

bromide as described in the final rule at 40 CFR part 82.

A proposed rule seeking comment and a final rule implementing the deregulatory action associated with the reporting and recordkeeping requirements outlined in this document were published in the **Federal Register** on August 25, 2004 (69 FR 52366) and on December 23, 2004 (69 FR 76982) respectively. However, the Agency mistakenly did not have an ICR approved by OMB during the development of the rulemaking and is seeking OMB approval for the burden hours associated with the prior rulemaking this time. Although the Agency published the ICR information with the proposed rule and received and reconciled comments on the burden of the rulemaking, the appropriate paperwork had not been resubmitted to OMB for their consideration with the final rule and therefore the Agency is now seeking approval for burden associated with the CUE requirements. At the present time, an emergency ICR #2179.01, is in place to facilitate the recordkeeping and reporting requirements added to 40 CFR part 82 by the final CUE rule (69 FR 76982).

This information collection is authorized under section 604(d)(6) of the Clean Air Act Amendments of 1990, added by section 764 of the 1999 Omnibus Consolidated and Emergency Supplemental Appropriations Act (Pub. L. No. 105-277; October 21, 1998).

EPA drew upon experience implementing similar regulations among the same entities in order to derive estimates of the burden associated with the reporting and recordkeeping requirements.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average 0.49 hours per response (1,371 hours divided by 2,802 responses). Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing

and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Respondents/Affected Entities:** Entities potentially affected by this action are producers, importers, distributors, and custom applicators of methyl bromide as well as users of methyl bromide who are farmers of minor vegetable crops and companies that store agricultural commodities.

**Estimated Number of Respondents:** 2054.

**Frequency of Response:** On occasion, quarterly, annually.

**Estimated Total Annual Hour Burden:** 1,371.

**Estimated Total Annual Cost:** \$154,602, which includes \$0 annualized capital/startup costs, \$0 annual O&M costs, and \$154,602 annual labor costs.

**Changes in the Estimates:** There is an increase of 577 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase is due to changes in the regulatory program which allows for exemptions to the phaseout of methyl bromide under certain circumstances which must be reported to EPA.
