BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Office of Community Services; Community Services Block Grant Training and Technical Assistance Program: Special State Technical Assistance

Announcement Type: Initial.

Funding Opportunity Number: HHS-2005-ACF-OCS-EZ-0026.

CFDA Number: 93.569.

Due Date for Applications:

Application is due June 27, 2005.

Executive Summary: The Office of Community Services (OCS) within the Administration for Children and Families (ACF) announces that competing applications will be accepted for a new grant pursuant to the Secretary's authority under section 674(b) of the Community Services Block Grant (CSBG) Act, as amended, by the Community Opportunities, Accountability, and Training and Educational Services (COATES) Human Services Reauthorization Act of 1998 (Pub. L. 105-285).

The proposed grant program, the Special State Technical Assistance Program, will fund 12 to 15 State CSBG Lead Agencies and/or State Community Action Associations to develop and support interventions in cases where an eligible entity is in a crisis situation.

I. Funding Opportunity Description

Under sections 674(b)(2)(B) and 678A, funds may be used by the Secretary to assist States in carrying out corrective action activities of the CSBG and monitoring to correct programmatic deficiencies of eligible entities. States are required to determine whether eligible entities meet the performance goals, administrative standards, financial management obligations and other requirements of the State. The CSBG legislation mandates that States offer to eligible entities training and technical assistance (T&TA), as appropriate, prior to any termination procedures. It also requires States to carry out corrective activities and to monitor all eligible entities at least every three years.

The CSBG Act requires States to conduct regular, on-site reviews of

eligible entities. When a State determines that an eligible entity has a deficiency that must be corrected, the CSBG legislation mandates that the State offer an eligible entity T&TA, if appropriate, to help correct such a deficiency. A State may support this T&TA with the CSBG funds remaining after it has made grants to eligible entities. However, OCS recognizes that, in some instances, the problem to be addressed may be of such a complex or pervasive nature that it cannot be adequately addressed with the resources available to the State CSBG Administrator.

In addition to the standard procedures outlined above, H.R. Rep. 108-636 (September 7, 2004) makes the following recommendation: "The Committee further encourages Training and Technical Assistance funding appropriated for fiscal year 2005 to be used for activities to carry out corrective action and monitoring activities (including the development of reporting systems and electronic data systems) to assist States in continuing to improve their local programs."

Definitions of Terms

The following definitions apply:

Community Action Agency (CAA)—refers to local-level organizations that are Community Services Block Grant (CSBG) Eligible Entities (Section 673(1)(A))—the term "eligible entity" means an entity that is an eligible entity described in Section 673(1)(a) of the CSBG Act. They provide a number of types of assistance with the goals of reducing poverty and enabling low-income families to become economically self-sufficient.

Community Services Network—refers to the various organizations involved in planning and implementing programs funded through the CSBG or providing training, technical assistance or support to them. The network includes local CAAs and other eligible entities; State CSBG offices and their national association; CAA State, regional and national associations; and related organizations that collaborate and participate with CAAs and other eligible entities in their efforts on behalf of low-income people.

Cooperative Agreement—an award instrument of financial assistance when substantial involvement is anticipated between the awarding office, (the Federal government) and the recipient during performance of the contemplated project. Substantial involvement may include collaboration or participation by OCS staff in activities specified in the award and, as appropriate, decision-making at specified milestones related

to performance. The involvement may range from joint conduct of a project to OCS approval prior to the recipient's undertaking the next phase in a project.

Eligible Entities—(Section 673(1)(A))—an eligible entity as described in section 673(1)(A) of the CSBG Act (as in effect on the day before the date of enactment of the COATES Human Services Reauthorization Act of 1998) or is designated by the process described in section 676A (including an organization serving migrant or seasonal farmworkers that is so described or designated) and has a tripartite board (Section 676B of the CSBG Act) or other mechanism described in the CSBG Act.

Special Note: Under the Act, CAAs are eligible entities; however not all eligible entities are CAAs. Throughout this announcement, the reference is to organizations defined in section 673(1)(A) of the CSBG Act whenever CAAs are mentioned.

Nationwide—refers to the scope of the technical assistance, training, data collection, or other capacity-building projects to be undertaken with grant funds. Nationwide projects must provide for the implementation of technical assistance, training or data collection for all or a significant number of States, and the CAAs and other local service providers who administer CSBG funds.

Non-profit Organization—refers to an organization, including faith-based or community-based, which meets the requirement for proof of non-profit status in the "Additional Information on Eligibility" section of this announcement and has demonstrated experience in providing training to individuals and organizations on methods of effectively addressing the needs of low-income families and communities.

Outcome Measures—are indicators that focus on the direct results one wants to have on customers and on communities.

Performance Measurement—is a tool used to assess how a program is accomplishing its mission through the delivery of products, services and activities.

It involves setting goals and strategies and developing plans and techniques that focus on a result-oriented performance based model for management.

State—means each of the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico. Except

where specifically noted, for purposes of this program announcement, it also includes Territories as defined below.

Technical assistance—is an activity, generally utilizing the services of an expert (often a peer), aimed at enhancing capacity, improving programs and systems, or solving specific problems. Such services may be provided proactively to improve systems or as an intervention to solve specific problems.

Territories—refers to Guam, American Samoa, the United States Virgin Islands, and the Commonwealth of the Northern Mariana Islands.

Training—is an educational activity or event that is designed to impart knowledge, understanding or increase the development of skills. Such training activities may be in the form of assembled events such as workshops, seminars, conferences or programs of self-instructional activities.

Program Purpose, Scope and Focus

The purpose of this program priority area is to improve the capacity of States in carrying out corrective action activities and monitoring to correct programmatic deficiencies of eligible entities. The grant will support interventions in cases where an eligible entity is in a crisis situation. It will preclude the need for termination hearings and proceedings by stabilizing eligible entities in crises and correcting programmatic deficiencies, if possible.

Program Statutes

Section 319 of Public Law 101–121, signed into law on October 23, 1989, imposes prohibitions and requirements for disclosure and certification related to lobbying on recipients of Federal contracts, grants, cooperative agreements, and loans. It provides exemptions for Indian tribes and tribal organizations. Current and prospective recipients (and their sub-tier contractors and/or grantees) are prohibited from using Federal funds, other than profits from a Federal contract, for lobbying Congress or any Federal agency in connection with the award of a contract, grant, cooperative agreement, or loan. In addition, for each award action in excess of \$100,000 (or \$150,000 for loans) the law requires recipients and their sub-tier contractors and/or sub-grantees (1) to certify that they have neither used nor will use any appropriated funds for payment to lobbyists, (2) to disclose the name, address, payment details, and purpose of any agreements with lobbyists whom recipients or their sub-tier contractors or sub-grantee will pay with profits or non-appropriated funds on or after December

22, 1989, and (3) to file quarterly updates about the use of lobbyists if material changes occur in their use. The law establishes civil penalties for noncompliance. Required Certification and Disclosure forms to be submitted with your application are attached.

Public Law 103–227, Part C. Environmental Tobacco Smoke, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, day care, education, or library services to children under the age of 18, if the services are funded by Federal programs either directly or through States and local government by Federal grant, contract, loan or loan guarantee. The law does not apply to facilities funded solely by Medicare or Medicaid funds, and portions of facilities used for in-patient drug or alcohol treatment. Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to \$1,000 per day and/or the imposition of an administrative compliance order on the responsible entity.

By signing and submitting this application the applicant certifies that s/he will comply with the requirement of the Act. The applicant/grantee further agrees that it will require the language of this certification be included in any sub-awards, which contain provisions for children's services and that all sub-grantees shall certify accordingly.

Priority Area 1

Special State Technical Assistance Program

1. Description: The purpose of this program priority area is to improve the capacity of States in carrying out corrective action activities and monitoring to correct programmatic deficiencies of eligible entities. The grant will support interventions in cases where a CSBG eligible entity is in a crisis situation. It will preclude the need for termination hearings and proceedings by stabilizing eligible entities in crises and correcting programmatic deficiencies, if possible.

The Office of Community Services (OCS) within the Administration for Children and Families (ACF) announces that competing applications will be accepted for a new grant pursuant to the Secretary's authority under section 674(b) of the Community Services Block Grant (CSBG) Act, as amended, by the Community Opportunities, Accountability, and Training and Educational Services (COATES) Human

Services Reauthorization Act of 1998, (Pub. L. 105–285). The proposed grant program, the Special State Technical Assistance Program, will fund 12 to 15 State CSBG Lead Agencies and/or State Community Action Associations to develop and support interventions in cases where an eligible entity is in a crisis situation.

Under sections 674(b)(2)(B) and 678A, funds may be used by the Secretary to assist States in carrying out corrective action activities of the CSBG and monitoring to correct programmatic deficiencies of eligible entities. States are required to determine whether eligible entities meet the performance goals, administrative standards, financial management obligations and other requirements of the State. The CSBG legislation mandates that States offer to eligible entities training and technical assistance (T&TA), if appropriate, prior to any termination procedures. It also requires States to carry out corrective activities and to monitor all eligible entities at least every three years.

The CSBG Act requires States to conduct regular, on-site reviews of eligible entities. When a State determines that an eligible entity has a deficiency that must be corrected, the CSBG legislation mandates that the State offer an eligible entity training and technical assistance (T&TA), if appropriate, to help correct such a deficiency. A State may support this T&TA with the CSBG funds remaining after it has made grants to eligible entities. However, OCS recognizes that, in some instances, the problem to be addressed may be of such a complex or pervasive nature that it cannot be adequately addressed with the resources available to the State CSBG Administrator.

In addition to the standard procedures outlined above, the H.R. Rep. 108–636 (September 7, 2004) makes the following recommendation: "The Committee further encourages Training and Technical Assistance funding appropriated for fiscal year 2005 to be used for activities to carry out corrective action and monitoring activities (including the development of reporting systems and electronic data systems) to assist States in continuing to improve their local programs."

4. Intergovernmental Review

State Single Point of Contact (SPOC)

This program is covered under Executive Order 12372, "Intergovernmental Review of Federal Programs," and 45 CFR Part 100, "Intergovernmental Review of Department of Health and Human Services Programs and Activities." Under the Order, States may design their own processes for reviewing and commenting on proposed Federal assistance under covered programs.

As of October 1, 2004, the following jurisdictions have elected to participate in the Executive Order process: Arkansas, California, Delaware, District of Columbia, Florida, Georgia, Illinois, Iowa, Kentucky, Maine, Maryland, Michigan, Mississippi, Missouri, Nevada, New Hampshire, New Mexico, New York, North Dakota, Rhode Island, South Carolina, Texas, Utah, West Virginia, Wisconsin, American Samoa, Guam, North Mariana Islands, Puerto Rico, and Virgin Islands. As these jurisdictions have elected to participate in the Executive Order process, they have established SPOCs. Applicants from participating jurisdictions should contact their SPOC, as soon as possible, to alert them of prospective applications and receive instructions. Applicants must submit all required materials, if any, to the SPOC and indicate the date of this submittal (or the date of contact if no submittal is required) on the Standard Form 424, item 16a. Under 45 CFR 100.8(a)(2).

A SPOC has 60 days from the application deadline to comment on proposed new or competing continuation awards. SPOCs are encouraged to eliminate the submission of routine endorsements as official recommendations. Additionally, SPOCs are requested to clearly differentiate between mere advisory comments and those official State process recommendations which may trigger the "accommodate or explain" rule.

When comments are submitted directly to ACF, they should be addressed to the U.S. Department of Health and Human Services, Administration for Children and Families, Office of Grants Management, Division of Discretionary Grants, 370 L'Enfant Promenade, SW., 4th floor, Washington, DC 20447.

Although the remaining jurisdictions have chosen not to participate in the process, entities that meet the eligibility requirements of the program are still eligible to apply for a grant even if a State, Territory, Commonwealth, etc. does not have a SPOC. Therefore, applicants from these jurisdictions, or

for projects administered by federally-recognized Indian Tribes, need take no action in regard to E.O. 12372.

The official list, including addresses, of the jurisdictions that have elected to participate in E.O. 12372 can be found on the following URL: <http://www.whitehouse.gov/omb/grants/spoc.html>.

5. Funding Restrictions

Grant awards will not allow reimbursement of pre-award costs.

OCS will not fund any project where the role of the applicant is primarily to serve as a conduit for funds to organizations other than the applicant. The applicant must have a substantive role in the implementation of the project for which funding is requested. This prohibition does not bar the making of sub-grants or sub-contracting for specific services or activities needed to conduct the project.

Each application may include only one proposed project.

6. Other Submission Requirements

Submission by Mail: An applicant must provide an original application with all attachments, signed by an authorized representative and two copies. Please see *Section IV.3* for an explanation of due dates. Applications should be mailed to: Department of Health and Human Services (HHS), Administration for Children and Families (ACF), Office of Community Services (OCS) Operations Center, Attention: Barbara Ziegler Johnson, 1515 Wilson Blvd., Suite 100, Arlington, VA 22209.

Hand Delivery: An applicant must provide an original application with all attachments signed by an authorized representative and two copies. V. Application Review Information

The Paperwork Reduction Act of 1995 (Pub. L. 104-13)

Public reporting burden for this collection of information is estimated to average 10 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed and reviewing the collection information.

The project description is approved under OMB control number 0970-0139 which expires 4/30/2007.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

1. Criteria

The following are instructions and guidelines on how to prepare the "project summary/abstract" and "full project description" sections of the application. Under the evaluation criteria section, note that each criterion is preceded by the generic evaluation requirement under the ACF Uniform Project Description (UPD).

Part I—The Project Description Overview

Purpose

The project description provides a major means by which an application is evaluated and ranked to compete with other applications for available assistance. The project description should be concise and complete and should address the activity for which Federal funds are being requested. Supporting documents should be included where they can present information clearly and succinctly. In preparing your project description, information responsive to each of the requested evaluation criteria must be provided. Awarding offices use this and other information in making their funding recommendations. It is important, therefore, that this information be included in the application in a manner that is clear and complete.

General Instructions

ACF is particularly interested in specific project descriptions that focus on outcomes and convey strategies for achieving intended performance. Project descriptions are evaluated on the basis of substance and measurable outcomes, not length. Extensive exhibits are not required. Cross-referencing should be used rather than repetition. Supporting information concerning activities that will not be directly funded by the grant or information that does not directly

pertain to an integral part of the grant funded activity should be placed in an appendix. Pages should be numbered and a table of contents should be included for easy reference.

Introduction

Applicants required to submit a full project description shall prepare the project description statement in accordance with the following instructions while being aware of the specified evaluation criteria. The text options give a broad overview of what your project description should include while the evaluation criteria identifies the measures that will be used to evaluate applications.

Project Summary/Abstract

Provide a summary of the project description (a page or less) with reference to the funding request.

Objectives and Need for Assistance

Clearly identify the physical, economic, social, financial, institutional, and/or other problem(s) requiring a solution. The need for assistance must be demonstrated and the principal and subordinate objectives of the project must be clearly stated; supporting documentation, such as letters of support and testimonials from concerned interests other than the applicant, may be included. Any relevant data based on planning studies should be included or referred to in the endnotes/footnotes. Incorporate demographic data and participant/beneficiary information, as needed. In developing the project description, the applicant may volunteer or be requested to provide information on the total range of projects currently being conducted and supported (or to be initiated), some of which may be outside the scope of the program announcement.

Results or Benefits Expected

Identify the results and benefits to be derived.

Explain how the project will assist the CSBG eligible entity in correcting programmatic deficiencies and stabilizing program operations.

Approach

Outline a plan of action that describes the scope and detail of how the proposed work will be accomplished. Account for all functions or activities identified in the application. Cite factors that might accelerate or decelerate the work and state your reason for taking the proposed approach rather than others. Describe any unusual features of the project such as design or

technological innovations, reductions in cost or time, or extraordinary social and community involvement.

Provide quantitative monthly or quarterly projections of the accomplishments to be achieved for each function or activity in such terms as the number of people to be served and the number of activities accomplished.

Evaluation

Provide a narrative addressing how the conduct of the project and the results of the project will be evaluated. In addressing the evaluation of results, state how you will determine the extent to which the project has achieved its stated objectives and the extent to which the accomplishment of objectives can be attributed to the project. Discuss the criteria to be used to evaluate results, and explain the methodology that will be used to determine if the needs identified and discussed are being met and if the project results and benefits are being achieved. With respect to the conduct of the project, define the procedures to be employed to determine whether the project is being conducted in a manner consistent with the work plan presented and discuss the impact of the project's various activities on the project's effectiveness.

Organizational Profiles

Provide information on the applicant organization(s) and cooperating partners, such as organizational charts, financial statements, audit reports or statements from CPAs/Licensed Public Accountants, Employer Identification Numbers, names of bond carriers, contact persons and telephone numbers, child care licenses and other documentation of professional accreditation, information on compliance with Federal/State/local government standards, documentation of experience in the program area, and other pertinent information. If the applicant is a non-profit organization, submit proof of non-profit status in its application.

The non-profit agency can accomplish this by providing: (a) A reference to the applicant organization's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations described in the IRS Code; (b) a copy of a currently valid IRS tax exemption certificate; (c) a statement from a State taxing body, State attorney general, or other appropriate State official certifying that the applicant organization has a non-profit status and that none of the net earnings accrue to any private shareholders or individuals; (d) a certified copy of the organization's

certificate of incorporation or similar document that clearly establishes non-profit status; (e) any of the items immediately above for a State or national parent organization and a statement signed by the parent organization that the applicant organization is a local non-profit affiliate.

Third-Party Agreements

Provide written and signed agreements between grantees and subgrantees or subcontractors or other cooperating entities. These agreements must detail scope of work to be performed, work schedules, remuneration, and other terms and conditions that structure or define the relationship.

Budget and Budget Justification

Provide a budget with line-item detail and detailed calculations for each budget object class identified on the Budget Information form. Detailed calculations must include estimation methods, quantities, unit costs, and other similar quantitative detail sufficient for the calculation to be duplicated. Also include a breakout by the funding sources identified in Block 15 of the SF-424.

Provide a narrative budget justification that describes how the categorical costs are derived. Discuss the necessity, reasonableness, and allocability of the proposed costs. *Evaluation Criteria:* The following evaluation criteria appear in weighted descending order. The corresponding score values indicate the relative importance that ACF places on each evaluation criterion; however, applicants need not develop their applications precisely according to the order presented. Application components may be organized such that a reviewer will be able to follow a seamless and logical flow of information (*i.e.*, from a broad overview of the project to more detailed information about how it will be conducted).

In considering how applicants will carry out the responsibilities addressed under this announcement, competing applications for financial assistance will be reviewed and evaluated against the following criteria:

Approach 30 Points

Factors: The work program is results-oriented and appropriately related to the CSBG legislative mandate. The extent to which the applicant describes how it will involve the local CAA Board of Directors and other partners in the community in its activities. The extent to which the applicant addresses:

specific outcomes to be achieved; performance targets which the project is committed to achieving; critical milestones, which must be achieved if results are to be gained; and organizational support; the level of support including the priority this project has for the agency.

Objectives and Need for Assistance 25 Points

Factors: The applicant documents that the project addresses vital needs related to the purposes stated and discussed under this announcement.

Results or Benefits Expected 20 Points

Factor: The extent to which the applicant adequately describes how the project will assure long-term program and management improvements that will aid in removal from the "at risk category."

Organizational Profiles 20 Points

Factors: The applicant fully describes, for example in a resume, the experience and skills of the proposed resources of technical assistance showing specific qualifications including how the CSBG eligible entities will be monitored for a specified period of time following the corrective action to assure long-term program and management improvements that will aid the organization from being in the "at-risk category" again.

Budget and Budget Justification 5 Points

Factors: (a) The extent to which the resources requested are reasonable and adequate to accomplish the project. (0–3 points)

(b) The extent to which total costs are reasonable and consistent with anticipated results. (0–2 points)

2. Review and Selection Process

No grant award will be made under this announcement on the basis of an incomplete application.

Since ACF will be using non-Federal reviewers in the process, applicants have the option of omitting from the application copies (not the original) specific salary rates or amounts for individuals specified in the application budget and Social Security Numbers, if otherwise required for individuals. The copies may include summary salary information.

Approved But Unfunded Applications

In cases where more applications are approved for funding than ACF can fund with the money available, the Grants Officer shall fund applications in their order of approval until funds run out. In this case, ACF has the option of

carrying over the approved applications up to a year for funding consideration in a later competition of the same program. These applications need not be reviewed and scored again if the program's evaluation criteria have not changed. However, they must then be placed in rank order along with other applications in later competition.

VI. Award Administration Information

1. Award Notices

The successful applicants will be notified through the issuance of a Financial Assistance Award document which sets forth the amount of funds granted, the terms and conditions of the grant, the effective date of the grant, the budget period for which initial support will be given, the non-Federal share to be provided, and the total project period for which support is contemplated. The Financial Assistance Award will be signed by the Grants Officer and transmitted via postal mail.

Organizations whose applications will not be funded will be notified in writing.

2. Administrative and National Policy Requirements

Grantees are subject to the requirements in 45 CFR Part 74 (non-governmental) or 45 CFR Part 92 (governmental) and 45 CFR Part 1050.

3. Reporting Requirements

Grantees will be required to submit program progress and financial reports (SF–269) throughout the project period. Program progress and financial reports are due 30 days after the reporting period. In addition, final programmatic and financial reports are due 90 days after the close of the project period.

Program Progress Reports: Semi-Annually.

Financial Reports: Semi-Annually.
