

We did not receive a notice of intent to participate from domestic interested parties in any of these sunset reviews by the deadline dates. See 19 CFR 351.218(d)(1)(iii)(A). As a result, the Department determined that no domestic interested party intends to participate in the sunset reviews, and on October 21, 2004, we notified the International Trade Commission, in writing, that we intended to issue a final determination revoking these antidumping duty orders. See 19 CFR 351.218(d)(1)(iii)(B)(2).

Scope of the Orders:

The merchandise covered by these orders includes all grades of sodium thiosulfate, in dry or liquid form, used primarily to dechlorinate industrial waste water, from the People's Republic of China, Germany, and the United Kingdom. The chemical composition of sodium thiosulfate is Na₂S₂O₃. Currently, subject merchandise is classified under item number 2832.30.1000 of the Harmonized Tariff Schedule of the United States ("HTS"). The above HTSUS subheading is provided for convenience and customs purposes. The written description remains dispositive.

Determination to Revoke

Pursuant to section 751(c)(3)(A) of the Act and 19 CFR 351.218(d)(1)(iii)(B)(3), if no domestic interested party files a notice of intent to participate, the Department shall issue a final determination revoking the order within 90 days after the initiation of the review. Because the domestic interested parties did not file a notice of intent to participate in these sunset reviews, the Department finds that no domestic interested party is participating in these sunset reviews. Therefore, consistent with 19 CFR 351.222(i)(2)(i) and section 751(c)(6)(A)(iii) of the Act, we are revoking these antidumping duty orders effective March 7, 2005, the fifth anniversary of the date the Department published the continuation of the antidumping duty orders.

Effective Date of Revocation

Pursuant to sections 751(c)(3)(A) and 751(c)(6)(A)(iii) of the Act and 19 CFR 351.222(i)(2)(i), the Department will instruct U.S. Customs and Border Protection to terminate the suspension of liquidation of the merchandise subject to these orders entered, or withdrawn from warehouse, on or after March 7, 2005. Entries of subject merchandise prior to the effective date of revocation will continue to be subject to suspension of liquidation and antidumping duty deposit requirements. The Department will complete any

pending administrative reviews of these orders and will conduct administrative reviews of subject merchandise entered prior to the effective date of revocation in response to appropriately filed requests for review.

These five-year (sunset) reviews and notice are in accordance with sections 751(c) and 777(i)(1) of the Act.

Dated: May 2, 2005.

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.

Solid Urea from Ukraine; Final Results of the Expedited Sunset Review of the Antidumping Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On October 1, 2004, the Department of Commerce ("the Department") initiated a sunset review of the antidumping duty ("AD") order on solid urea from Ukraine pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). See *Initiation of Five-year (Sunset) Reviews*, 69 FR 58890 (October 1, 2004). On the basis of a notice of intent to participate, an adequate substantive response filed on behalf of the domestic interested parties, and inadequate response from respondent interested parties (in this case, no response), the Department conducted an expedited sunset review of this order pursuant to section 751(c)(3)(B) of the Act and section 351.218(e)(1)(ii)(B) of the Department's regulations. As a result of this sunset review, the Department finds that revocation of the AD order would likely lead to continuation or recurrence of dumping at the levels indicated in the "Final Results of Review" section of this notice.

EFFECTIVE DATE: May 9, 2005.

FOR FURTHER INFORMATION CONTACT: Hilary Sadler, Esq., Office of Policy for Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-4340.

SUPPLEMENTARY INFORMATION:

Background:

On October 1, 2004, the Department initiated a sunset review of the AD order on solid urea from Ukraine pursuant to

section 751(c) of the Act. See *Initiation of Five-year (Sunset) Reviews*, 69 FR 58890 (October 1, 2004). The Department received a Notice of Intent to Participate from the following domestic interested parties: the Ad Hoc Committee of Domestic Nitrogen Producers, (consisting of CF Industries, Inc. and PCS Nitrogen Fertilizer, LP (collectively "the Ad Hoc Committee")), and Agrium U.S., Inc. (collectively "the domestic interested parties") within the deadline specified in 19 CFR 351.218(d)(1)(I) of the Department's regulations. The domestic interested parties claimed interested party status under sections 771(9)(C) and (D) of the Act, as domestic manufacturers of urea or coalition whose members are engaged in the production of urea in the United States. The Department received a complete substantive response collectively from the domestic interested parties within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i). However, the Department did not receive any responses from the respondent interested parties to this proceeding. As a result, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), the Department conducted an expedited sunset review of this antidumping duty order.

Scope of the Order:

The merchandise covered by this order is solid urea, a high-nitrogen content fertilizer which is produced by reacting ammonia with carbon dioxide. The product is currently classified under the Harmonized Tariff Schedules of the United States Annotated ("HTS") item 3102.10.00.00. During previous reviews such merchandise was classified under item number 480.3000 of the Tariff Schedules of the United States. The HTS item number is provided for convenience and customs purposes. The written description remains dispositive as the scope of the product coverage.

Analysis of Comments Received:

All issues raised in this review are addressed in the Issues and Decision Memorandum ("Decision Memorandum") from Ronald K. Lorentzen, Acting Director, Office of Policy, Import Administration, to Joseph A. Spetrini, Acting Assistant Secretary for Import Administration, dated May 2, 2005, which is hereby adopted by this notice. The issues discussed in the accompanying Decision Memorandum include the likelihood of continuation or recurrence of dumping were the order revoked. Parties can find a complete discussion of all issues raised in this review and the corresponding recommendations in this public

memorandum which is on file in the Central Records Unit, room B-099, of the main Commerce building. In addition, a complete version of the Decision Memorandum can be accessed directly on the Web at <http://ia.ita.doc.gov/frn>, under the heading "May 2005." The paper copy and electronic version of the Decision Memorandum are identical in content.

Final Results of Review:

The Department determines that revocation of the antidumping duty order on solid urea from Ukraine would be likely to lead to continuation or recurrence of dumping at the rates listed below:

Producers/Exporters	Margin (percent)
Phillip Brothers, Ltd./ Phillip Brothers, Inc. ...	53.23 percent
Country-wide rate	68.26 percent

Notification regarding Administrative Protective Order:

This notice also serves as the only reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305 of the Department's regulations. Timely notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing the results and notice in accordance with sections 751(c), 752, and 777(i)(1) of the Act.

Dated: May 2, 2005.

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Office of Oceanic and Atmospheric Research; External Review of NOAA's Hurricane Intensity Research and Development Enterprise

AGENCY: Office of Oceanic and Atmospheric Research (OAR), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

ACTION: Notice of solicitation for members of a NOAA hurricane intensity

research and development enterprise review panel.

SUMMARY: The Under Secretary of Commerce for Oceans and Atmosphere has requested the NOAA Science Advisory Board (SAB) to conduct an external review of NOAA's hurricane intensity research and development enterprise. The SAB is chartered under the Federal Advisory Committee Act and is the only Federal Advisory Committee with the responsibility to advise the Under Secretary on long- and short-range strategies for research, education, and application of science to resource management and environmental assessment and prediction. The SAB is forming an external panel to conduct a review and draft recommendations that will lead to future generations of numerical hurricane model forecasts as well as improvements in operational forecasting. Nominations to the panel are being solicited. The intent is to select from the nominees; however, the SAB retains the prerogative to name people to the review team that were not nominated if it deems it necessary to achieve the desired balance. Once selected, the SAB will post the review panel members' names at <http://www.sab.noaa.gov>.

DATES: Nominations must be received by twenty-one days from publication of this notice.

ADDRESSES: Nominations should be submitted electronically to noaa.sab.hurricane@noaa.gov.

FOR FURTHER INFORMATION CONTACT: Dr. Michael Uhart: 301-713-9121, ext. 159.

SUPPLEMENTARY INFORMATION: The external review team will consist of no less than eight members whose expertise as a group covers tropical cyclone instrumentation; observations and modeling; atmospheric and ocean dynamics, data assimilation, and modeling; vortex dynamics; fluid mechanics; operational numerical environmental modeling; and forecast operations. The reviewers should have the following qualifications:

1. National and international professional recognition;
2. Knowledge of and experience with the science which supports NOAA's tropical cyclone research and operations;
3. Knowledge of and experience with the organization and management of complex mission-oriented research and development programs;
4. No perceived or actual vested interest or conflict of interest that might undermine the credibility of the review.

It is of note here that except for qualification criteria 4, the criteria are not absolute requirements. The qualifications of some individuals are expected to be outstanding with respect to one or more of the criteria, so that being unqualified with respect to other criteria would not make them ineligible. The Terms of Reference for the review is posted at: <http://www.sab.noaa.gov/doc/documents.html>. The working group will prepare a preliminary report of its analysis and findings for the March 2006 SAB meeting and a final report, including recommendations, for the July 2006 SAB meeting. The working group will be dissolved after completing any follow-on requests by the SAB following the July 2006 meeting.

Nominations: Anyone is eligible to nominate and self-nominations will be accepted. Nominations should provide: (1) The nominee's full name, title, institutional affiliation, and contact information; (2) the nominee's area(s) of expertise; and (3) a short description of their qualifications relative to the kinds of advice being solicited. Inclusion of a resume is desirable.

Louisa Koch,

Deputy Assistant Administrator, Office of Oceanic and Atmospheric Research, National Oceanic and Atmospheric Administration.
