AGENCY: Department of the Interior, Bureau of Land Management, Carson City Field Office, Nevada.

ACTION: Notice of availability of a draft environmental impact statement (EIS)

for the North Valleys Rights-of-Way Projects and initiation of a 60-day public comment period.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act (NEPA) and 40 CFR 1500-1508 Council on Environmental Quality Regulations (CEQ), notice is given that the Bureau of Land Management Carson City Field Office (BLM) has prepared, with the assistance of a third-party consultant, a Draft EIS for the proposed North Valleys Rights-of-Way Projects, and has made the document available for public and agency review and comment. The proposed Projects include the construction and operation of two separate water supply and transmission projects located in Washoe County, Nevada. Rights-of-way applications were submitted to the BLM from Intermountain Water Supply, LTD and Fish Springs Ranch, LLC for production wells, pump stations, transmission pipelines, terminal water storage tanks, electrical substation, overhead power lines, and access road rights-of-way.

Comments on issues and concerns should be received on or before the end of the comment period at the address listed below. Public meetings will be held throughout the comment period and preparation of the Final EIS. SUPPLEMENTARY INFORMATION: The BLM Carson City Field Office received separate rights-of-way applications from the Fish Springs Ranch, LLC and Intermountain Water Supply, LTD, two independent water companies, proposing to construct and operate water transmission pipelines across public lands in Washoe County, Nevada. The BLM determined that due to the same timing, geography, and similarity of the types of actions, the two proposals would be analyzed in one EIS, together known as the North Valleys Rights-of-Way Projects. Each company is proposing to construct and operate water supply and transmission projects to meet present and future water demands of the Stead/Silver Lake/Lemmon Valley areas (North Valleys) in Washoe County. The proposed Projects consist of groundwater production wells, pump station(s), transmission pipeline(s), electrical substation, overhead power lines, and terminal water storage tank(s) to convey water. The Fish Springs Ranch LLC proposed pipeline (carrying approximately 8000 acre-feet per year) would begin at the Fish Springs Ranch and proceed approximately 33 miles to the North Valleys. The Intermountain Water Supply, LTD proposed pipeline (carrying approximately 3500 acre-feet per year) would begin in Dry Valley and proceed east a short distance before tying into the same general route south approximately 24 miles to the North Valleys.

The Draft EIS assesses the impacts of the two proposed rights-of-way actions and the No Action alternatives and
