NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Records Schedules; Availability and Request for Comments

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current Government business. They authorize the preservation of records of continuing value in the National Archives of the United States and the destruction, after a specified period, of records lacking administrative, legal, research, or other value. Notice is published for records schedules in which agencies propose to destroy records not previously authorized for disposal or reduce the retention period of records already authorized for disposal. NARA invites public comments on such records schedules, as required by 44 U.S.C. 3303a(a).

DATES: Requests for copies must be received in writing on or before June 17, 2005. Once the appraisal of the records is completed, NARA will send a copy of the schedule. NARA staff usually prepare appraisal memorandums that contain additional information concerning the records covered by a proposed schedule. These, too, may be requested and will be provided once the appraisal is completed. Requesters will be given 30 days to submit comments.

ADDRESSES: You may request a copy of any records schedule identified in this notice by contacting the Life Cycle Management Division (NWML) using one of the following means:

Mail: NARA (NWML), 8601 Adelphi Road, College Park, MD 20740-6001.

E-mail: records.mgt@nara.gov.

FAX: 301-837-3698.

Requesters must cite the control number, which appears in parentheses after the name of the agency which submitted the schedule, and must provide a mailing address. Those who desire appraisal reports should so indicate in their request.

FOR FURTHER INFORMATION CONTACT: Paul M. Wester, Jr., Director, Life Cycle Management Division (NWML), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001. Telephone: 301-837-3120. E-mail: records.mgt@nara.gov.

SUPPLEMENTARY INFORMATION: Each year Federal agencies create billions of records on paper, film, magnetic tape, and other media. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA's approval, using the Standard Form (SF) 115, Request for Records Disposition Authority. These schedules provide for the timely transfer into the National Archives of historically valuable records and authorize the disposal of all other records after the agency no longer needs them to conduct its business. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

No Federal records are authorized for destruction without the approval of the Archivist of the United States. This approval is granted only after a thorough consideration of their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and whether or not they have historical or other value.

Besides identifying the Federal agencies and any subdivisions requesting disposition authority, this public notice lists the organizational unit(s) accumulating the records or indicates agency-wide applicability in the case of schedules that cover records that may be accumulated throughout an

agency. This notice provides the control number assigned to each schedule, the total number of schedule items, and the number of temporary items (the records proposed for destruction). It also includes a brief description of the temporary records. The records schedule itself contains a full description of the records at the file unit level as well as their disposition. If NARA staff has prepared an appraisal memorandum for the schedule, it too includes information about the records. Further information about the disposition process is available on request.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Office of Presidential Libraries; Proposed Disposal of Clinton Administration Electronic Backup Tapes

AGENCY: National Archives and Records Administration (NARA).

ACTION: Presidential Records Act notice of proposed disposal of Clinton Administration backup tapes containing redundant information; request for public comment.

SUMMARY: The National Archives and Records Administration (NARA) has identified Clinton backup tapes, housed at the National Archives at College Park, Maryland, as appropriate for disposal under the provisions of 44 U.S.C. 2203(f)(3). This notice describes the Presidential record information on these backup tapes and our reasons for determining that these backup tapes have insufficient administrative, historical, informational, or evidentiary value to warrant their continued preservation. NARA is maintaining the Presidential record information on these backup tapes on a different set of electronic media. NARA will review timely public comments received on this notice before making a final determination on the disposal of the records.

DATES: Comments are due by June 17, 2005.

ADDRESSES: Comments regarding the proposed disposal of these Presidential records must be sent in writing to Sharon K. Fawcett, National Archives and Records Administration, Suite 2200, 8601 Adelphi Road, College Park, Maryland 20740-6001; or by fax to 301-837-3199; or by e-mail to sharon.fawcett@nara.gov.

FOR FURTHER INFORMATION CONTACT: Sharon K. Fawcett at 301-837-3250.

SUPPLEMENTARY INFORMATION: NARA proposes the disposition of 9,193 backup tapes created during the Clinton Administration by White House Communications Agency (WHCA) staff because NARA has determined that they lack continuing administrative, historical, informational or evidentiary

value. The tapes contain duplicate versions of classified electronic records for a small number of staff members in the Clinton Administration National Security Council, consisting primarily of electronic calendar data. NARA will continue to retain on other electronic media a full set of copies of the Presidential records on the backup tapes proposed for disposal.

During the Clinton Administration, a very small number of NSC staff (and their secretaries) continued to use older software known as PROFS, primarily to maintain electronic calendars and call logs, including for the scheduling of daily activities and appointments. PROFS (Professional/Office Vision software) was an IBM proprietary office management tool available to NSC staff and supported by WHCA. NSC staff maintaining PROFS calendars and call logs included the Assistants to the President for National Security, their Deputies, members of the NSC Office of the Executive Secretary, and certain additional NSC staff. All NSC staff separately used the NSC Classified E-mail System known as "A-1" or "All-in-One," later migrated to Microsoft Mail and Microsoft Schedule, as their primary e-mail system. NARA has copies of all NSC Classified E-mail and Calendars maintained on this latter NSC e-mail system in a separate series of Clinton Presidential records that are being retained permanently.

Throughout the eight years of the Clinton Administration, WHCA prepared periodic backup tapes of the PROFS system. The periodic backups captured data from the entire system, i.e., each new backup copied new data plus cumulative data already captured on prior backups (including data in closed accounts representing former staff in previous Administrations). The backups also contain nonrecord software and systems information captured by NSC and WHCA's disaster recovery operation at the time of tape creation.

For backup tapes created during the time period between January 20, 1993 and March 28, 1994, all PROFS notes, documents, calendars and call log information on the tapes were made subject to a tape restoration project (TRP) conducted in response to stipulations and orders entered in the case of *Armstrong v. Executive Office of the President*, Civ. No. 89-0142 (D.D.C.), and NARA will continue to retain these records. (The PROFS notes and documents function was only in use through June 30, 1993, and all such e-mails have been restored.) Similarly, all legacy data (notes, documents, calendars, and call logs) from previous

Administrations also were restored pursuant to the *Armstrong* TRP. Both the restored Ronald Reagan and George H.W. Bush PROFS records and the separately preserved Reagan and Bush era backup tapes are maintained by NARA as separate collections and are not the subject of this proposed disposal.

In addition, NARA will permanently retain multiple preservation copies of the January 19, 2001, backup tape created by WHCA containing cumulative data from the entire eight year span of the Clinton Administration on this system. NARA also is retaining a comprehensive "snapshot" in electronic form of all calendar data and call logs contained on the January 19, 2001, backup tape of the records of five high-level NSC officials (Anthony Lake, Samuel Berger, Nancy Soderberg, Donald Kerrick, and James Steinberg) during the entirety of their service in the Clinton Administration.

Although the materials are currently classified and are otherwise subject to access restrictions imposed by the Presidential Records Act (44 U.S.C. 2204(a)), NARA will be able to respond to future access requests for the electronic calendars, call logs, and e-mail of high-level NSC officials, both as restored in response to litigation and as contained on the snapshot being retained from the last day of the Clinton Administration. Because NARA already retains all of the records of archival value, these 9,193 backup tapes do not warrant permanent retention and are disposable.

This notice does not constitute a final agency action as described in 44 U.S.C. 2203(f)(3) and no Presidential records will be disposed of following this notice. NARA will publish a second notice in the **Federal Register** only after it has considered any comments received during this 45-day comment period. The second, 60-day notice will constitute a final agency action in the event NARA proceeds with disposal.

Dated: April 27, 2005.

Sharon K. Fawcett,

Acting Assistant Archivist for Presidential Libraries.
