.

Justification: Specify general categories of supplies and their costs. Show computations and provide other information which supports the amount requested.

Contractual

Description: Costs of all contracts for services and goods except for those that belong under other categories such as equipment, supplies, construction, etc. Include third party evaluation contracts (if applicable) and contracts with secondary recipient organizations, including delegate agencies and specific project(s) or businesses to be financed by the applicant.

Justification: Demonstrate that all procurement transactions will be conducted in a manner to provide, to the maximum extent practical, open and

free competition. Recipients and subrecipients, other than States that are required to use Part 92 procedures, must justify any anticipated procurement action that is expected to be awarded without competition and exceed the simplified acquisition threshold fixed at 41 U.S.C. 403(11) (currently set at \$100,000).

Recipients might be required to make available to ACF pre-award review and procurement documents, such as request for proposals or invitations for bids, independent cost estimates, etc.

Note: Whenever the applicant intends to delegate part of the project to another agency, the applicant must provide a detailed budget and budget narrative for each delegate agency, by agency title, along with the required supporting information referred to in these instructions.

Other

Enter the total of all other costs. Such costs, where applicable and appropriate, may include but are not limited to insurance, food, medical and dental costs (noncontractual), professional services costs, space and equipment rentals, printing and publication, computer use, training costs, such as tuition and stipends, staff development costs, and administrative costs.

Justification: Provide computations, a narrative description and a justification for each cost under this category.

Indirect Charges

Description: Total amount of indirect costs. This category should be used only when the applicant currently has an indirect cost rate approved by the Department of Health and Human Services (HHS) or another cognizant Federal agency.

Justification: An applicant that will charge indirect costs to the grant must enclose a copy of the current rate agreement. If the applicant organization is in the process of initially developing or renegotiating a rate, upon notification that an award will be made, it should immediately develop a tentative indirect cost rate proposal based on its most recently completed fiscal year, in accordance with the cognizant agency's guidelines for establishing indirect cost rates, and submit it to the cognizant agency. Applicants awaiting approval of their indirect cost proposals may also request indirect costs. When an indirect cost rate is requested, those costs included in the indirect cost pool should not also be charged as direct costs to the grant. Also, if the applicant is requesting a rate which is less than what is allowed under the program, the authorized representative of the applicant organization must submit a

signed acknowledgement that the applicant is accepting a lower rate than allowed.

Evaluation Criteria

The following evaluation criteria appear in weighted descending order. The corresponding score values indicate the relative importance that ACF places on each evaluation criterion; however, applicants need not develop their applications precisely according to the order presented. Application components may be organized such that a reviewer will be able to follow a seamless and logical flow of information (e.g., from a broad overview of the project to more detailed information about how it will be conducted).

In considering how applicants will carry out the responsibilities addressed under this announcement, competing applications for financial assistance will be reviewed and evaluated against the following criteria:

Objectives and Need for Assistance (30 points)

(a) **Service Area (5 Points):** An application will be evaluated on the extent to which the applicant identifies the specific service area for project implementation and the target population they serve.

(b) **Needs of Service Area (5 Points):** An application will be evaluated on the extent to which the applicant describes the specific needs of the targeted service area; documents that the proposed project will be implemented in a distressed community and/or engages organizations that serve low-income populations; and documents that the project addresses a vital need in a distressed community. A "distressed community" is defined as a neighborhood or geographic community with an unemployment rate and/or poverty rate equal to or greater than the state or national rate. The application documents that both the unemployment level and poverty level for the targeted neighborhood or community are equal to or greater than the state or national level. The application cites the most recent available statistics from published sources, e.g. the recent U.S. Census or updates, the State, county, city, election district and other information are provided in support of its contention.

(c) **Applicant's Capacity-Building Needs (10 Points).** An application will be evaluated on the extent to which the applicant documents the capacity-building needs of their organization. The needs of the organization must be described in relationship to the following five critical areas of

organizational capacity: (1) Leadership development, (2) organizational development, (3) programs/services, (4) funding, and (5) community engagement.

(d) **Project Objectives (10 Points):** An application will be evaluated on the extent to which the applicant states all primary project objectives. Applications will be evaluated on the extent to which the objectives of the proposed project are clearly stated and shown to address the needs of the organization in at least one of the five critical areas: (1) Leadership development, (2) organizational development, (3) programs/services, (4) funding, and (5) community engagement. Applications will be evaluated on the extent to which the applicant presents a compelling need in the community for an increase or improvement in services. Applicants must demonstrate how the receipt of this Federal grant will enable the applicant to increase its capacity to address these vital needs.

Approach (30 points)

Capacity-Building Strategy. An application will be evaluated on the extent to which the applicant describes a plan for developing organizational capacity in at least one of five critical areas: (1) Leadership development, (2) organizational development, (3) programs/services, (4) funding, and (5) community engagement. Applications will be evaluated based on the extent to which the capacity-building approach or strategy is logical, reasonable, and clearly linked to the desired results and benefits expected.

Organizational Profiles (15 points)

(a) **Past Experience: (10 Points).** An application will be evaluated on the extent to which the applicant demonstrates experience in and a proven track record in addressing the needs of "distressed community (ies)", through the provision of social services. A "distressed community" is defined as a neighborhood or geographic community with an unemployment rate and/or poverty rate equal to or greater than the state or national rate. Applications will also be evaluated on the extent to which the applicant documents a history of service in the proposed project service area. In addition, applications will be also be evaluated on the extent to which the applicant includes concrete examples of services and/or programs.

(b) **Organizational Capacity and Project Staff (5 Points).** An application will be evaluated on the extent to which the applicant describes how the proposed project fits into the structure

of the applicant organization.

Applications will be evaluated on the extent to which the applicant provides evidence of facilities, fiscal controls and other resources that are adequate to achieve project goals. An application will be evaluated on the extent to which the applicant includes a listing of key positions required to carry out the project, the individuals proposed to fill the positions, and a detailed description of the kind of work they will perform.

An application will be evaluated on the extent to which the applicant provides evidence demonstrating the staff's skill, knowledge, and experience in carrying out their assigned activities.

Applications will be evaluated on the extent to which the applicant includes the above information with regard to consultants or staff from other organizations proposed to work on the project.

Results or Benefits Expected (15 Points)

An application will be evaluated on the extent to which it identifies the results or benefits expected to be derived from project activities. Applicants must describe how the proposed project will impact the sustainability of their organization. Applicants must describe the process for determining the relationship between project activities and anticipated outcomes, including any output measures to be used to evaluate the proposed project. Applicants must clearly describe the relationship(s) among project objectives, activities and anticipated results. The results and benefits proposed by the applicant must be reasonable and likely, quantified, clearly linked to and supported by the proposed capacity-building approach.

Budget and Budget Justification (10 Points)

An application will be evaluated based on the extent to which the applicant includes a budget that is clear, easy to understand, and that provides a detailed justification for the amount requested. Applicants should refer to the budget information presented in the Standard Forms 424 and 424A and to the budget justification instructions in section C. General Instructions for the Uniform Project Description. Since non-Federal reviewers will be used in the review of applications, applicants may omit from the copies of the application submitted (not from the original), the specific salary rates or amounts for individuals in the application budget and instead provide only summary information.

Additional Bonus Points (5 Points)

The extent to which the application demonstrates that the applicant has an annual operational budget of less than \$500,000, or a tribal membership of less than 5,000 via a signed assurance from an authorized official (Please see Appendix A for instructions on completing the assurance).

2. Review and Selection Process

Since ACF will be using non-Federal reviewers in the review process, applicants have the option of omitting from the application copies (not the original) of specific salary rates or amounts for individuals specified in the application budget.

No grant award will be made on the basis of an incomplete application.

Applications received by the due date will be reviewed and scored competitively. Experts in the field, generally persons from outside the Federal government, will use the evaluation criteria listed in Part V of this announcement to review and score the applications. The results of this review will be a primary factor in making funding decisions. ACF may also solicit comments from Regional Office staff and other Federal agencies. ACF may consider a variety of factors in addition to the review criteria identified above, including geographic diversity/coverage and types of applicant organizations, in order to ensure that the interests of the Federal Government are met in making the final selections. Furthermore, ACF may limit the number of awards made to the same or affiliated organizations although they would serve different geographic areas. Please note that applicants that do not comply with the requirements in the section titled "Eligible Applicants" will not be included in the review process.

ACF encourages and will grant preference to those eligible organizations whose annual operational budget is less than \$500,000, or whose tribal membership is less than 5,000. Please see Section I. Funding Opportunity Description, III.3 Other Information on Eligibility, IV.2 Content and Form of Application Submission, and V.1 Evaluation Criteria for a detailed description.

Approved but Unfunded Applications

Applications that are approved but unfunded may be held over for funding in the next funding cycle, pending the availability of funds, for a period not to exceed one year.

VI. Award Administration Information

1. Award Notices

The successful applicants will be notified through the issuance of a Financial Assistance Award document which sets forth the amount of funds granted, the terms and conditions of the grant, the effective date of the grant, the budget period for which initial support will be given, the non-Federal share to be provided, and the total project period for which support is contemplated. Priority Area I**I. Funding Opportunity Description**

The Administration for Children and Families (ACF), Office of Community Services (OCS) announces that applications will be accepted for new grants pursuant to the U.S. Department of Health and Human Services (HHS) Compassion Capital Fund (CCF) authorized under Section 1110 of the Social Security Act governing Social Services Research and Demonstration activities and the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2005, Pub. Law 108-447.

Pursuant to this announcement, ACF will award funds to experienced organizations to deliver capacity-building services to faith-based and community organizations through the provision of training, technical assistance, and sub-awards.

Intermediary organizations will assist faith-based and community organizations with capacity-building activities in five critical areas: (1) Leadership development, (2) organizational development, (3) programs and services, (4) funding, and (5) community engagement. Capacity-building activities are designed to increase an organization's sustainability

and effectiveness, enhance its ability to provide social services, diversify its funding sources, and create collaborations to better serve those most in need.

A. Background

Faith-based and community organizations have a long history of providing an array of important services to people in need in the United States. These organizations possess unique strengths that the government cannot duplicate. As a result, they are well positioned to assist individuals and families with the most pressing social service needs.

In recognition of this history and ability, President Bush believes it is in the public's interest to broaden Federal efforts to work with faith-based and community organizations and has made improving funding opportunities for such organizations a priority. CCF is a key part of the effort to enhance and expand the participation of faith-based and community groups serving those in need. Intermediary organizations awarded funds under this announcement will serve as partners to both the Federal government and to the faith-based and community organizations that they assist. The intermediaries will represent a diverse set of affiliations, and will assist community-level organizations that have a range of service goals, target populations, affiliations, and beliefs.

Historically, the CCF program has identified the following social service priorities: homelessness, prisoners reentering the community, children of prisoners, at-risk youth, addicts, elders in need, families in transition from welfare to work and organizations that provide marriage education and preparation services to help couples who choose marriage for themselves, develop the skills and knowledge to form and sustain healthy marriages. Although the CCF program has addressed issues of at-risk youth in the past, this year, President Bush has specifically identified the need to focus on helping at-risk youth overcome the perilous risk of gang influence and involvement. Consequently, those interested in proposing at-risk youth activities are encouraged to propose projects that address these critical youth issues.

This announcement represents a new direction resulting from experience over the first three years of the CCF program. Consistent with the aim of a demonstration project, we intend to test innovative and creative approaches to grants in aid. Consequently, this announcement proposes a 17 month
